

BURBERRY BU1756

Burberry BU1756 Beat Check Chronograph Watch User Manual

Model: BU1756

1. INTRODUCTION

This manual provides detailed instructions for the proper use, setup, and maintenance of your Burberry BU1756 Beat Check Chronograph Watch. Please read this manual thoroughly to ensure optimal performance and longevity of your timepiece. Retain this manual for future reference.

2. PRODUCT OVERVIEW

The Burberry BU1756 is a men's chronograph watch featuring a robust stainless steel case, a distinctive grey dial with a Burberry check design, and a comfortable black fabric strap. It is powered by a precise Swiss Quartz movement and includes chronograph functionality, a date display, and luminescent hands for visibility in low light conditions.

Key Features:

- Round stainless steel case (44 mm diameter)
- Grey dial with Burberry check design
- Chronograph function with three sub-dials (60 second, 30 minute, 10 hour)
- Date display at the 12 o'clock position
- Luminescent hands and markers
- Scratch-resistant mineral crystal
- Black fabric strap with tang clasp
- Water resistant to 50 meters (165 feet)
- Swiss Quartz movement

Watch Components:

Figure 1: Front view of the Burberry BU1756 watch, showcasing the grey dial with check pattern, chronograph sub-dials, date window, and black fabric strap.

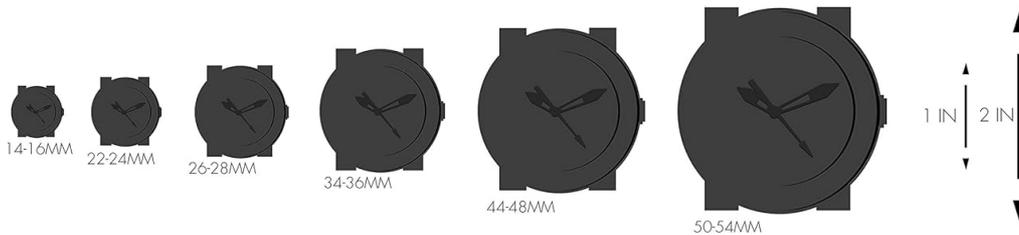

Figure 2: A visual guide illustrating various watch case diameters, including the 44-48mm range relevant to the BU1756 model, for size comparison.

3. SETUP AND INITIAL CONFIGURATION

3.1 Setting the Time

1. Gently pull the crown (located on the right side of the watch case) out to the second click position.
2. Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
3. Once the correct time is set, push the crown back in to its normal position to start the watch.

3.2 Setting the Date

1. Gently pull the crown out to the first click position.
2. Rotate the crown clockwise or counter-clockwise to adjust the date display.
3. Once the correct date is displayed, push the crown back in to its normal position.
4. Avoid setting the date between 9 PM and 3 AM, as this may interfere with the automatic date change mechanism.

4. OPERATING THE CHRONOGRAPH FUNCTIONS

The Burberry BU1756 features a chronograph function with three sub-dials: a 60-second counter, a 30-minute counter, and a 10-hour counter. These allow for precise measurement of elapsed time.

4.1 Starting and Stopping the Chronograph

1. Press the upper pusher (button A) once to start the chronograph. The chronograph second hand will begin to move.
2. Press the upper pusher (button A) again to stop the chronograph. The elapsed time will be indicated by the chronograph second, minute, and hour hands on their respective sub-dials.

4.2 Resetting the Chronograph

1. After stopping the chronograph (using button A), press the lower pusher (button B) once to reset all chronograph hands to their zero positions.

5. CARE AND MAINTENANCE

5.1 Cleaning Your Watch

To maintain the appearance of your watch, regularly wipe the case and crystal with a soft, dry cloth. For the fabric strap, a slightly damp cloth can be used, but ensure it dries completely to prevent odor or damage. Avoid using harsh chemicals or abrasive materials.

5.2 Water Resistance

Your Burberry BU1756 watch is water resistant to 50 meters (165 feet). This rating makes it suitable for short periods of recreational swimming and showering. It is not suitable for diving, snorkeling, or high-impact water sports. Always ensure the crown is fully pushed in before any contact with water.

5.3 Battery Replacement

The watch is powered by a product-specific battery. When the battery requires replacement, it is recommended to take your watch to an authorized service center or a qualified watchmaker. This ensures proper battery installation and maintenance of the watch's water resistance seal.

6. TROUBLESHOOTING

If you encounter any issues with your watch, please refer to the table below for common problems and their potential solutions.

Problem	Possible Cause	Solution
Watch not running	Depleted battery	Replace battery at an authorized service center.
Time is incorrect	Crown not fully pushed in; Time not set correctly	Ensure crown is fully pushed in. Refer to Section 3.1 to reset the time.
Date not changing	Date not set correctly; Date set during restricted hours	Refer to Section 3.2 to reset the date. Avoid setting date between 9 PM and 3 AM.
Chronograph hands not resetting to zero	Requires calibration	Consult an authorized service center for calibration.
