## 5. MAINTENANCE

---

Proper care will ensure the longevity of your Eichhorn Car Racing Track.

- **Cleaning:** Wipe the wooden track and vehicles with a slightly damp cloth. Do not use harsh chemical cleaners, abrasive materials, or excessive water, as these can damage the wood and its finish.
- **Drying:** Ensure all wooden components are completely dry before storing to prevent moisture damage or warping.
- **Storage:** Store the track in a dry environment, away from direct sunlight or extreme temperature fluctuations, which can cause the wood to crack or fade.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your racing track, consider the following common solutions:

- **Cars not running smoothly:**

- Check the track for any small debris or obstructions that might impede the cars' movement.
- Ensure the racing track is placed on a completely level and stable surface. Uneven surfaces can affect the cars' descent.

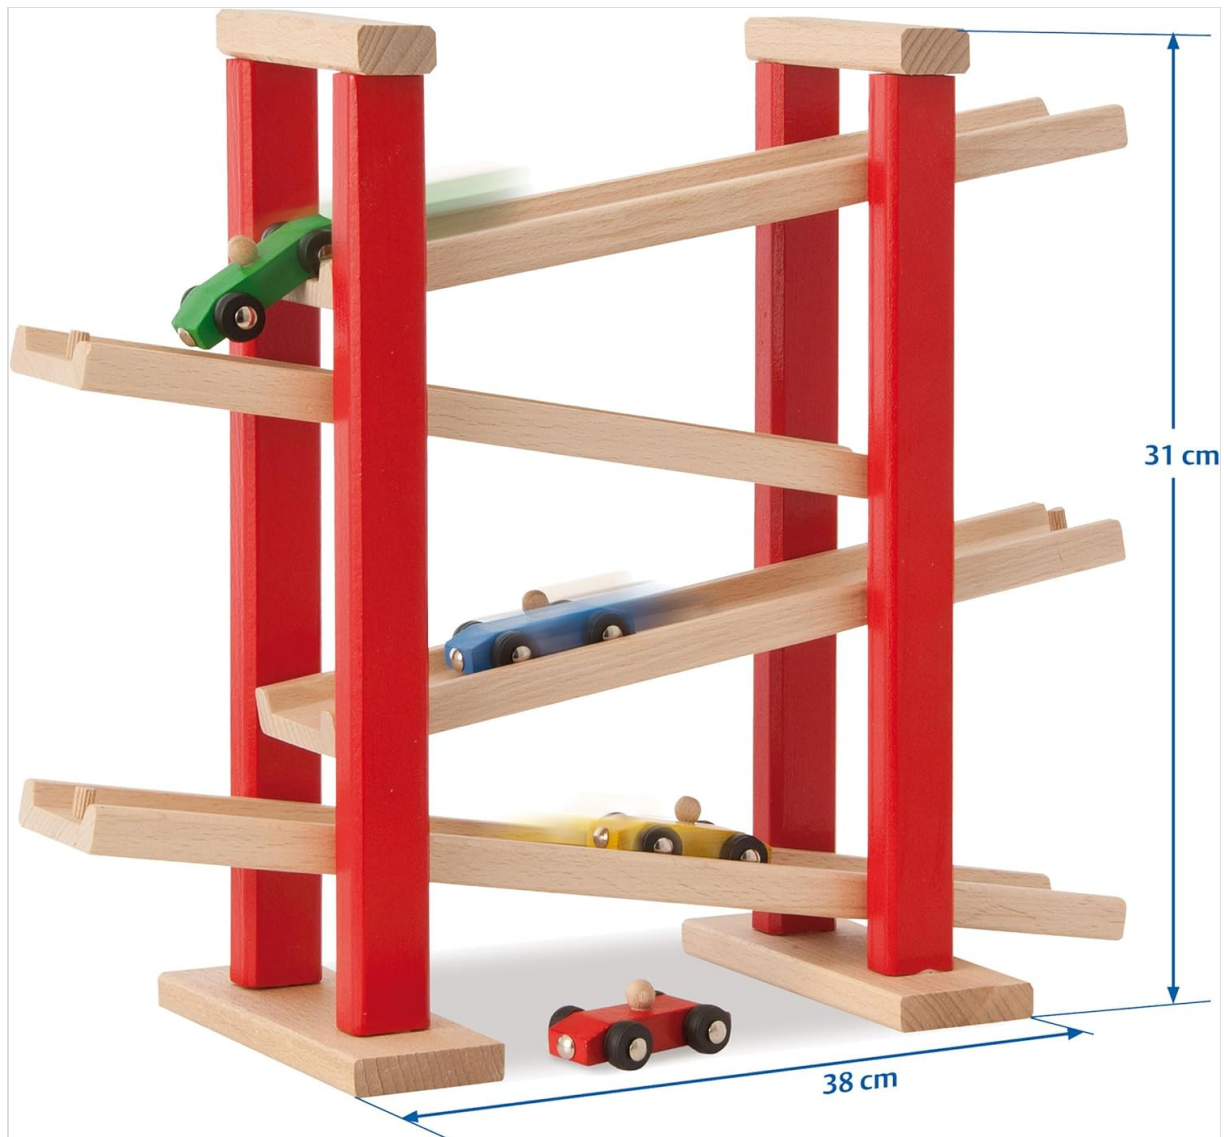

- **Visible damage to wood:**

- Avoid dropping the track or vehicles. If significant damage occurs (e.g., splinters, broken parts), discontinue use to prevent injury.
