SABRE MK-3-GEL-H-US

SABRE Tactical Pepper Gel with Belt Holster Instruction Manual

Model: MK-3-GEL-H-US

[Overview](#) [Safety Information](#) [Components](#) [Features](#) [Setup & Operation](#) [Maintenance](#) [Specifications](#) [Warranty & Support](#)

1. PRODUCT OVERVIEW

The SABRE Tactical Pepper Gel with Belt Holster provides a personal defense solution. This product utilizes a maximum police-strength pepper gel formulation, designed for effective protection. It includes a belt holster for convenient and quick access. The pepper gel is formulated to minimize wind blowback and contains UV marking dye for suspect identification.

2. SAFETY INFORMATION

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm (Proposition 65).

CAUTION: SEVERE SKIN, EYE, AND RESPIRATORY IRRITANT. CONTENTS UNDER PRESSURE. READ CAREFULLY OTHER CAUTIONS ON BACK LABEL.

General Safety Guidelines:

- Carry the pepper gel with you at all times for immediate access.
- Practice outside and test spray semi-annually with a quick burst into the ground to ensure proper function and familiarize yourself with its operation.
- Deploy the pepper gel when you feel your safety is in jeopardy or you are attacked. Immediately run and call the police; do not attempt to capture your attacker.
- We recommend replacing your pepper gel after deployment to ensure you are always fully protected.
- DO NOT use after the expiration date printed on the canister.
- DO NOT store the canister at temperatures above 120°F (50°C) or in direct sunlight, as this can affect product integrity and performance.
- Keep out of reach of children.

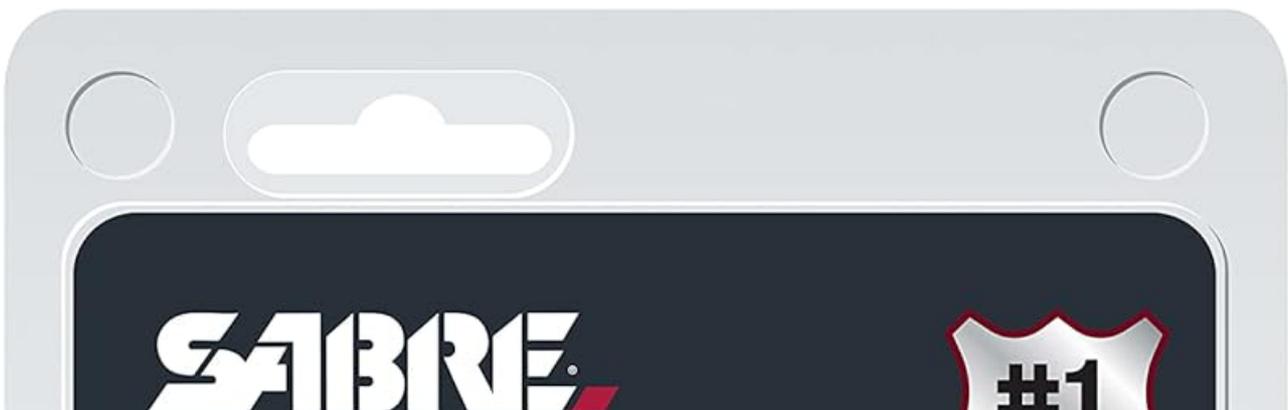

First Aid for Exposure:

- **Skin Contact:** Immediately flush affected skin with cold water for at least 15 minutes. Do not rub or wipe the affected area.
- **Eye Contact:** Immediately flush eyes with cold water for at least 15 minutes. Do not rub or wipe eyes. Seek medical attention if irritation persists.
- **Inhalation:** Move to fresh air. If breathing difficulties occur, seek medical attention.
- Remove contaminated clothing and wash before reuse.

