

## OttLite B92003

# OttLite Natural Daylight Makeup Mirror

Model: B92003

Brand: OttLite

## INTRODUCTION

---

The OttLite Natural Daylight Makeup Mirror brings the accuracy and beauty of OttLite natural lighting indoors, designed to help you apply makeup flawlessly for a confident look. The mirror features OttLite 508 Illumination, a precise blend of light wavelengths that ensures colors appear true and vibrant, and details are incredibly clear. This manual provides essential information for the proper setup, operation, and maintenance of your new makeup mirror.

## SAFETY INFORMATION

---

Please read and understand all safety instructions before using the OttLite Natural Daylight Makeup Mirror. Failure to follow these instructions may result in injury or damage to the product.

- Always place the mirror on a stable, flat surface to prevent it from falling and causing injury.
- Avoid mounting the mirror in areas where it could be easily knocked over or exposed to extreme temperatures.
- Do not use the mirror if the frame or glass is damaged to prevent potential breakage hazards.
- Ensure the power cord is not pinched or placed under heavy objects.
- Unplug the mirror from the power outlet before cleaning or when not in use for extended periods.

- Do not immerse the mirror or its power cord in water or any other liquid.
- Keep out of reach of children and pets.

## PRODUCT FEATURES

---

- **Dual-Sided Mirror:** Features 5x and 1x magnification for versatile use, perfect for detailed tasks like tweezing and nail polish application.
- **Mistake-Proof Lighting:** Designed to help blend foundation, eye shadows, blush, and more with ease, ensuring true makeup shades and skin tones are visible.
- **Accurate Color Matching:** Enables perfect matching of clothing and accessories, even for challenging colors like black, brown, and blue.
- **Eye Comfort:** Gentle on the eyes, reducing glare and eliminating harsh shadows for comfortable use.
- **Included Bulbs:** Comes with two OttLite 13-watt Type E bulbs (PL13-E).

Figure 2: The mirror's lighting ensures accurate color representation.

## SETUP

---

1. **Unpacking:** Carefully remove the makeup mirror and all packaging materials from the box. Retain packaging for future storage or transport.
2. **Placement:** Place the mirror on a flat, stable, and dry surface, such as a vanity, countertop, or desk. Ensure there is adequate space around the mirror for comfortable use and adjustment.
3. **Power Connection:** Insert the power adapter into the designated port on the back or base of the mirror. Plug the other end of the power adapter into a standard electrical outlet.

Figure 3: Ensure proper placement on a stable surface.

## OPERATING INSTRUCTIONS

---

1. **Power On/Off:** Locate the power button on the base of the mirror. Press the button once to turn the light on. Press it again to turn the light off.
2. **Selecting Magnification:** The mirror features a dual-sided design. Gently rotate the central mirror panel to switch between the 1x (true image) and 5x (magnified) sides.
3. **Adjusting Mirror Angle:** The mirror head can be tilted forward or backward to achieve your desired viewing angle. This allows for comfortable use whether sitting or standing.
4. **Folding for Storage:** For compact storage or travel, the mirror can be folded flat. Gently push the mirror head forward until it rests flat against the base.

Figure 4: The mirror offers multiple angle adjustments for optimal viewing.

Figure 5: The mirror can fold flat for convenient storage.

### MAINTENANCE

- **Cleaning:** To clean the mirror surface, use a soft, lint-free cloth and a non-abrasive glass cleaner. For the frame and base, wipe with a damp cloth and mild soap, then dry thoroughly. Do not use harsh chemicals or abrasive cleaners.
- **Bulb Replacement:** The mirror uses two OttLite 13-watt Type E bulbs (PL13-E). When a bulb needs replacement, ensure the mirror is unplugged. Carefully remove the old bulb and insert the new one, following the instructions provided with the replacement bulbs.

### TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Light does not turn on.	Power cord not properly connected or bulb is faulty.	Ensure the power cord is securely plugged into both the mirror and the wall outlet. Check if the outlet is functional. If the issue persists, the bulb may need replacement.
Mirror does not stay in position.	Hinge mechanism may be loose.	Check for any visible screws near the hinge points and gently tighten them if they appear loose. Avoid over-tightening.
Distorted image on magnified side.	Incorrect viewing distance for magnified mirror.	For magnified mirrors, you need to be closer to the mirror for a clear, undistorted image. Adjust your distance until the image is clear.

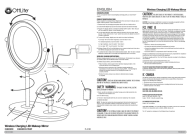

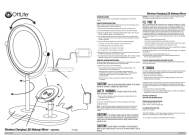

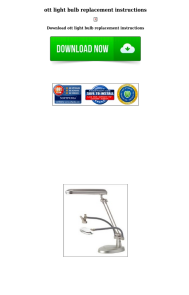

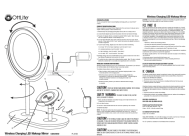

## SPECIFICATIONS

Attribute	Detail
Brand	OttLite
Model Number	B92003
