

Zenna Home 2130NN

Zenna Home Shower Tension Pole Caddy Instruction Manual

Model: 2130NN - L-Shaped Shelves, Satin Nickel

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, installation, and maintenance of your Zenna Home Tension Pole Caddy. Designed to provide valuable storage in your shower, this rust-resistant caddy features adjustable L-shaped shelves to accommodate various bath items. Please read these instructions carefully before beginning assembly to ensure proper installation and safe use.

SAFETY INFORMATION

- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Install the caddy in a stable corner of your shower or bathtub.
- Do not overload the shelves. The maximum weight recommendation is 16 pounds.
- Exercise caution when adjusting the tension pole to prevent injury or damage to surfaces.
- Keep small children away from the assembly area and the installed caddy to prevent accidents.
- Regularly check the caddy for stability and tighten if necessary.

PACKAGE CONTENTS

Verify that all the following components are included in your package:

- Tension Pole Sections (various lengths, including one with a spring mechanism)
- L-Shaped Shelves (4 total, including one deep basket)
- Wedges/Collars for shelf adjustment
- End Caps (top and bottom)
- Tape Strips (for pole seams)

SETUP AND ASSEMBLY

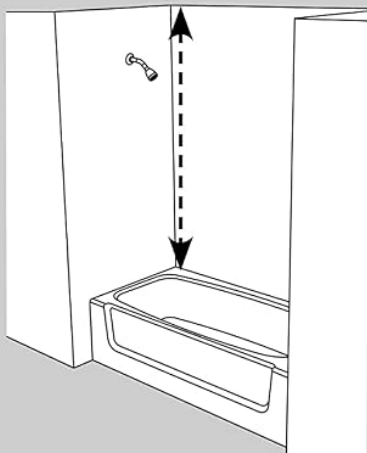

Follow these steps to assemble and install your shower caddy:

Step 1: Measure Your Shower Height

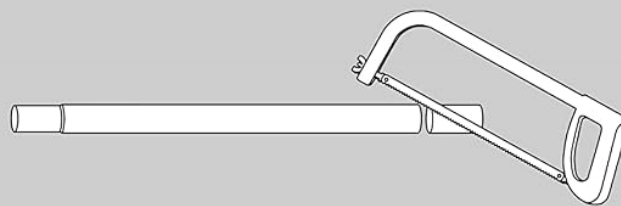

Measure the height from the tub ledge or shower floor to the ceiling. The caddy fits heights up to 97 inches (8 feet, 1 inch). Refer to the cutting chart if your shower height requires a pole adjustment.

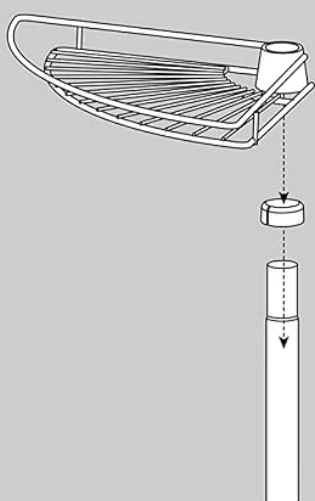

Measure the height of your shower or tub opening.

1

Measure tub or
shower stall opening

(OPTIONAL)

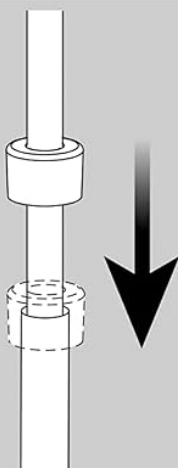

Cut tube (B) to size
(see chart for details)

2

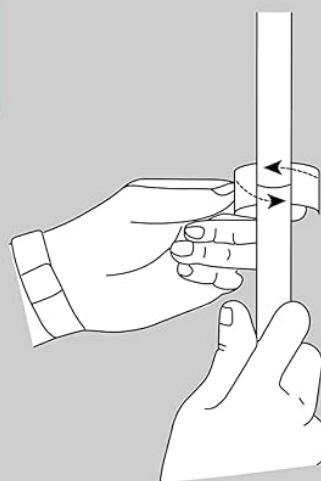

Add wedges and shelves to tubes

3

Assemble tubes

4

Add spacer between
small and large tubes

5

Add tape strips to seams

Optional: Use a hacksaw to cut tube B to size if your shower height falls within the specified ranges. Consult the chart for exact measurements.