4. KEY FEATURES

- **Police-Strength Protection:** SABRE is a leading brand trusted by law enforcement agencies globally, ensuring maximum strength and reliability.
- **Maximum Strength Formulation:** Independent lab testing and SABRE's in-house HPLC lab guarantee consistent, maximum strength capsaicinoid levels in every canister.
- **UV Marking Dye:** Contains an invisible UV marking dye to assist law enforcement in identifying suspects after deployment.
- **Pepper Gel Advantage:** The gel formulation virtually eliminates wind blowback and prevents in-air atomization, making it safer for the user and more effective in targeting an assailant. It can also be used safely indoors.
- **Multiple Bursts:** Provides up to 18 bursts, offering protection against multiple threats.
- **Crossfire Technology:** Allows the pepper gel to be sprayed at any angle, including upside down, for maximum target acquisition and reliability against moving threats.
- **Fast Flip Top Safety:** A secure flip-top safety mechanism prevents accidental discharge while allowing for quick and easy deployment in an emergency.
- **Included Belt Holster:** A professional-grade belt holster is included for convenient and quick access, allowing for easy carry during commutes or daily activities.

EASY TO CARRY

- ON THE GO
- IN VEHICLE
- AT HOME

Image: The pepper gel features UV marking dye, which helps identify an assailant and lasts up to 48 hours.

Image: Comparison showing the SABRE MK3 Pepper Gel offers 2.8x more volume and sprays up to 30% farther than standard keychain pepper sprays.

5. SETUP & OPERATING INSTRUCTIONS

Attaching the Belt Holster:

The included belt holster allows for convenient carrying. Thread your belt through the loop on the back of the holster to secure it in place. Ensure the pepper gel canister is easily accessible when needed.

Deploying the Pepper Gel:

1. **Access:** Slip your thumb under the flip top safety mechanism.
2. **Grip:** Grip the canister firmly with your thumb positioned on the actuator button.
3. **Aim:** Aim the nozzle from ear to ear across the assailant's eyes. Once the eyes are affected, aim for the nose and mouth.
4. **Spray:** Press the actuator button to release a powerful stream of gel. The stream can reach up to 18 feet (5.5 meters) in front of you.
5. **Wind Consideration:** Shield your face when firing into the wind to minimize any potential blowback.
6. **Stop Firing:** Release pressure on the actuator to stop the spray.
7. **Escape:** Sidestep and escape to safety immediately after deployment.

