All included accessories: protective pouch, USB-A to Mini-USB cable, and 3.5mm audio cable.

4. SETUP

4.1 Powering the Speaker

The SoundBar Mini Speaker offers two power options:

1. **Battery Power:** Insert 4 AAA batteries into the battery compartment located on the underside of the speaker. Ensure correct polarity. The speaker can operate for up to 6 hours on battery power.
2. **USB Power:** Connect the supplied Micro USB cable from the speaker's Micro USB port to a USB power source (e.g., computer USB port, USB wall adapter).

4.2 Connecting to an Audio Source

The speaker supports two types of audio connections:

1. **3.5mm Aux Connection:** Use the provided 3.5mm audio cable to connect the speaker's 3.5mm jack to the headphone jack or audio output of your device (e.g., smartphone, tablet, computer, MP3 player).
2. **USB Audio Connection:** Connect the speaker to your computer via the Micro USB cable. For some systems, this connection may also transmit audio, functioning as a Plug & Play USB speaker.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press the **Power Button** located on the top of the speaker to turn the device on or off.

5.2 Adjusting Volume

Use the **Volume Up** and **Volume Down** buttons on the top of the speaker to adjust the audio output level.

5.3 Usage Scenarios

The SoundBar Mini Speaker is designed for flexible application across various devices and environments:

- **Computers:** Enhance audio for desktops and laptops (Windows, Mac).
- **Mobile Devices:** Improve sound from smartphones and tablets.
- **Home Electronics:** Connect to televisions or other audio systems for better sound.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the speaker's surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the speaker in a cool, dry place, preferably in its protective pouch.

- **Battery Replacement:** If using batteries, replace all 4 AAA batteries simultaneously when power is low to ensure optimal performance.
- **Avoid Moisture:** The speaker is not waterproof. Keep it away from water and high humidity.

7. TROUBLESHOOTING

- **No Sound:**
 - Ensure the speaker is powered on.
 - Check if the volume on both the speaker and the connected device is turned up.
 - Verify that the audio cable is securely connected to both the speaker and the audio source.
 - If using batteries, check if they are inserted correctly and have sufficient charge. Try connecting via USB power.
 - If using USB audio, ensure your computer recognizes the speaker as an audio output device.
- **Distorted Sound:**
 - Lower the volume on both the speaker and the connected device.
 - Ensure the audio cable is not damaged.
 - Check for interference from other electronic devices.
- **Speaker Not Powering On:**
 - If using batteries, replace them with fresh ones.
 - If using USB power, try a different USB port or power adapter.
