Pasco 4554 / GIDDS2-SX-0262790

Pasco 4554 Heavy Duty Aluminum Tub Drain Remover Wrench Instruction Manual

Model: 4554 / GIDDS2-SX-0262790

Brand: Pasco

1. INTRODUCTION

The Pasco 4554 Heavy Duty Aluminum Tub Drain Remover Wrench is a specialized tool designed for the efficient installation and removal of tub drains and closet spuds. Its robust aluminum construction ensures durability and reliable performance for various plumbing tasks. This manual provides essential information for the safe and effective operation of your tool.

2. SAFETY INFORMATION

Always prioritize safety when using any tool. Please read and understand the following safety guidelines before operating the Pasco 4554 Tub Drain Remover Wrench:

- **Wear Eye Protection:** Always wear appropriate eye protection to shield against debris.
- **Ensure Proper Fit:** Verify that the tool is correctly engaged with the drain's crossbars to prevent slipping and potential injury.
- **Use Appropriate Leverage:** When additional force is required, use a screwdriver or another wrench through the designated holes for leverage, but avoid excessive force that could damage the drain or tool.
- **Keep Work Area Clear:** Ensure the work area is free of obstructions and hazards.
- **Keep Out of Reach of Children:** Store the tool in a secure location away from children.

3. PACKAGE CONTENTS

Your package should contain the following item:

- 1 x Pasco 4554 Heavy Duty Aluminum Tub Drain Remover Wrench

4. PRODUCT FEATURES

The Pasco 4554 Tub Drain Remover Wrench offers several features designed for ease of use and effectiveness:

- **Heavy-Duty Aluminum Construction:** Provides durability and resistance to corrosion.

- **Versatile Compatibility:** Designed to fit all 17 modern tub drain configurations, including common 1-3/8 inch and 1-1/2 inch sizes.
- **Multi-Purpose Use:** Installs and removes tub drains and closet spuds.
- **Protective Design:** Helps prevent scratching of decorative finishes on drains and tubs.
- **Leverage Points:** Features multiple holes for inserting a screwdriver or another wrench to gain additional torque when needed.

5. SPECIFICATIONS

Brand	Pasco
Model Numbers	4554, GIDDS2-SX-0262790
Material	Aluminum

Color	Silver
Item Weight	9 Ounces
Product Dimensions	6 x 1 x 1 inches

6. SETUP

The Pasco 4554 Tub Drain Remover Wrench requires minimal setup. Simply identify the correct end of the tool that corresponds to the size of the tub drain you are working with. The tool features different sized notches on each end to accommodate various drain crossbar configurations.

7. OPERATING INSTRUCTIONS

Follow these steps for effective removal or installation of tub drains:

- 1. Prepare the Work Area:** Ensure the bathtub is dry and clean. Remove any existing drain stoppers or covers.
- 2. Identify Drain Size:** Determine the size of your tub drain (commonly 1-3/8 inch or 1-1/2 inch). The tool is designed to fit both.
- 3. Select the Correct End:** Choose the end of the Pasco 4554 wrench that best fits the crossbars inside your tub drain. The tool has different sized notches on each end.
- 4. Insert the Tool:** Carefully insert the selected end of the wrench into the drain, ensuring it engages firmly with the drain's crossbars.
- 5. Apply Leverage (if necessary):** For stubborn or tightly installed drains, insert a screwdriver or another wrench through one of the side holes on the tool's body. This provides additional leverage to turn the tool.
- 6. Turn to Loosen or Tighten:**
 - To **remove** an old drain: Turn the tool **counter-clockwise**.
 - To **install** a new drain: Turn the tool **clockwise**.
- 7. Complete Removal/Installation:** Once the drain is loosened, continue turning until it can be removed by hand. For installation, apply plumber's putty or sealant as required, then screw in the new drain and tighten it firmly with the tool.

Instructional Videos:

Hanpex Tub Drain Remover Wrench in Use

Video demonstrating the Hanpex Tub Drain Remover Wrench being used to remove a tub drain. The video shows the tool being inserted into the drain and turned with a screwdriver for leverage, effectively loosening and removing the drain.

BearHut Tub Drain Remover Dumbbell Wrench Tool Demonstration

Video showcasing the BearHut Tub Drain Remover Dumbbell Wrench Tool. It illustrates how the tool is placed into a tub drain and then rotated to either remove or install the drain, highlighting its ease of use.

8. MAINTENANCE

To ensure the longevity and optimal performance of your Pasco 4554 Tub Drain Remover Wrench:

- Cleaning:** After each use, wipe the tool clean with a dry cloth to remove any residue, dirt, or moisture.
- Storage:** Store the tool in a dry environment to prevent corrosion.
- Inspection:** Periodically inspect the tool for any signs of wear or damage. Discontinue use if significant damage is observed.

9. TROUBLESHOOTING

If you encounter issues while using the Pasco 4554 Tub Drain Remover Wrench, consider the following:

- **Drain is Stuck/Won't Budge:**

- Ensure the tool is fully engaged with the drain's crossbars.
- Utilize a screwdriver or another wrench through the side holes for increased leverage.
- Apply a penetrating oil to the drain threads and allow it to soak for some time before attempting to turn again.

- **Tool Slips in Drain:**

- Re-seat the tool firmly into the drain, ensuring the notches align perfectly with the crossbars.
- Confirm you are using the correct end of the tool for your drain size.

10. WARRANTY INFORMATION

For specific warranty details regarding your Pasco 4554 Tub Drain Remover Wrench, please refer to the product packaging or contact Pasco customer support directly. General warranty terms typically cover manufacturing defects under normal use conditions.

11. CUSTOMER SUPPORT

If you have any questions, require assistance, or need to report an issue with your Pasco 4554 Tub Drain Remover Wrench, please contact Pasco customer support. Contact information can typically be found on the product packaging or the official Pasco website.
