## BRIO 33210

# BRIO World Rail & Road Loading Set (Model 33210) Instruction Manual

## INTRODUCTION

---

This instruction manual provides essential information for the assembly, operation, and maintenance of your BRIO World Rail & Road Loading Set, Model 33210. This 32-piece wooden train set, crafted from Forest Stewardship Council-certified wood and other durable materials, includes a special crane car, flatbed, tracks, and more. It is designed for imaginative play and is compatible with all BRIO wooden railway sets.

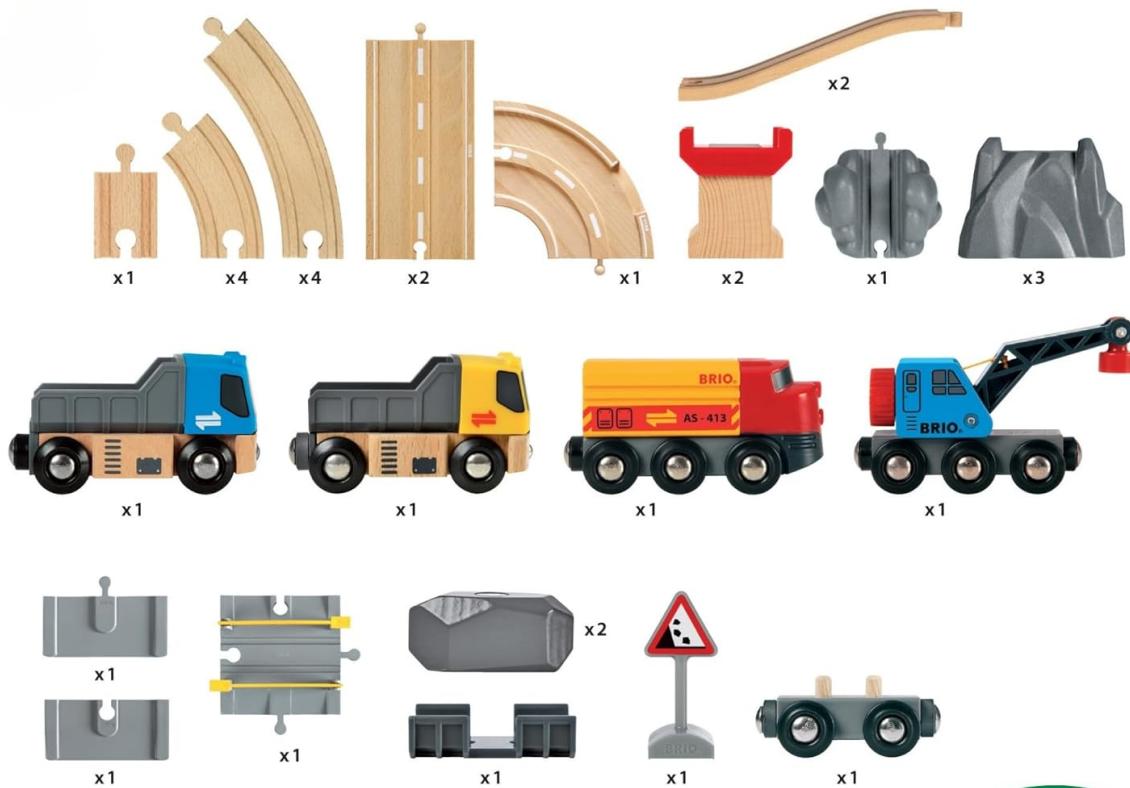

Please read this manual thoroughly to ensure proper use and to maximize the enjoyment and longevity of your product.

## PACKAGE CONTENTS

---

The BRIO World Rail & Road Loading Set includes 32 pieces. Verify that all components listed below are present in your package:

# Play, Create, & Explore!

Explore the world of stone quarrying with cranes, cargo trains, and trucks. Every load brings a new adventure!

32 pieces  
3+ years old

**Image Description:** This image displays all 32 individual components of the BRIO World Rail & Road Loading Set. It includes various curved and straight wooden track pieces, elevated track supports, two dump trucks (one blue, one yellow), a red engine, a blue crane car, two magnetic boulders, a flatbed wagon, a railway crossing, and a road sign. Each item is clearly laid out with its quantity indicated.

- Wooden Track Pieces (various shapes and lengths)
- Road Pieces (straight and curved)
- Elevated Track Supports (bridges/risers)
- 1x Blue Dump Truck
- 1x Yellow Dump Truck
- 1x Red Engine
- 1x Blue Crane Car
- 1x Flatbed Wagon
- 2x Magnetic Boulders (cargo)
- Railway Crossing Gate
- Road Sign
- Other accessory pieces (e.g., rock formations)

## SETUP AND ASSEMBLY

Follow these steps to assemble your BRIO World Rail & Road Loading Set. Refer to the main product image for a suggested layout, or create your own custom track design.

