Dogtra IQ

Dogtra IQ Plus Remote Training Collar User Manual

Model: IQ

Brand: Dogtra

PRODUCT OVERVIEW

The Dogtra IQ Plus is a compact and effective remote training collar designed for small to medium-sized dogs, specifically recommended for dogs 10 pounds and up with a minimum neck size of 12 inches. It provides a reliable training solution with a range of up to 400 yards, equivalent to four football fields. The system offers 100 levels of correction, allowing trainers to find the precise working level for their dog. Key features include Nick, Constant, and Pager Vibration modes, all controlled from an easy-to-use remote.

Image: An infographic detailing the Dogtra IQ Plus's features, including 400-yard range, suitability for dogs as small as 10 lbs, expandability to a 2-dog system, 100-level front-facing dial, Nick/Constant correction & Pager Vibration, and an ultra-compact receiver.

PACKAGE CONTENTS

Your Dogtra IQ Plus package includes the following components:

- Remote Transmitter
- Receiver Collar
- Charger
- Owner's Manual (PDF available online)

SETUP AND FITTING

Collar Sizing and Fit

Proper fit of the receiver collar is crucial for effective and humane operation. The Dogtra IQ Plus is best suited for dogs 10 pounds and up, with a minimum neck size of approximately 12 inches. Ensure the contact points on the receiver make direct contact with your dog's skin. The collar strap is adjustable and excess material can be removed.

ESSENTIAL COMPACT TRAINER

Image: A diagram showing the full length of the Dogtra IQ Plus collar strap (28 inches) and indicating that excess strap can be removed for a custom fit.

Charging the System

The Dogtra IQ Plus features 2-hour rapid charge batteries for both the remote and receiver. An LED light battery life indicator helps you monitor power levels. Fully charge both units before first use and whenever the battery indicator shows low power.

OPERATING INSTRUCTIONS

Remote Control Functions

The remote control is designed for intuitive operation with dedicated buttons for specific signals:

- **N (Nick):** Delivers a single, quick pulse of stimulation.
- **C (Constant):** Delivers continuous stimulation for up to 12 seconds, or until the button is released.
- **P (Pager Vibration):** Activates a non-stimulating vibration.

The remote features a 100-level front-facing dial to precisely adjust the intensity of the stimulation. Turn the dial to increase or decrease the correction level as needed for your dog's temperament and training requirements.

NECK SIZE

Operating Range

The Dogtra IQ Plus offers an impressive operating range of up to 400 yards, providing ample distance for various training scenarios, from backyard training to open field work.

MAINTENANCE

To ensure the longevity and optimal performance of your Dogtra IQ Plus system, regular maintenance is recommended:

- **Cleaning:** Regularly clean the receiver collar and remote with a damp cloth. Avoid harsh chemicals.
- **Contact Points:** Periodically check the contact points on the receiver for dirt or debris and clean them to ensure proper skin contact.
- **Battery Care:** Fully charge the units when not in use for extended periods to maintain battery health.
- **Water Resistance:** The receiver is waterproof, and the remote is water-resistant. However, avoid prolonged submersion of the remote.

TROUBLESHOOTING

If you encounter issues with your Dogtra IQ Plus, consider the following common troubleshooting steps:

- **No Stimulation/Vibration:** Check if the collar is properly charged. Ensure the contact points are making good contact with the dog's skin. Increase the intensity level on the remote.
- **Remote Not Responding:** Verify the remote is charged. Ensure it is paired correctly with the receiver collar.
- **Reduced Range:** Check for environmental interference (e.g., large metal objects, dense foliage). Ensure the remote's antenna is not obstructed.
- **Dog Not Responding:** Re-evaluate the intensity level. Ensure the collar is fitted snugly. Consider professional training advice if behavioral issues persist.

TECHNICAL SPECIFICATIONS

Feature	Specification
Model Name	Dogtra iQ Plus Remote Training Collar
Item Model Number	IQ
Item Weight	1.04 pounds
Product Dimensions	12"L x 6.5"W
Item Package Dimensions L x W x H	9.06 x 6.65 x 2.4 inches
Batteries	1 A batteries required (included)
Color	Black
Size	1 Count (Pack of 1)
Age Range Description	Adult
Breed Recommendation	Small to Medium
Specific Uses for Product	Behavior Training
Closure Type	Buckle
Country of Origin	United States
Date First Available	December 14, 2010
