Richelieu Hardware BP9041900 Cabinet Knob Instruction Manual

Model: BP9041900 | Brand: Richelieu

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Richelieu Hardware BP9041900 Matte Black Functional Cabinet and Drawer Mushroom Knob.

The Richelieu Hardware BP9041900 knob is designed to enhance the aesthetic and functionality of kitchen, bathroom, and furniture cabinetry. It features a contemporary design with a flared base and a matte black finish, crafted from durable Zamak.

Key Features:

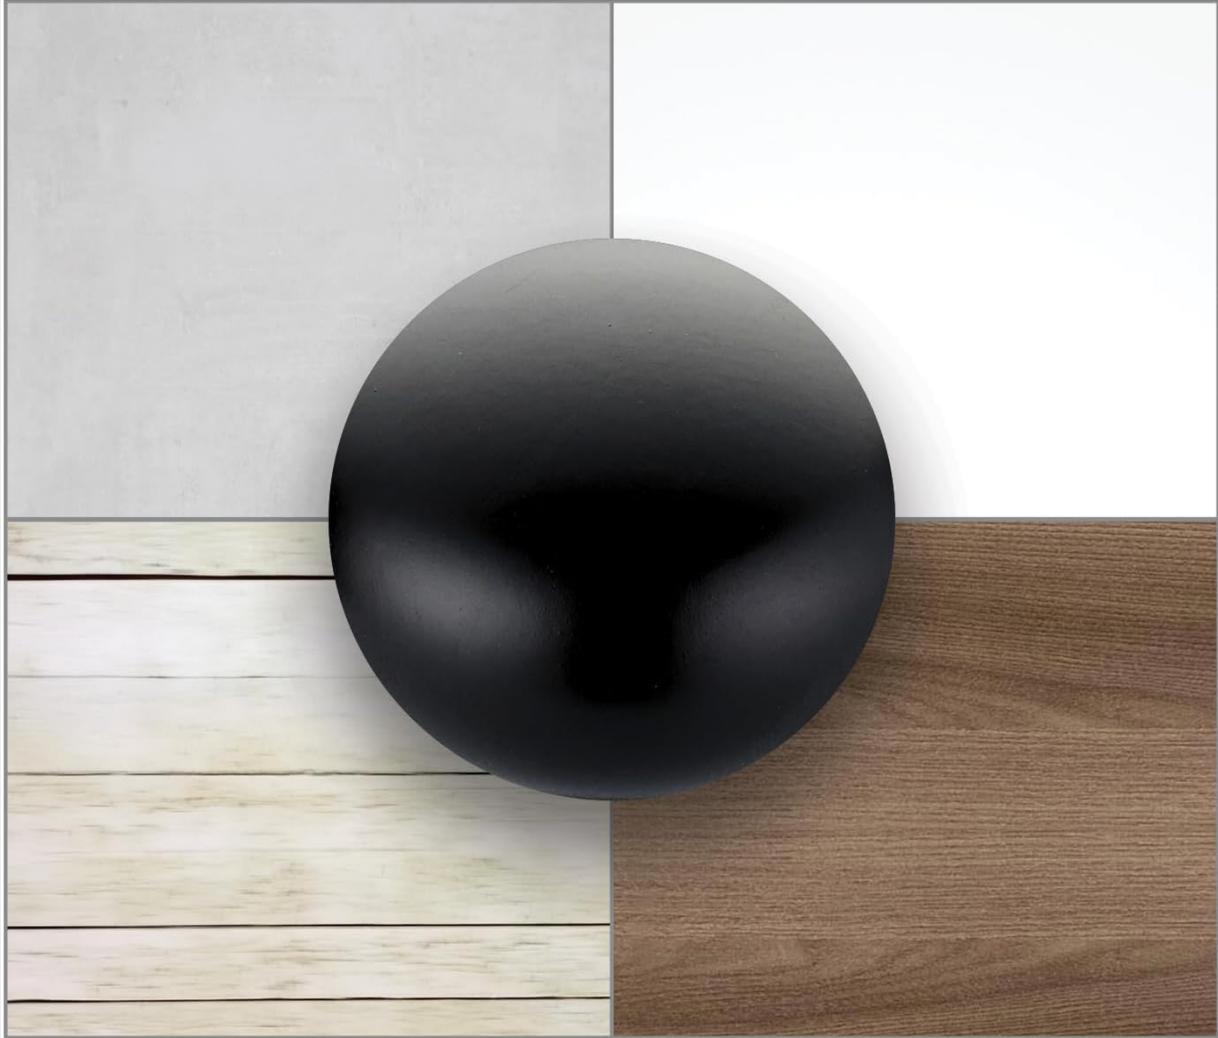

- Functional cabinet and drawer knob for kitchens and bathrooms
- Diameter: 1 3/16 in (30 mm)
- Projection: 1 1/8 in (28 mm)
- Finish: Matte Black, made of Zamak
- Sold per unit, mounting hardware is included for an easy installation (8/32 screws)

INSTALLATION GUIDE

Follow these steps for proper installation of your cabinet knob.

Coordinate your Cabinet Hardware Finishes

Matte Black

This diagram illustrates the four key steps for installing cabinet hardware: 1. Determine pull and knob spacing (center to center for pulls, diameter for knobs). 2. Choose placement on the cabinet door or drawer. 3. Use a drilling template to simplify the process. 4. Drill holes and install knobs or pulls with screws.

This video provides a visual guide on how to use an installation template to accurately mark and drill holes for cabinet knobs on a cabinet door, ensuring precise placement and a professional finish.

Step-by-Step Installation:

1. **Prepare the Surface:** Ensure the cabinet door or drawer surface is clean and free of debris.
2. **Mark the Drilling Point:** For knobs, determine the desired placement. A common placement is centered on the stile of a cabinet door or in the corner of a drawer face. Use a measuring tape and a pencil to mark the exact drilling point. For multiple knobs, consider using a drilling template for consistency. The provided video demonstrates using a template to mark the precise location for drilling.
