IMPORTANT SAFETY INFORMATION

WARNING:

- Assembly requires careful following of instructions.
- Do not submerge or expose to excessive water.
- Ensure stable placement to prevent tipping or collapse, especially when in use.
- This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

PARTS LIST

Before beginning assembly, ensure all parts are present and accounted for. Refer to the included Assembly Guide for detailed

diagrams.

- Table Top (Wicker Resin)
- Legs (Powder Coated Steel) - 4 pieces
- Support Frame/Brackets (Powder Coated Steel)
- Hardware Pack (Screws, Washers, Allen Wrench)

SETUP AND ASSEMBLY

Assembly is required for this product. Please follow the steps below carefully. It is recommended to assemble the table on a soft, clean surface to prevent scratches.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify all items listed in the "Parts List" section are present.
2. **Attach Legs to Frame:** Identify the main support frame. Attach each leg to the designated points on the frame using the provided screws and washers. Do not fully tighten screws at this stage.
3. **Secure Table Top:** Place the wicker resin table top onto the assembled frame. Align the pre-drilled holes on the table top with the corresponding holes on the frame. Secure the table top using the remaining screws.
4. **Final Tightening:** Once all components are loosely assembled, place the table upright on a level surface. Systematically tighten all screws using the provided Allen wrench. Ensure all connections are secure but do not overtighten.
5. **Stability Check:** Gently rock the table to ensure it is stable and level. Adjust screw tightness if necessary to eliminate any wobbling.

MAINTENANCE AND CARE

- **Cleaning:** Wipe down with a damp cloth and mild soap. Rinse thoroughly with clean water. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish and wicker resin.
- **Water Resistance:** While water resistant, prolonged exposure to standing water is not recommended. Ensure proper drainage and dry the table after heavy rain.
- **UV Protection:** The table features a UV light fading protective coating. However, storing the table in a shaded area or covering it during prolonged periods of direct sunlight when not in use can further extend its lifespan and maintain its color.
- **Winter Storage:** In colder climates, it is advisable to store the table indoors or cover it with a protective outdoor furniture cover during winter months to prevent damage from freezing temperatures and snow.
- **Hardware Check:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Table wobbles after assembly.	Screws not tightened evenly or fully; uneven ground.	Ensure all screws are tightened securely and evenly. Move the table to a flat, level surface.
Wicker appears dull or dirty.	Accumulation of dust, dirt, or environmental debris.	Clean with a damp cloth and mild soap solution. Rinse thoroughly and dry.
Rust spots on metal frame.	Damage to powder coating; prolonged exposure to moisture.	Clean rust spots with a wire brush, then apply rust-inhibiting primer and touch-up paint suitable for outdoor metal. Ensure table is dry after rain.