Step 2: Assemble Tubes and Shelves

Place the wedges and shelves onto the pole sections. The shelves can be adjusted to your desired height. Assemble the

pole by connecting the sections, ensuring the straight tube with the spring mechanism is at the top.

FITS MOST STANDARD TUBS & SHOWERS

Fits up to 97" tall, can be easily cut shorter if needed

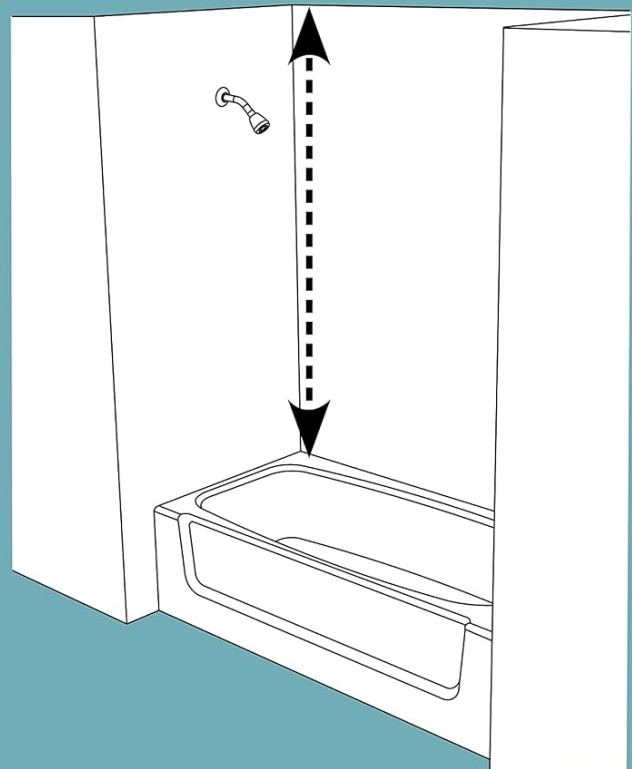

STEP 1

Measure the height of your shower.
If it is between 60-70.5" or 81-91.5" tall,
please proceed to step 2.

