LIFETIME 6426

LIFETIME 6426 60 Inch Extension Kit for 11 Foot Sheds - Instruction Manual

Expand your LIFETIME 11 ft. wide Outdoor Storage Building with this durable and low-maintenance extension kit.

IMPORTANT SAFETY INFORMATION

Always follow the assembly instructions provided. Use caution when handling heavy components. Keep children and pets away from the work area during assembly.

PRODUCT OVERVIEW

The LIFETIME 6426 60 Inch Extension Kit is designed to seamlessly add extra space to your existing LIFETIME 11 ft. wide Outdoor Storage Shed. This kit provides a convenient way to increase storage capacity without needing to purchase an entirely new shed. It maintains the attractive appearance and durable design of your original shed.

Key Features:

- Adds 60 inches of length to your shed.
- Compatible with Lifetime shed models 6415, 6426, 60187, 60236, 60237, and 6433.
- Constructed with UV-protected walls for durability against the elements.
- Features slip-resistant floors and a high-pitched roof for efficient water and snow drainage.
- Includes two windows for natural light.

COMPONENTS INCLUDED

The 60 Inch Extension Kit comes complete with all necessary components for expansion:

- All required wall panels
- All required roof panels
- All required floor panels
- Two (2) windows
- All necessary installation hardware

SETUP & ASSEMBLY

Assembly of the Lifetime Shed Extension Kit requires careful attention to detail. It is recommended to have at least two people for assembly due to the size and weight of components. Ensure you have a level surface for installation.

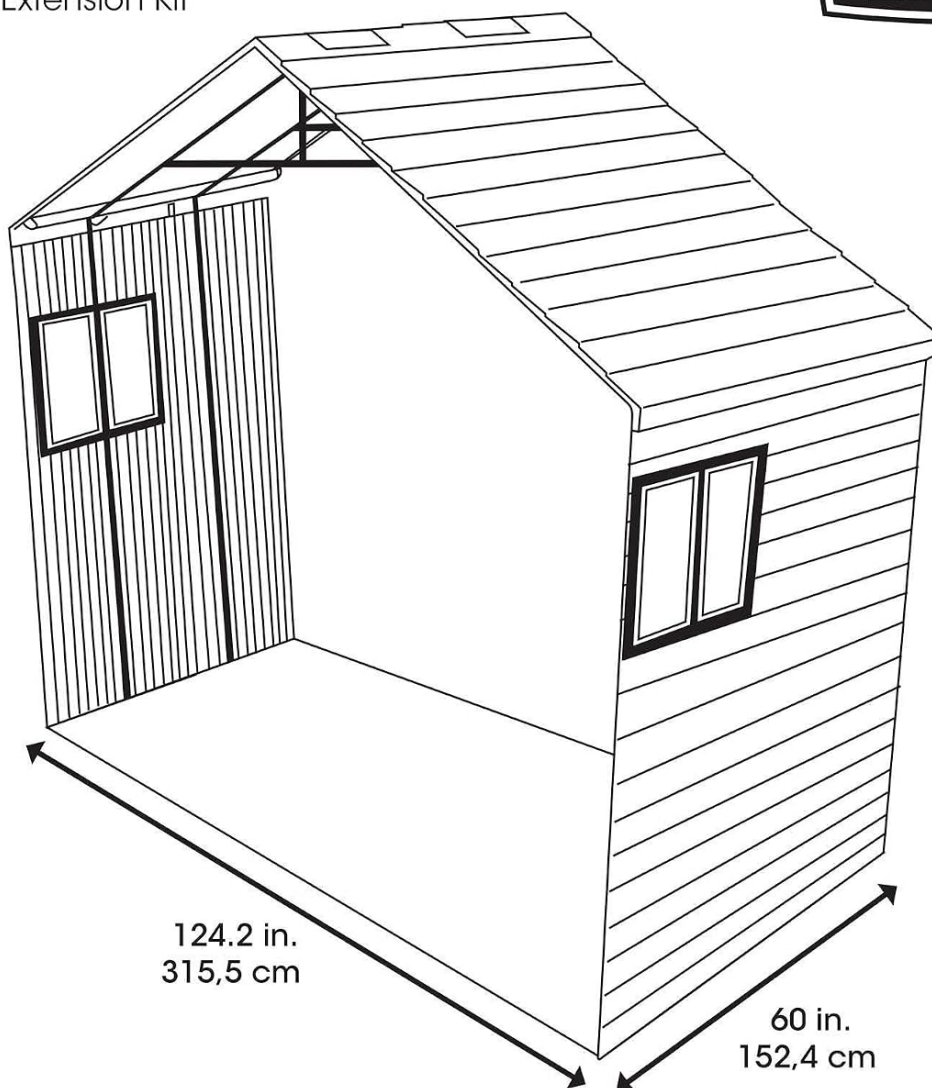

General Assembly Steps:

1. Unpack all components and verify against the parts list in the main shed manual.
2. Prepare the base: Ensure the existing shed is securely anchored and the extension area is level.
3. Install floor panels for the extension, connecting them securely to the existing shed floor.
4. Attach wall panels, ensuring proper alignment and secure fastening.
5. Install the two windows into the designated wall sections.
6. Assemble and attach the roof trusses and panels, ensuring a watertight seal.
7. Complete all final fastenings and checks as per the detailed instruction manual provided with your original Lifetime shed.

For detailed, step-by-step instructions, please refer to the comprehensive assembly manual that accompanied your original Lifetime 11 ft. wide Outdoor Storage Building. This extension kit integrates directly with the existing structure.

OPERATING INSTRUCTIONS

Once assembled, your Lifetime Shed Extension Kit integrates seamlessly with your existing shed. The added space can be utilized for a variety of storage needs, from gardening tools and lawn equipment to recreational gear. The included windows provide natural light, enhancing visibility inside the shed.

Access and Security:

- Ensure all doors and windows are properly closed and latched to protect contents from weather and unauthorized access.
- Regularly check door and window seals for integrity to maintain weather resistance.

MAINTENANCE

The Lifetime Shed Extension Kit is designed for low maintenance. The high-density polyethylene material is resistant to stains and easy to clean.

Cleaning and Care:

- Clean exterior surfaces with mild soap and water using a soft brush or cloth. Avoid abrasive cleaners.
- Periodically inspect all panels, roof, and floor for any signs of damage or wear.
- Ensure proper drainage around the shed to prevent water accumulation.
- The UV-protected material resists fading and cracking, eliminating the need for painting or staining.

TROUBLESHOOTING

Should you encounter any issues with your Lifetime Shed Extension Kit, consider the following common solutions:

- **Water Leakage:** Check all panel connections, roof seams, and window seals. Ensure all screws are tightened and sealant (if used during assembly) is intact. Verify the shed is on a level foundation to prevent water pooling.
- **Difficulty Closing Doors/Windows:** Ensure the shed is level. Uneven foundations can cause doors and windows to bind. Check for any obstructions in the tracks or hinges.
- **Loose Panels:** Re-tighten any loose screws or fasteners. Inspect for any damaged clips or connectors and replace if necessary.

If problems persist, please contact Lifetime Products customer support for further assistance.
