1. PRODUCT OVERVIEW

The Brita 10 Cup Everyday Water Pitcher is designed to provide healthier, great-tasting tap water. This BPA-free pitcher features advanced filter technology that reduces chlorine taste and odor, as well as impurities like copper, cadmium, and mercury. Its large 10-cup capacity and space-efficient design make it suitable for families and easy to store in most refrigerators. A convenient sticker filter indicator helps you track when to replace the filter for optimal performance.

2. SETUP INSTRUCTIONS

Follow these steps to set up your Brita Water Pitcher for first-time use:

1. **Wash Hands:** Wash your hands thoroughly before handling the filter.
2. **Flush Filter:** Flush the new Brita filter with cold water for 15 seconds.
3. **Insert Filter:** Line up the notch in the Brita pitcher's reservoir with the groove in the filter. Press firmly to ensure a tight seal.
4. **Fill with Water:** Add cold tap water to the reservoir.
5. **Discard First Pitchers:** The first three pitchers of filtered water may contain carbon dust. Use this water on plants or discard it.

3. OPERATING INSTRUCTIONS

Using your Brita pitcher is straightforward:

- **Refilling:** The pitcher features a flip-top lid for easy refilling. Simply open the lid and pour cold tap water into the reservoir. The water will filter through to the main pitcher compartment.
- **Pouring:** Once the water is filtered, you can pour it directly from the pitcher.

4. MAINTENANCE

Filter Replacement

For optimal performance, replace your Brita standard filter every 40 gallons or approximately every 2 months for the average household. The pitcher includes a sticker filter indicator to help you track when a replacement is needed.

Cleaning

The Brita Everyday Pitcher is made of BPA-free plastic and is designed for easy cleaning. Refer to the product packaging or Brita's official website for detailed cleaning instructions.

5. TROUBLESHOOTING

- **Carbon Dust in Water:** It is normal for the first three pitchers of filtered water to contain carbon dust. This is harmless and can be used on plants or discarded.
- **Slow Filtration:** Ensure the filter is correctly seated and sealed in the reservoir. If filtration remains slow after a new filter installation, ensure the filter was properly flushed for 15 seconds before use.
- **Unusual Taste/Odor:** If you notice an unusual taste or odor, it may be time to replace your filter. Ensure you are using genuine Brita replacement filters.

6. SPECIFICATIONS

Feature	Detail
Brand	BRITA
Model Name	35509
Product Dimensions	10.94"L x 5.59"W x 10.47"H
Material	BPA-Free Plastic
Capacity	10 Cups (approx. 10.8 ounces)
Special Feature	Chlorine Reduction
Purification Method	Activated Carbon
