WMF Quality One Cookware Set Instruction Manual

Model: 0774046380

INTRODUCTION

The WMF Quality One Cookware Set is a 4-piece collection designed for efficient and enjoyable cooking. Crafted from durable Cromargan stainless steel, this set features innovative Cool+ technology handles that remain cool during cooking, and heat-resistant glass lids with integrated vapor holes for controlled steam release and spill prevention. The TransTherm universal base ensures optimal heat distribution and retention, making it suitable for all stove types, including induction. This set is also dishwasher-safe for easy cleaning.

The set includes:

- 1x Low Casserole (20 cm diameter, approx. 3.4L) with lid
- 1x High Casserole (16 cm diameter, approx. 2L) with lid
- 1x High Casserole (20 cm diameter, approx. 4.1L) with lid
- 1x High Casserole (24 cm diameter, approx. 6.8L) with lid

SETUP AND FIRST USE

1. **Unpack:** Carefully remove all cookware pieces and lids from their packaging. Ensure all protective materials are discarded.
2. **Initial Cleaning:** Before first use, wash all pots and lids thoroughly with warm soapy water. Rinse well and dry completely to remove any manufacturing residues.
3. **Inspect:** Check all components for any signs of damage. If any part is damaged, do not use and contact customer support.

OPERATING INSTRUCTIONS

Cooking on Various Stove Tops

The WMF Quality One Cookware Set features a TransTherm universal base, making it suitable for all types of stove tops, including gas, electric, ceramic, and induction. For optimal performance and energy efficiency, ensure the pot's base diameter matches the burner size as closely as possible.

Cool+ Technology Handles

The handles are equipped with patented Cool+ technology, designed to significantly reduce heat transfer from the pot to the handles during cooking. This allows for safer handling without the need for oven mitts under normal cooking conditions. The distinguishing bright red dots on the handles indicate this feature.

Vapor Hole Glass Lids

The heat-resistant quality glass lids include strategically placed vapor holes. These openings allow steam to escape in a

controlled manner, preventing vacuum formation, uncontrolled steam release, and splashing on your hob. This feature also facilitates easy pouring or decanting of liquids without spilling.

CARE AND MAINTENANCE

Cleaning

The WMF Quality One Cookware Set is made from Cromargan stainless steel 18/10, which is dishwasher-safe and easy to clean. For best results and to maintain the brilliant finish:

- For everyday cleaning, wash with warm soapy water and a soft sponge or cloth. Rinse thoroughly and dry immediately to prevent water spots.
- The cookware is dishwasher-safe. However, hand washing is recommended for prolonged shine and to prevent potential dulling over time.
- For stubborn stains or discoloration, a stainless steel cleaner or a solution of vinegar and water can be used. Apply with a soft cloth, rub gently, then rinse and dry.
- Avoid using abrasive cleaners, steel wool, or harsh scouring pads, as these can scratch the surface.

Storage

Store pots and lids in a dry place. To prevent scratches when stacking, place a cloth or paper towel between pots.

Oven Use

The cookware is oven-safe. However, always check the maximum temperature rating for the glass lids if using them in the oven.

TROUBLESHOOTING

- **Handles getting hot:** The Cool+ technology is designed to keep handles cool. If handles become excessively hot, ensure the heat source is not too wide for the pot's base, causing flames or heat to extend up the sides. On gas stoves, adjust flame size.
- **Lid splashing or vacuum formation:** The vapor holes are designed to prevent this. Ensure the holes are not blocked by food particles. If a vacuum forms, gently lift the lid to release pressure.
- **Discoloration or stains on stainless steel:** This can occur from mineral deposits in water or certain foods. Use a stainless steel cleaner or a solution of white vinegar and water to restore shine. Avoid harsh chemicals.
- **Slight "squealing" sound on induction (rare):** Some users report a slight sound when pots are empty or only contain water at maximum power on induction cooktops. This is generally normal and should cease once food is added or power is reduced. It does not indicate a defect.

SPECIFICATIONS

Brand	WMF
Model Number	0774046380
Material	Cromargan Stainless Steel 18/10
Lid Material	Heat-resistant Quality Glass
Color	Silver (Brushed)
Number of Pieces	4
Compatibility	All Stove Tops (including Induction)
Dishwasher Safe	Yes
Oven Safe	Yes
Approximate Dimensions (Overall Package)	22.13 x 11.61 x 9.25 inches
Approximate Item Weight	7.65 kg (16.84 lbs)

WARRANTY AND SUPPORT

WMF is a renowned German brand known for its versatile, stylish range of products and reliability in quality and finish. For over 150 years, WMF has been committed to making cooking, dining, and drinking a real experience while maintaining professional standards and progressing manufacturing technologies.

For specific warranty information, product registration, or technical support, please refer to the official WMF website or contact WMF customer service directly. Contact details can typically be found on the product packaging or on the official WMF global website.