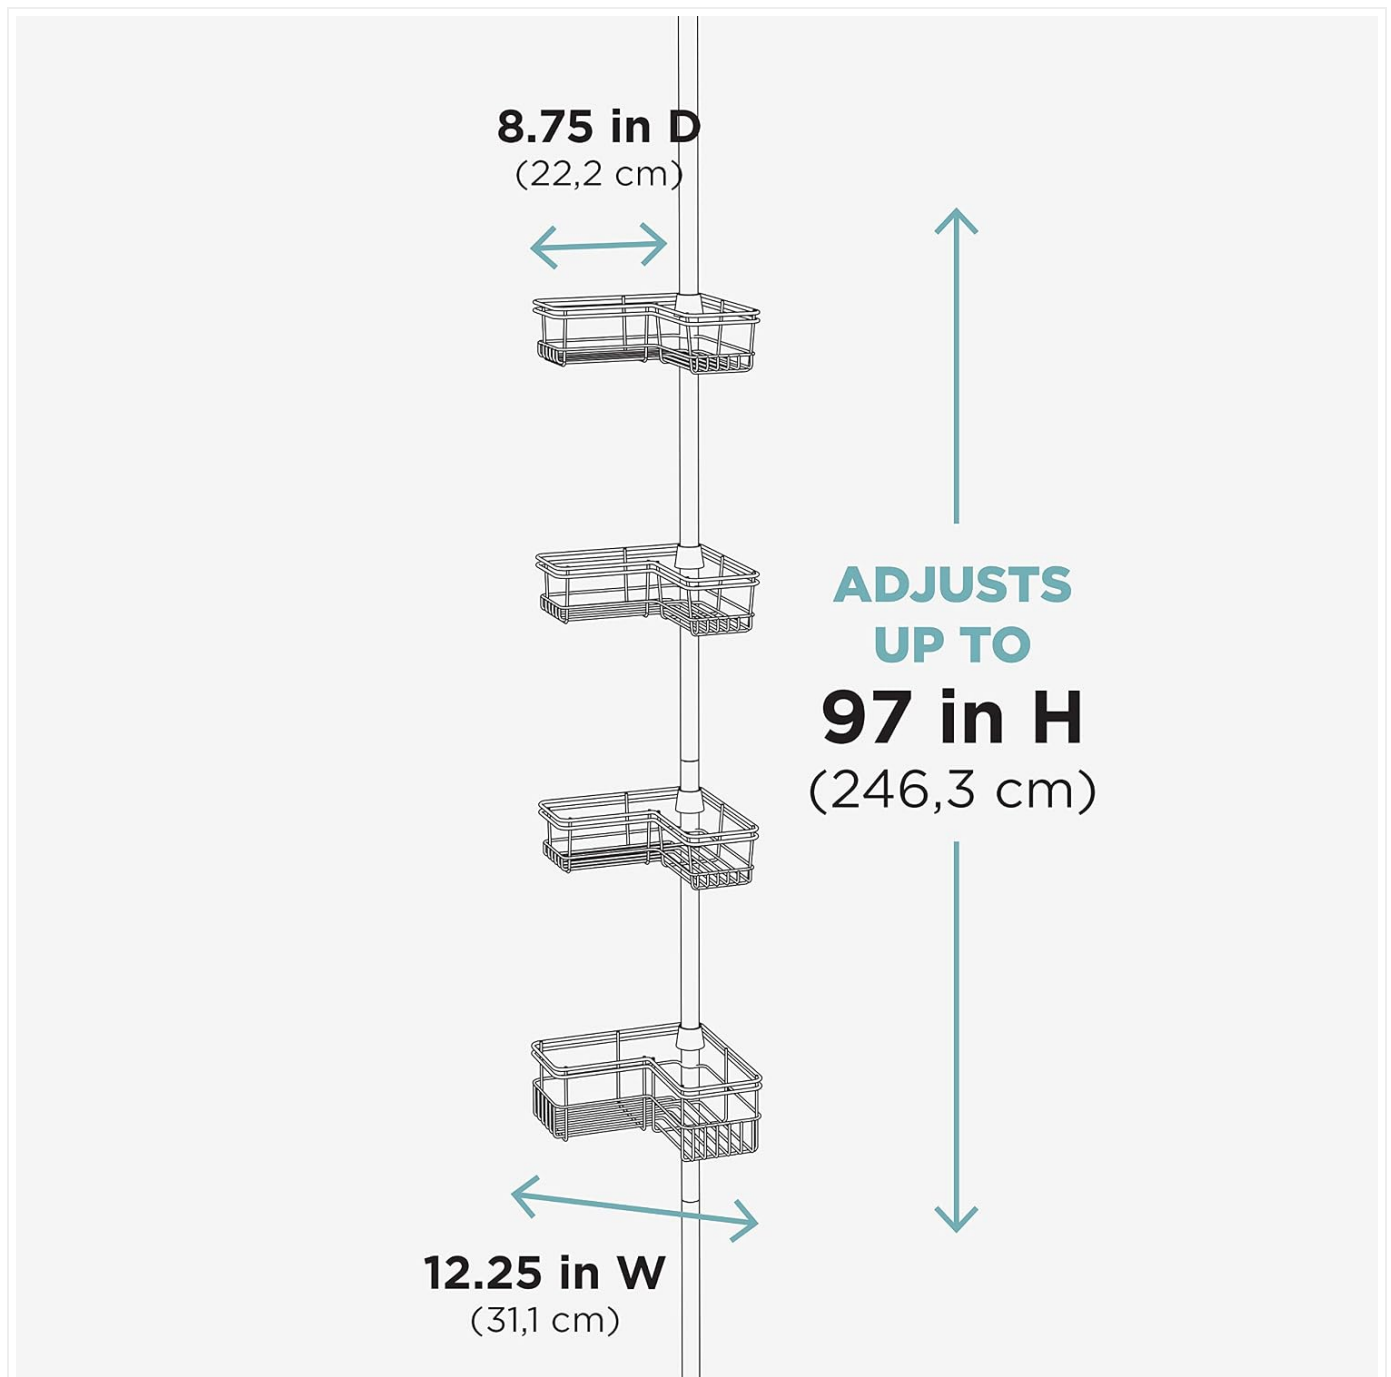

STEP 2

Using a hacksaw, cut the specified length
off the untapered end of tube B.

Span	Cut
60 - 65"	9.5"
65.5 - 70.5"	4"
81 - 85.5"	11"
86 - 91.5"	5.5"

