Metaltex Faro Plus 3-Tier Clothes Dryer Instruction Manual

Model: 405773039

INTRODUCTION

The Metaltex Faro Plus 3-Tier Clothes Dryer is a versatile and space-saving solution for drying laundry. Designed with a foldable tower structure, it offers ample drying space and convenient mobility. This manual provides essential information for the safe and efficient use of your clothes dryer.

Faro 3-Tier

The Metaltex Faro 3-Tier Dryer is the perfect spacious clothes dryer.

Figure 1: Overview of the Metaltex Faro Plus 3-Tier Clothes Dryer highlighting its key features.

- **Design:** Foldable tower with 3 tiers (4 levels of drying racks).
- **Drying Capacity:** Approximately 28 meters of drying line.
- **Mobility:** Equipped with 4 original swivel wheels for easy movement.
- **Versatility:** Features a half-opening option for use in smaller spaces or against a wall.
- **Material:** Constructed from plastic-coated steel tube and wire for durability.
- **Dimensions (Open):** 64 cm (width) x 69 cm (depth) x 134 cm (height).
- **Dimensions (Folded):** 134 cm (height) x 6 cm (depth) x 69 cm (width).

SETUP INSTRUCTIONS

Follow these steps to set up your Metaltex Faro Plus Clothes Dryer:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components are present. The main frame, drying racks, and wheels should be included.
2. **Attach Wheels:** If the swivel wheels are not pre-assembled, gently push them into the designated slots at the base of the dryer frame until they click securely into place. Ensure all four wheels are firmly attached.
3. **Unfold the Dryer:**
 - Place the folded dryer on a flat, stable surface.

- Grasp the top handles and carefully pull the two main sides apart. The hinged mechanisms will allow the dryer to expand into its upright tower configuration.
- Extend the drying racks (shelves) outwards until they are horizontal and locked into position. There are three main tiers of racks.

4. **Check Stability:** Once fully unfolded, gently shake the dryer to ensure it is stable and all parts are securely locked.

OPERATING INSTRUCTIONS

Using your Metaltex Faro Plus Clothes Dryer is straightforward:

1. **Full Opening:** For maximum drying space, ensure all three tiers of racks are fully extended horizontally. This provides 28 meters of drying line.
2. **Half-Opening Option:** If space is limited, you can utilize the half-opening feature. Fold one side of the dryer inwards while keeping the other side extended. This allows the dryer to be placed against a wall or in a narrower space.
3. **Loading Laundry:** Distribute laundry evenly across the racks to maintain stability. Hang items over the plastic-coated wires. The 37 cm spacing between tiers accommodates various clothing sizes.
4. **Mobility:** Use the swivel wheels to easily move the dryer, even when loaded with wet laundry, to your desired drying location (e.g., sunny spot, well-ventilated area).
5. **Folding for Storage:** When not in use, fold the drying racks inwards, then bring the two main sides of the tower together. The dryer will collapse into its compact, flat form for easy storage.

Figure 3: The dryer demonstrating its half-opening capability, ideal for space-saving use.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your clothes dryer:

- **Cleaning:** Wipe down the plastic-coated steel tubes and wires regularly with a damp cloth and mild detergent. Avoid abrasive cleaners that could damage the coating.
- **Drying:** Ensure the dryer is completely dry before folding and storing to prevent rust or mildew, especially if used outdoors.
- **Wheel Care:** Periodically check the swivel wheels for lint or debris accumulation. Clean them as needed to ensure smooth movement.
- **Storage:** Store the folded dryer in a dry, protected area when not in use. Its compact design allows for storage in narrow spaces.
- **Inspection:** Regularly inspect all hinges, joints, and welds for any signs of wear or damage. Address any issues promptly to maintain stability.

Figure 4: The durable construction of the dryer, designed for long-lasting use and easy maintenance.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Dryer feels unstable:**

- Ensure the dryer is fully unfolded and all racks are locked into their horizontal positions.
- Distribute laundry evenly across the racks. Overloading one side can cause imbalance.
- Check that the dryer is on a flat, level surface.

- **Wheels are not rolling smoothly:**

- Inspect the wheels for any accumulated lint, hair, or debris. Clean them thoroughly.
- Ensure the wheels are securely attached to the frame.

- **Difficulty folding/unfolding:**

- Check for any obstructions or laundry caught in the hinges or folding mechanisms.
- Ensure racks are fully folded inwards before attempting to collapse the main frame.

SPECIFICATIONS

Brand	Metaltex
Model Number	405773039 (also referred to as 4057731280002039)
Color	Silver
Material	Plastic-coated steel tube and wire
Dimensions (Open)	64 cm (width) x 69 cm (depth) x 134 cm (height)
Dimensions (Folded)	134 cm (height) x 6 cm (depth) x 69 cm (width)
Drying Space	28 meters
Item Weight	3.02 Kilograms
Special Features	Foldable, On wheels, Half-opening option
