

## XtremeMac IPU-VWP-13

# XtremeMac View Wrap Instruction Manual

Model: IPU-VWP-13

## INTRODUCTION

---

The XtremeMac View Wrap is a versatile and compact stand designed to enhance your viewing experience with compatible iPhone and iPod Touch devices. It provides stable support for hands-free viewing of videos, photos, and video calls, and features integrated cord management for your earphones.

## SETUP

---

The XtremeMac View Wrap requires no assembly. Simply remove the stand from its packaging. It is ready for immediate use.

*Figure 1: The XtremeMac View Wrap supporting an iPhone for media viewing.*

This image shows the XtremeMac View Wrap in its open position, supporting an iPhone that is displaying a football game. The stand is black, and the iPhone is positioned horizontally for widescreen viewing. Earphones are connected to the iPhone and resting beside the stand.

## OPERATING INSTRUCTIONS

---

### Placing Your Device

1. Open the XtremeMac View Wrap by unfolding its two sections.
2. Place your iPhone or iPod Touch into the designated groove on the stand. Ensure the device is securely seated.
3. Adjust the angle by tilting your device. The stand is designed to hold your device at multiple viewing angles for optimal comfort.

*Figure 2: The View Wrap's ability to support devices at various angles.*

This image displays a side profile of the XtremeMac View Wrap, illustrating how it can hold an iPhone or iPod Touch at different inclined angles. Two devices are shown, one at a steeper angle and one at a shallower angle, demonstrating the stand's flexibility.

### Integrated Cord Management

The View Wrap features a built-in compartment for earphone cord management. When not in use, wrap your earphone cords around the central hub of the stand to keep them tidy and prevent tangling.

*Figure 3: Earphones stored within the View Wrap's cord management system.*

This image shows the XtremeMac View Wrap in its folded, compact state, with a pair of white earphones neatly wrapped around the central spool within the stand. This demonstrates the integrated cord management feature, keeping earphones organized.

### Usage Scenarios

- **Media Consumption:** Ideal for watching movies, TV shows, or YouTube videos hands-free.
- **Video Calls:** Position your device for comfortable video conferencing.
- **Photo Viewing:** Display photo slideshows or browse your gallery.
- **Desk Companion:** Keep your device upright and visible for notifications or quick access.

*Figure 4: The View Wrap facilitating a video call on an iPhone.*

This image depicts the XtremeMac View Wrap holding an iPhone vertically, with the screen displaying an active video call. This illustrates the stand's utility for hands-free communication and video conferencing.

## MAINTENANCE

---

To clean your XtremeMac View Wrap, use a soft, damp cloth. Avoid abrasive cleaners or solvents, as these may damage the finish. Ensure the stand is dry before storing or using it with your device.

## TROUBLESHOOTING

---

### Device Not Stable

- **Check Placement:** Ensure your iPhone or iPod Touch is correctly seated in the stand's groove.
- **Surface Stability:** Place the stand on a flat, stable surface.
- **Device Compatibility:** Verify that your device is compatible with the stand. The View Wrap is designed for iPhone and iPod Touch models.

### Earphone Cord Tangling

- **Proper Wrapping:** Ensure the cord is wrapped neatly around the central hub, starting from the earbud

end and working towards the plug.

- **Secure Closure:** Make sure the stand is fully closed when storing earphones to prevent them from coming loose.

SPECIFICATIONS

Feature	Detail
Brand	XtremeMac