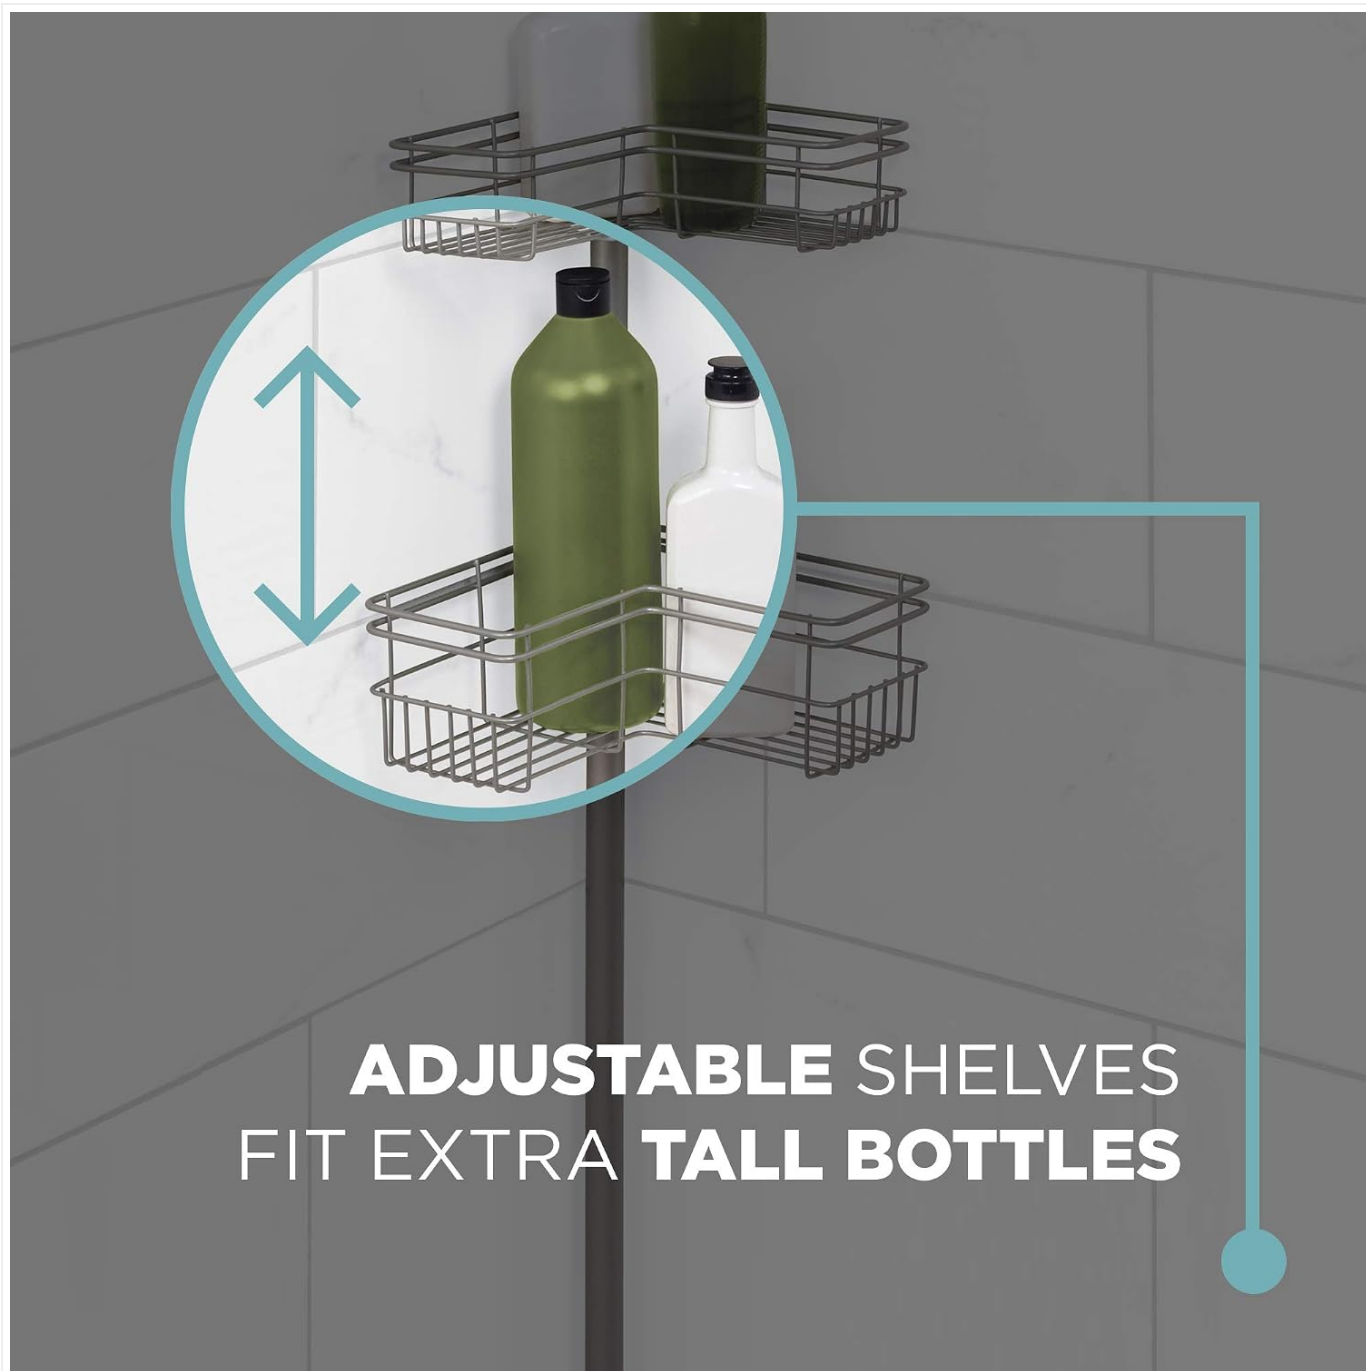

Add wedges and shelves to the tubes before assembling the full pole.

Connect the pole sections together.

Step 3: Secure Pole Sections

Add the spacer between the small and large tubes. Apply the provided tape strips around the seams of the pole sections to protect against moisture and enhance stability.

