Shark SV75Z

Shark Pet-Perfect Cordless Hand Vacuum User Manual

Model: SV75Z

INTRODUCTION

The Shark Pet-Perfect Cordless Bagless Portable Hand Vacuum (Model SV75Z) is designed for convenient and efficient cleaning of various surfaces, including carpets, upholstery, and hard floors. Its lightweight and portable design makes it ideal for quick clean-ups around the home, in vehicles, or RVs.

What's in the Box

- Shark Pet-Perfect Hand Vacuum (15.6V)
- Motorized Brush Attachment
- Crevice Tool
- Rechargeable 15.6V Battery
- Charging Adapter

Figure 1: The Shark Pet-Perfect Cordless Hand Vacuum with its included motorized brush attachment and crevice tool.

SETUP

Charging the Battery

Before first use, fully charge the 15.6V Ni-MH battery. Connect the charging adapter to the DC port located at the rear of the vacuum. Plug the adapter into a standard electrical outlet. Do not charge the battery at temperatures below 32°F (0°C). A full charge typically takes several hours. Unplug the charger once the battery is fully charged to prolong battery life.

Attaching Accessories

The hand vacuum comes with two primary attachments: the Motorized Brush and the Crevice Tool. To attach either accessory, align the attachment with the vacuum's suction nozzle and push firmly until it clicks into place. The crevice tool simply slides into the opening, while the motorized brush attachment connects using two pins and a blue part that fits into the main opening.

Figure 2: The motorized brush attachment can be easily detached or attached to the main vacuum unit.

OPERATING INSTRUCTIONS

Powering On/Off

To turn the vacuum on, slide the power switch located on the handle forward. To turn it off, slide the switch backward.

Using the Motorized Brush Attachment

The motorized brush attachment is ideal for removing pet hair and ground-in dirt from upholstery, carpets, car mats, and seats. The spinning brush effectively agitates and lifts debris for thorough cleaning.

Figure 3: The motorized brush attachment effectively removes pet hair from upholstered surfaces.

Using the Crevice Tool

The crevice tool provides versatility for reaching tight spaces and corners where the main vacuum or motorized brush cannot fit. It is suitable for direct suction on any surface.

Figure 4: The hand vacuum effectively cleans up dry spills on carpeted surfaces.

Figure 5: The compact size and powerful suction make it ideal for cleaning vehicle interiors.

MAINTENANCE

Emptying the Dust Cup

The Shark Pet-Perfect Hand Vacuum features an easy-to-empty, bagless large capacity dust cup. To empty, press the release button located on the top of the vacuum to detach the dust cup assembly. Invert the dust cup over a trash receptacle to dispose of collected debris.

Figure 6: The dust cup detaches easily for quick and hygienic emptying.

Cleaning the Filter

The vacuum includes a washable foam filter. For optimal performance, regularly clean the filter. After detaching the dust cup, the filter can be easily removed by pulling it out. Rinse the filter under running water until clean. Allow the filter to air dry completely for at least 24 hours before reinserting it into the dust cup. Do not operate the vacuum without a dry filter.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on or has low power.	Battery is not charged or is low.	Ensure the battery is fully charged. Charge for several hours if needed.
Reduced suction.	Dust cup is full or filter is dirty/clogged.	Empty the dust cup. Clean or replace the filter as necessary. Ensure filter is completely dry before reinserting.
Motorized brush not spinning.	Brush roll is jammed or attachment is not properly connected.	Check brush roll for tangled hair or debris and clear it. Ensure the motorized brush attachment is securely connected to the vacuum.

SPECIFICATIONS

Brand: Shark

Model: SV75Z

Voltage: 15.6V MAX

Battery Type: Ni-MH (Nickel-Metal Hydride)

Capacity: 1.8 Quarts

Product Weight: 3.5 pounds

Filtration: Washable filter

Surface Cleaning Types: Carpet, Upholstery, Hard Floor

Product Dimensions: 4.61"L x 15.55"W x 6.14"H

Wattage: 150 watts

Runtime: 3 minutes

Noise Level: 80 dB