- 1. Unpack Components:** Carefully remove all pieces from the packaging.
- 2. Connect Track Pieces:** Begin by connecting the wooden track pieces to form a railway loop. The interlocking design allows for various configurations.
- 3. Install Elevated Tracks:** Use the elevated track supports to create bridges and inclines. Ensure these supports are stable before placing track pieces on top.
- 4. Integrate Road Pieces:** Connect the road pieces to form a road network, often running parallel to or crossing the railway.
- 5. Place Accessories:** Position the railway crossing gate, road sign, and rock formations as desired around your track layout.
- 6. Position Vehicles:** Place the engine, crane car, flatbed wagon, and dump trucks on their respective tracks and roads.

**Image Description:** This image shows the complete BRIO World Rail & Road Loading Set assembled in a suggested layout. A train with a crane car and flatbed is on the elevated railway, while two dump trucks are on the road section below. Rock formations and a road sign are also visible, illustrating a complete play environment.

## OPERATING INSTRUCTIONS

## Using the Crane Car

The blue crane car is designed to lift and transfer magnetic cargo. It features a rotating crane arm and a magnetic hook.

- Positioning:** Place the crane car on the railway track. For loading/unloading trucks, position it above the road section or next to a flatbed wagon.
- Lifting Cargo:** Rotate the crane arm to align the magnetic hook with a magnetic boulder. Lower the hook to connect with the boulder, then raise it by turning the knob on the side of the crane.
- Transferring Cargo:** Move the crane arm to transfer the boulder to a dump truck or the flatbed wagon. Release the boulder by lowering the hook.

**Image Description:** This close-up image illustrates the functionality of the blue crane car. The crane's magnetic hook is shown lifting a grey magnetic boulder from the bed of a yellow dump truck, demonstrating the cargo transfer mechanism.

## Using the Dump Trucks

The blue and yellow dump trucks are designed to transport cargo on the road sections. Their beds can be tilted to unload cargo.

- Loading:** Place magnetic boulders or other small cargo into the truck bed, either manually or using the crane car.
- Transport:** Manually push the trucks along the road tracks.
- Unloading:** Tilt the truck bed upwards to dump the cargo.

# Bright Tracks, Bold Adventures!

## Crane on wheels

Move the cargo around the tracks with the help of the battery-powered freight engine.

## Stop & go

Three unique cranes, including a swivel crane, bring the railway to life!

## Transfer the load

Transfer cargo from train to truck at the goods station.

## Build custom tracks

Create twisty tracks and customize the layout.

**Image Description:** This composite image highlights key operational features. The top-left panel shows the crane lifting a boulder. The top-right panel demonstrates a dump truck tilting its bed to unload cargo. The bottom-left panel shows the crane transferring cargo from a train to a truck. The bottom-right panel displays a complete track layout, emphasizing the ability to build custom tracks.

## Train Operation

The red engine and other train cars connect via magnetic couplings, allowing for easy assembly and disassembly of trains.

- **Connecting Cars:** Bring the magnetic ends of two train cars close together; they will automatically connect.
- **Movement:** Manually push the train along the wooden railway tracks.
- **Navigating Inclines:** When ascending or descending elevated tracks, ensure the train is pushed smoothly to prevent derailing. Longer trains may require more careful handling on slopes.

## MAINTENANCE AND CARE

Proper care will ensure the longevity of your BRIO World Rail & Road Loading Set.

- **Cleaning:** Wipe all wooden and plastic components with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the materials and finishes. Ensure all parts are dry before storage.

- **Storage:** Store the set in a dry place away from direct sunlight and extreme temperatures to prevent warping or fading of the wooden components.
- **Inspection:** Periodically inspect all pieces for any signs of wear or damage. Discontinue use of any broken parts to prevent injury.

**Image Description:** This image displays three icons: a shield for 'Unmatched Safety Assurance', an FSC logo for 'FSC Certified', and a water drop for 'Easy to Clean'. These icons highlight key product attributes related to safety, sustainability, and maintenance.

## TROUBLESHOOTING

If you encounter any issues while using your BRIO World Rail & Road Loading Set, consider the following common solutions:

- **Train Derailment on Inclines:** If train cars frequently fall off the tracks on elevated sections, try reducing the number of cars in the train or pushing the train more gently and consistently when navigating slopes. Ensure track connections are secure.
- **Loose Track Connections:** If track pieces separate during play, ensure they are fully interlocked. Check for any debris in the connection points that might prevent a secure fit.
- **Crane Not Lifting Cargo:** Verify that the magnetic hook is directly over the magnetic boulder. Ensure the knob for raising/lowering the hook is fully engaged and turning correctly.

## SPECIFICATIONS

<b>Model Number</b>	33210
<b>Product Dimensions</b>	19.69 x 27.17 x 0.01 inches (assembled layout)
<b>Item Weight</b>	3.2 pounds
<b>Recommended Age</b>	36 months - 10 years
<b>Material</b>	FSC-Certified Wood and other durable materials
<b>Number of Pieces</b>	32

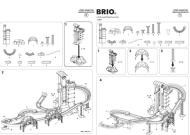

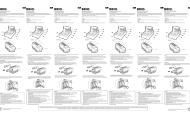

## WARRANTY AND SUPPORT

BRIO products are manufactured to high-quality standards. For information regarding warranty coverage or customer support, please refer to the official BRIO website or contact your local retailer. Keep your proof of purchase for any warranty claims.
