

## Goliath 80897.004

# Goliath Domino Express Skull Island Pirate Set - Instruction Manual

## 1. IMPORTANT SAFETY INFORMATION

---

This product is not suitable for children under 3 years old. It contains small, detachable parts that could be swallowed.

**Warning: Choking Hazard - Small parts. Not for children under 3 years.**

## 2. PRODUCT OVERVIEW

---

The Goliath Domino Express Skull Island Pirate set (Model 80897.004) allows you to create exciting domino runs with a pirate-themed adventure. This set includes various components to enhance your domino chain reactions.

Image 1: The complete Goliath Domino Express Skull Island Pirate set packaging.

### Included Components:

- 1 Skull-shaped cave
- 1 Coffin with skeleton
- 1 Jungle element
- 1 Palm tree trap
- Approximately 200 dominoes

### 3. SETUP INSTRUCTIONS

Follow these steps to assemble your Domino Express Skull Island Pirate set:

1. **Prepare your play area:** Choose a flat, stable surface for your domino course.
2. **Place the main elements:** Position the skull-shaped cave, coffin with skeleton, jungle element, and palm tree trap as desired to form the basis of your pirate adventure.

Image 2: Example arrangement of the Skull Island elements and dominoes.

3. **Arrange the dominoes:** Carefully place the 200 dominoes in a path, ensuring they are close enough to trigger each other when one falls. Experiment with curves, lines, and inclines.
4. **Integrate special features:** Connect your domino path to the skull cave, coffin, and palm tree trap. Ensure the dominoes are positioned to activate these features correctly. For example, a domino falling into the palm tree trap should trigger its mechanism.

## 4. OPERATING THE DOMINO EXPRESS

---

Once your course is set up, operating the Domino Express is simple:

1. **Initiate the chain reaction:** Gently push the first domino in your sequence.
2. **Observe the action:** Watch as the dominoes fall, triggering the skull cave, coffin, and palm tree trap, creating a dynamic pirate adventure.
3. **Reset and Replay:** After the chain reaction is complete, carefully reset all dominoes and special features to play again or design a new course.

## 5. MAINTENANCE AND CARE

---

- **Cleaning:** Wipe components with a dry or slightly damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store all parts in the original box or a suitable container to prevent loss and damage. Keep away from direct sunlight and extreme temperatures.
- **Handling:** Handle dominoes and special features with care to avoid breakage.

## 6. TROUBLESHOOTING

---

- **Dominoes not falling consistently:** Ensure dominoes are spaced correctly. If they are too far apart, they won't trigger the next one. If too close, they might fall prematurely. Check for any uneven

surfaces.

- **Special features not activating:** Verify that the dominoes leading to the skull cave, coffin, or palm tree trap are positioned precisely to hit the activation point. Some features, like the palm tree, may require a specific domino weight or impact angle to trigger reliably.
- **Dominoes falling prematurely:** This can happen if the play surface is not level or if components are bumped during setup. Work slowly and carefully.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	80897.004
Brand	Goliath
Product Dimensions	38 x 28.4 x 8.8 cm (1.2 kg)
Recommended Age	6 years and up
Educational Value	Imagination, Invention, Creativity
Number of Players	1
Main Material	Cardboard (Note: This may refer to packaging or specific components, actual dominoes are typically plastic)