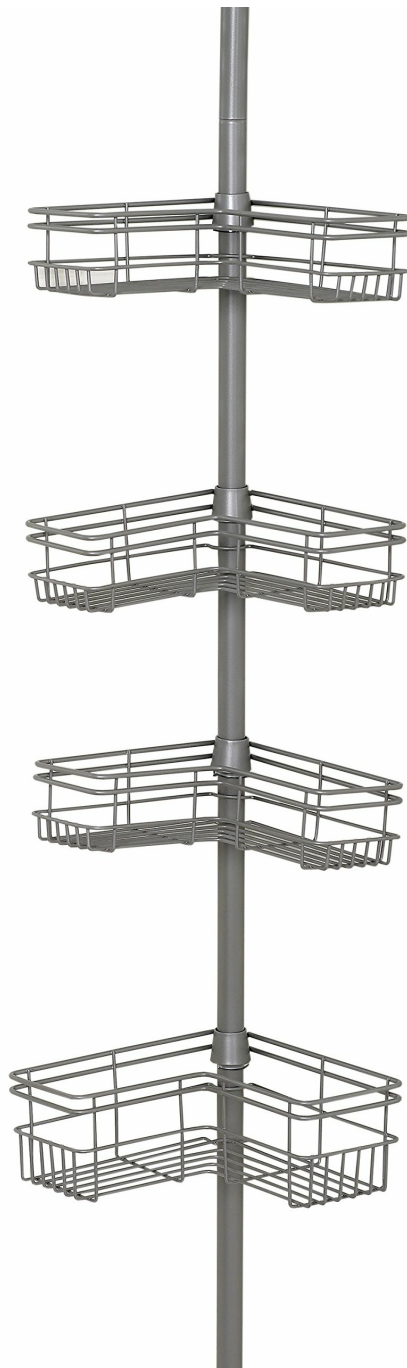

ADJUSTABLE SHELVES FIT EXTRA TALL BOTTLES

Add tape strips to the pole seams for moisture protection.

Step 4: Install the Caddy

Hold the assembled pole at the bottom. Lift the entire unit into your desired shower corner. Compress the top of the pole against the ceiling and guide the bottom end into position on the tub ledge or shower floor. The spring mechanism will provide tension to hold the caddy securely in place.

OPERATION AND USAGE

Once installed, your Zenna Home Tension Pole Caddy is ready for use. The L-shaped shelves are designed to maximize corner space and can be adjusted vertically to accommodate items of varying heights.

- **Adjusting Shelves:** To adjust a shelf, gently lift it to release it from its current position, slide the plastic wedges to the desired height, and then lower the shelf onto the wedges until it is secure.
- **Deep Basket:** The caddy includes one deep basket, ideal for taller bottles or larger items, preventing them from falling out.
- **Weight Distribution:** Distribute items evenly across the shelves to maintain stability. Avoid placing all heavy items on a single shelf.

INCLUDES 1
DEEP BASKET

Adjustable shelves allow for flexible storage of various bottle sizes.

QUICK DRY WIRE DESIGN

The caddy includes one deep basket for secure storage of larger items.

MAINTENANCE

To ensure the longevity and appearance of your Zenna Home Tension Pole Caddy:

- **Cleaning:** Wipe down the caddy regularly with a soft cloth and mild soap and water. Avoid abrasive cleaners or scouring pads, which can damage the satin nickel finish.
- **Rust Resistance:** The caddy is designed to be rust-resistant. However, proper ventilation and regular cleaning will help maintain its condition.
- **Stability Check:** Periodically check the tension of the pole and the security of the shelves. Re-adjust if any looseness is detected.

TROUBLESHOOTING

- **Caddy feels wobbly:** Ensure the tension pole is fully compressed between the floor/tub and ceiling. Re-adjust the

pole by compressing it further until it is stable.

- **Shelves slide down:** Check that the plastic wedges are correctly positioned and securely holding the shelves. Ensure the shelves are not overloaded.
- **Difficulty with pole length:** If the pole is too long or too short, refer to the cutting chart in the setup section. Some non-standard shower heights may require cutting one of the pole sections.

SPECIFICATIONS

Brand:	Zenna Home
Model Number:	2130NN
Style:	L-Shaped Shelves
Color:	Satin Nickel
Material:	Metal
Mounting Type:	Tension Mount
Product Dimensions (D x W x H):	8.75"D x 12.25"W x 97"H
Number of Compartments:	4
Maximum Weight Recommendation:	16 Pounds
Special Features:	Adjustable, Rust Resistant