UV MARKING DYE

**Identifies the Attacker
and Lasts Up to 48 Hours**

**Military Grade
Pepper Gel**

**Gel Sticks to
the Attacker**

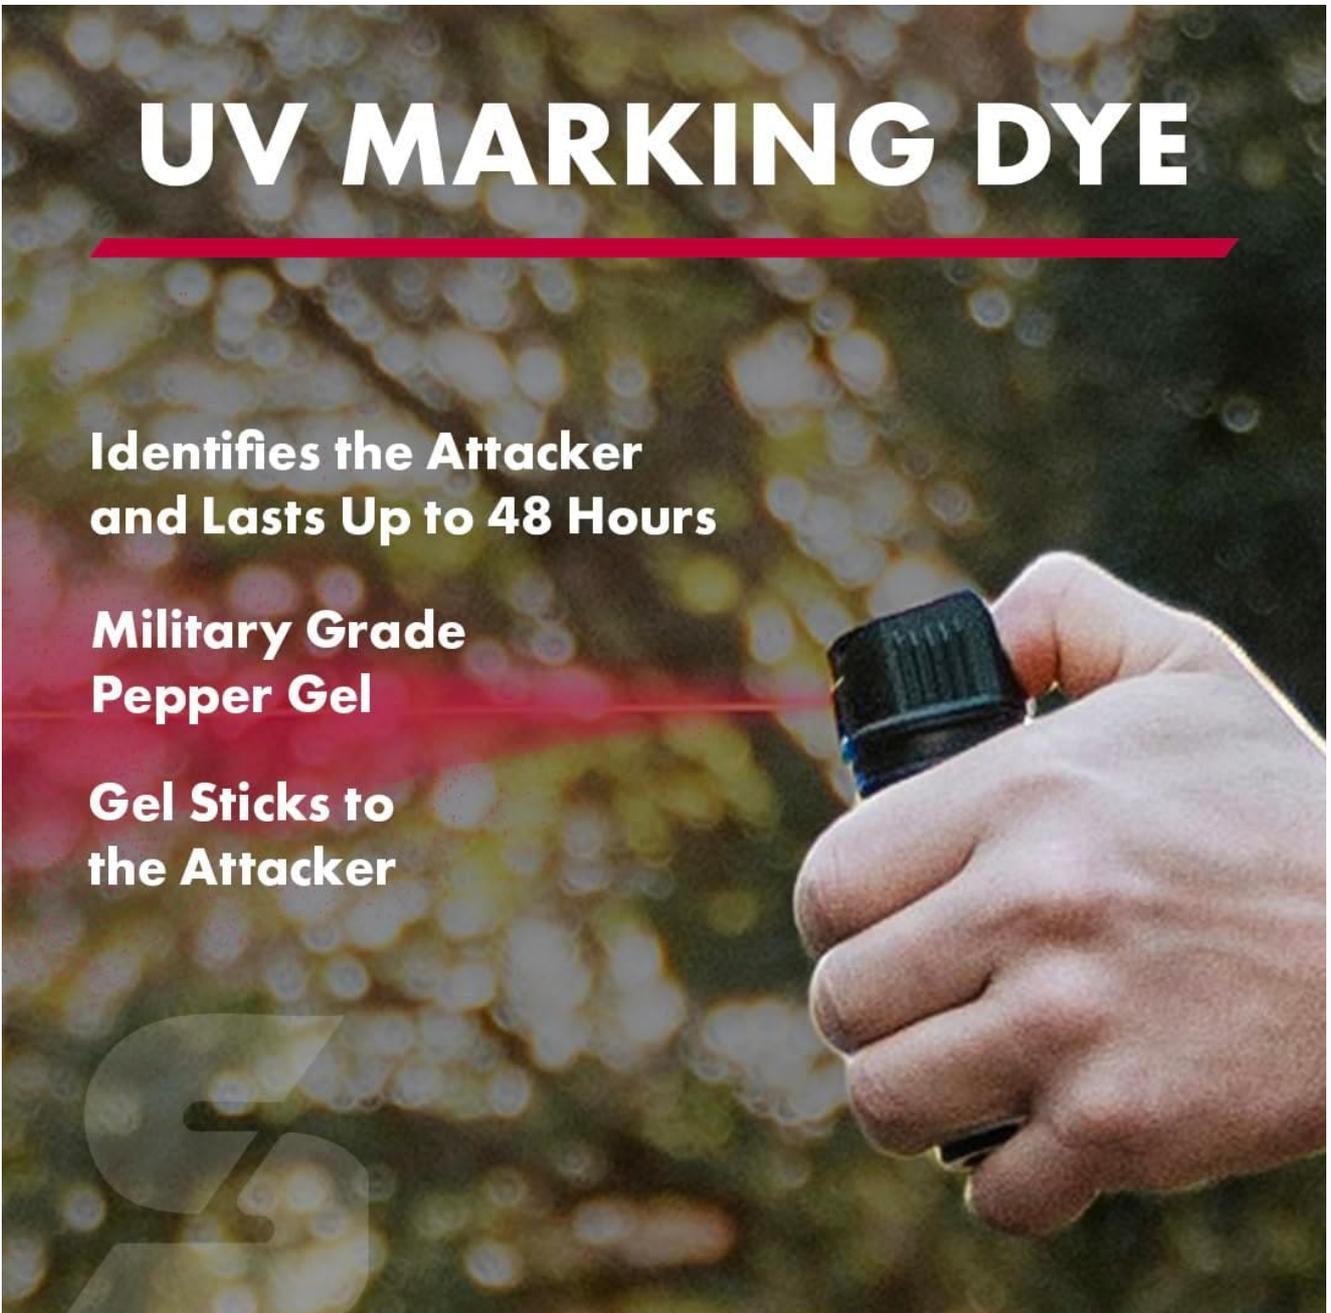

Image: The SABRE Red formula delivers a maximum range stream of gel, causing burning sensations to eyes, skin, and nose, and involuntary eye closure.

6. MAINTENANCE

- **Expiration Date:** Always check the expiration date printed on the canister. Replace the pepper gel before or by this date to ensure maximum effectiveness.
- **Testing:** Periodically test spray the unit outdoors with a quick burst into the ground to ensure it is functioning correctly. This also helps you maintain familiarity with its operation.
- **Storage:** Store the pepper gel in a cool, dry place, away from direct sunlight and extreme temperatures. Do not store in temperatures above 120°F (50°C) or below 32°F (0°C).
- **Replacement:** It is recommended to replace your pepper gel after any deployment, even partial, to ensure you have a full, effective unit for future use.
