

NewRay 25563A

NewRay Sky Pilot UH-60 Black Hawk Diecast Helicopter Replica 1:60 Scale Instruction Manual

1. INTRODUCTION

This manual provides instructions for the NewRay Sky Pilot UH-60 Black Hawk Diecast Helicopter Replica, 1:60 Scale, Model 25563A. This detailed replica is primarily constructed from metal, with plastic components for the wings, weapons, and rotor blades. It features free-spinning rotors, rolling landing gear wheels, and sliding side doors that reveal an interior with seats and stations. The model includes a display stand, a plastic fighting vehicle, and four soldier figures.

2. PRODUCT OVERVIEW AND CONTENTS

Upon unboxing, verify that all components are present. The package should contain the diecast helicopter model, a display stand, one plastic fighting vehicle, and four soldier figures.

3. SETUP AND DISPLAY

1. **Assemble the Display Stand:** Carefully connect the base and the support arm of the display stand. Ensure the connection is secure.
2. **Mount the Helicopter:** Gently place the UH-60 Black Hawk model onto the display stand's support arm. The model is designed to rest on the stand.
3. **Position Accessories:** Arrange the included plastic fighting vehicle and soldier figures around the helicopter or on the display base as desired.
4. **Stability Note:** The display stand may exhibit some flexibility. For enhanced stability, especially if the model appears wobbly, ensure the helicopter is seated correctly. For a permanent display, a small amount of model adhesive can be applied to secure the helicopter to the stand, though this is optional and not required for basic display.

4. INTERACTIVE FEATURES

The NewRay Sky Pilot UH-60 Black Hawk model offers several interactive elements:

- **Rotor Movement:** Both the main rotor and the tail rotor are designed to spin freely.
- **Landing Gear:** The wheels on the main landing gear can roll freely, allowing for minor movement on smooth surfaces.
- **Sliding Doors:** The side doors of the helicopter can be slid open and closed, revealing the detailed interior, including seats and crew stations.

5. CARE AND MAINTENANCE

To ensure the longevity and appearance of your diecast helicopter model, follow these care guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush to prevent dust buildup. Avoid abrasive cleaners or harsh chemicals.
- **Handling:** Handle the model with care, especially the delicate plastic components such as the rotor blades and antennas. Avoid dropping the model.
- **Display Environment:** Display the model in a stable location away from direct sunlight, extreme temperatures, and high humidity, which can cause material degradation or fading over time.
- **Storage:** If storing the model, keep it in its original packaging or a protective container to prevent damage.

6. TROUBLESHOOTING

This section addresses common concerns you might encounter with your model:

- **Model Unstable on Stand:** If the helicopter does not sit securely or appears wobbly on the stand, ensure it is properly aligned and seated. As noted in Section 3, optional model adhesive can be used for a more permanent and stable attachment.
- **Detached Plastic Parts:** In rare cases, small plastic components like rotor blades or accessories may detach. These can typically be reattached gently. For a more secure fix, a small amount of model-specific adhesive can be used.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	11.02 x 11.02 x 3.15 inches (28 x 28 x 8 cm)
Item Weight	10.6 ounces (300 grams)
Model Number	25563A
Scale	1:60
Recommended Age	13 years and up
Release Date	March 8, 2020

Feature	Detail
Manufacturer	New Ray