3. **Drill the Hole:** Using a drill bit appropriate for the screw size (8/32 screws are included), carefully drill a hole through the marked point. Drill from the front of the cabinet to prevent splintering on the visible side.
4. **Attach the Knob:** Insert the included 8/32 screw through the back of the cabinet door or drawer. Align the knob with the screw and turn clockwise until it is securely fastened. Do not overtighten.

OPERATION

The Richelieu Hardware cabinet knob is designed for simple and functional use. To operate, grasp the knob firmly and pull to open cabinet doors or drawers. Push to close.

CARE AND MAINTENANCE

To ensure the longevity and appearance of your Richelieu Hardware knob, follow these simple maintenance guidelines:

- **Cleaning:** Wipe regularly with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or solvents, as these can damage the finish.
- **Polishing:** Do not use metal polishes or waxes unless specifically designed for matte black finishes.
- **Tightening:** Periodically check the knob for looseness. If loose, gently tighten the screw from the inside of the cabinet until secure. Do not overtighten.

TROUBLESHOOTING

This section addresses common issues you might encounter with your cabinet knob.

Problem	Possible Cause	Solution
Knob is loose	Screw has loosened over time	Tighten the screw from the inside of the cabinet.
Knob is difficult to turn/pull	Cabinet mechanism issue or obstruction	Check cabinet hinges/slides for proper function. Ensure no obstructions are preventing movement.
Finish appears dull or damaged	Use of improper cleaning agents or excessive wear	Clean only with a soft, damp cloth. Avoid harsh chemicals. If damage is significant, consider replacement.

PRODUCT SPECIFICATIONS

Attribute	Detail
Brand	Richelieu
Model Number	BP9041900
Material	Metal (Zamak)
Color	Black
Exterior Finish	Matte Black
Diameter	1 3/16 in (30 mm)
