Brodit 804564

Brodit 804564 ProClip Console Mounting Bracket for Sharan 11 User Manual

INTRODUCTION

The Brodit ProClip is a custom-fit mounting bracket designed for vehicle dashboards. It provides a secure and stable platform for attaching various device holders, such as those for mobile phones, PDAs, or hands-free kits. This bracket ensures that your device is always within easy reach and view, enhancing safety and convenience while driving. The ProClip is vehicle-specific, ensuring a precise fit for the Volkswagen Sharan 11 model, and is engineered for straightforward installation without requiring specialized tools or dashboard disassembly.

SAFETY INFORMATION

- Ensure the ProClip is securely installed before attaching any device holder or device.
- Do not obstruct airbags, vehicle controls, or your line of sight with the installed bracket or attached device.
- Always prioritize safe driving. Avoid operating your device while the vehicle is in motion.
- Periodically check the bracket's stability and tightness.

PACKAGE CONTENTS

Please verify that all components are present in your package:

- Brodit 804564 ProClip Console Mounting Bracket
- Detailed Installation Instructions

INSTALLATION INSTRUCTIONS

The installation process is quick and does not require special tools or modifications to your vehicle's interior. Follow these steps carefully:

Step 1: Identify Installation Area

Refer to the diagram to locate the precise installation point for the ProClip. It is designed to fit on the left side of the dashboard, adjacent to the A-pillar, providing optimal visibility and access.

Step 2: Prepare the Dashboard Trim

Carefully pull back the rubber trim along the A-pillar to expose the edge of the dashboard where the ProClip will be inserted. This creates the necessary gap for the bracket's lower edge.

Step 3: Insert the Lower Part of the ProClip

Insert the lower, curved edge of the ProClip into the gap between the dashboard and the A-pillar trim. Ensure it slides in smoothly and is seated firmly.

Step 4: Secure the Upper Part of the ProClip

Once the lower part is in place, gently but firmly press the upper part of the ProClip into the seam of the dashboard. The bracket is designed to clip into place without damaging the vehicle's interior. Some models may include adhesive strips for additional security; if present, remove the backing and press firmly.

Step 5: Verify Installation

After installation, ensure the ProClip is stable and does not move. The bracket should be firmly attached to the dashboard. You can now attach your desired device holder (sold separately) to the flat surface of the ProClip.

OPERATING THE PROCLIP

The Brodit ProClip serves as a base for various device holders. Once installed, you can attach any compatible Brodit device holder directly to the flat mounting surface of the ProClip. These holders typically secure with screws or a quick-release mechanism, providing a stable and accessible location for your smartphone, GPS, or other portable electronic devices.

MAINTENANCE

The Brodit ProClip is constructed from durable black ABS plastic and requires minimal maintenance.

- **Cleaning:** Wipe the bracket with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic finish.
- **Inspection:** Periodically check the bracket for any signs of wear or loosening. Ensure it remains securely fastened to the dashboard.

TROUBLESHOOTING

- **Bracket feels loose:** Re-check the installation steps, ensuring both the lower and upper parts of the ProClip are fully engaged with the dashboard seams. Apply firm pressure during installation.
- **Difficulty inserting the bracket:** Ensure you are pulling back the trim sufficiently and aligning the ProClip correctly with the vehicle's specific dashboard contours. Do not force the bracket, as this may cause damage.
- **Device holder not attaching:** Verify that your device holder is compatible with the Brodit ProClip system and that any screws or attachment mechanisms are properly aligned and tightened.

SPECIFICATIONS

Model Number	804564
Brand	Brodit
Product Dimensions	3.9 x 3.82 x 2.28 inches
Item Weight	2.46 ounces
Material	Black ABS Plastic
Mounting Type	Dashboard
Compatible Devices	Smartphones (with compatible holder)

WARRANTY AND SUPPORT

For specific warranty information and customer support, please refer to the official Brodit website or contact your authorized Brodit retailer. Keep your purchase receipt as proof of purchase for any warranty claims.
