Karibu 26101

Karibu Premium Headrest User Manual

Model: 26101

1. Introduction

This manual provides essential information for the proper use and care of your Karibu Premium Headrest, Model 26101. Designed for use in saunas, this ergonomically shaped headrest offers enhanced comfort during relaxation. Please read this manual thoroughly before use to ensure optimal experience and product longevity.

Figure 1: The Karibu Premium Headrest, showcasing its natural aspen wood construction and ergonomic design. This view highlights the slatted surface and the supportive base.

2. Setup

The Karibu Premium Headrest is designed for straightforward placement within your sauna. No assembly is required.

1. **Unpacking:** Carefully remove the headrest from its packaging. Inspect for any signs of damage during transit.
2. **Placement:** Position the headrest on the sauna bench where you intend to recline. Ensure the ergonomically curved side is facing upwards and positioned to support your head and neck comfortably. The headrest is designed to be placed directly on the sauna bench.
3. **Stability Check:** Before use, gently press down on the headrest to ensure it is stable and does not wobble on the sauna bench.

Figure 2: Top-down view of the headrest, illustrating the arrangement of the wooden slats. This perspective helps in understanding the surface that supports the head.

3. Operating Instructions

The Karibu Premium Headrest is intended to enhance comfort during sauna sessions.

- **Usage:** Once placed on the sauna bench, recline and position your head and neck on the curved surface of the

headrest. The ergonomic design is intended to provide natural support and promote relaxation.

- **Adjustments:** You may slightly adjust the position of the headrest on the bench to find your most comfortable reclining angle.
- **Safety:** Ensure the headrest does not obstruct any sauna ventilation or heating elements. Always handle the headrest with care, especially when the sauna is hot.

Figure 3: A detailed close-up of the ergonomically shaped curve of the headrest. This image highlights the design feature intended for neck and head support.

4. Maintenance

Proper maintenance will help preserve the natural beauty and longevity of your Karibu Premium Headrest.

- **Cleaning:** After each use, especially in a sauna environment, wipe the headrest with a clean, damp cloth. For deeper cleaning, a mild soap solution can be used, followed by wiping with a clean, damp cloth to remove any soap residue.
- **Drying:** Allow the headrest to air dry completely in a well-ventilated area before storing or next use. Do not expose it to direct sunlight for prolonged periods, as this may cause the wood to dry out or crack.
- **Storage:** Store the headrest in a dry, cool place when not in use. Avoid extreme temperature fluctuations.
- **Wood Care:** As the headrest is made of natural wood, it may benefit from occasional treatment with a wood-specific oil or wax designed for sauna accessories to maintain its finish and prevent drying. Consult a wood care specialist if unsure.

Figure 4: An image showing the underside construction of the headrest, revealing the support structure and how the slats are joined. This view is useful for understanding the product's build quality.

5. Troubleshooting

The Karibu Premium Headrest is a simple, non-electronic accessory. Most issues are related to care and placement.

Problem	Possible Cause	Solution
Headrest feels unstable on the bench.	Uneven placement or bench surface.	Adjust the headrest's position on the bench. Ensure the bench surface is flat and level.
Wood appears dry or discolored.	Lack of proper wood care or exposure to extreme conditions.	Apply a wood-specific oil or wax suitable for sauna wood. Ensure proper drying and storage after use.
Uncomfortable during use.	Incorrect positioning.	Experiment with different placements on the sauna bench to find the most comfortable angle for your head and neck.

6. Specifications

Attribute	Detail
Model Number	26101
