BLACKHAWK S.T.O.M.P. II Medical Coverage Bag (Jumpable) User Manual

Model: BH60MP01DE

INTRODUCTION

This manual provides essential information for the proper use, setup, and maintenance of your BLACKHAWK S.T.O.M.P. II Medical Coverage Bag. Designed to meet the rigorous specifications of SEAL team medics, this bag is built for durability and functionality in demanding environments.

The S.T.O.M.P. II (Specialized Trauma Operations Medical Pack) is constructed from heavy-duty 1000 denier nylon with breathable closed-cell foam padding, ensuring comfort and resilience. It features adjustable shoulder straps, a sternum strap, and a web belt for a secure and comfortable fit. Internal organization includes numerous pockets and elastic stays, while external features support additional gear and hydration systems.

SETUP AND ADJUSTMENT

Proper setup of your S.T.O.M.P. II bag is crucial for comfort and load distribution, especially when carrying medical supplies or other heavy equipment. Medical supplies are not included with the bag.

1. Shoulder Straps Adjustment

Place the bag on your back. Adjust the shoulder straps so that the weight is evenly distributed across your shoulders and

upper back. The top of the shoulder straps should align with the top of your shoulders.

2. Sternum Strap Adjustment

Fasten the sternum strap across your chest. Adjust its height and tension to prevent the shoulder straps from sliding outwards and to provide additional stability. It should be snug but not restrictive to breathing.

3. Web Belt Adjustment

Secure the web belt around your waist. This belt helps transfer a significant portion of the bag's weight to your hips, reducing strain on your shoulders. Tighten it so it sits comfortably on your hip bones.

4. Cinch Straps

The bag features cinch straps on the sides and top. These straps are used to compress the load, keeping contents secure and preventing shifting during movement. Tighten them once the bag is packed to maintain load integrity.

5. Hydration System Integration

The S.T.O.M.P. II is designed with pouches for two BLACKHAWK! Hydration Systems. One 100 oz. BLACKHAWK! Hydration System is typically included, with the second sold separately. Insert the hydration bladder into the designated compartment and route the drinking tube through the access ports.

OPERATING AND FEATURES

The S.T.O.M.P. II bag is designed for efficient organization and quick access to critical items.

Internal Compartment Features:

- **Numerous Flat, Netted Zipper Pockets:** Ideal for organizing smaller items and keeping them visible.
- **Elastic Stays and Keepers:** Secure medical instruments, bandages, and other supplies in place.
- **Multiple Small and Medium Pockets:** Provide versatile storage options for various sizes of equipment.
- **Two Color-Coded Mini Packs:** Designed for quick access to specific medications or critical items. These can be removed for rapid deployment.
- **Pouches for Hydration Systems:** Dedicated compartments for hydration bladders.

External Features:

- **Silent Zipper Pulls:** Minimize noise during operation, crucial in tactical environments.
- **Grommets for Drainage:** Allow water to escape, preventing accumulation and reducing weight if the bag gets wet.
- **Drop Pouches with Rigging for Jumps:** Specifically designed for airborne operations, allowing the bag to be rigged for safe deployment.
- **Two Grab Handles:** Provide convenient carrying options when not worn as a backpack.
- **Hook and Loop Strip:** For attaching patches, name tapes, or other identifiers.
- **Webbing on Underside:** For attaching accessory packs, medic rolls, or sleeping rolls, expanding the bag's carrying capacity.

CARE AND MAINTENANCE

Proper care will extend the life and maintain the functionality of your BLACKHAWK S.T.O.M.P. II Medical Coverage Bag.

Cleaning:

- For general cleaning, wipe the bag with a damp cloth and mild soap.
- Do not use harsh chemicals, bleach, or abrasive cleaners, as these can damage the nylon fabric and coatings.
- For stubborn dirt, a soft brush can be used gently.
- Rinse thoroughly with clean water to remove all soap residue.

Drying:

- Allow the bag to air dry completely in a well-ventilated area, away from direct sunlight or heat sources.
- Ensure all compartments are open during drying to prevent mildew and odors.
- Do not machine wash or tumble dry.

Storage:

- Store the bag in a cool, dry place when not in use.
- Avoid storing in direct sunlight or extreme temperatures, which can degrade materials over time.

Zipper Care:

- Keep zippers clean and free of dirt and debris.
- Periodically apply a silicone-based lubricant to the zipper teeth to ensure smooth operation.

TROUBLESHOOTING

This section addresses common issues you might encounter with your S.T.O.M.P. II bag.

Problem	Possible Cause	Solution
Bag feels uncomfortable or heavy.	Improper adjustment of straps; uneven load distribution.	Re-adjust shoulder straps, sternum strap, and web belt. Ensure heavy items are placed closer to your back and centered. Utilize cinch straps to compress the load.
Zippers are stiff or stuck.	Dirt/debris in zipper teeth; lack of lubrication.	Clean zipper teeth with a small brush. Apply a silicone-based zipper lubricant. Avoid forcing the zipper.
Bag retains moisture or develops odor.	Improper drying after exposure to moisture.	Ensure the bag is thoroughly air-dried in a well-ventilated area after each use or cleaning. Utilize grommets for drainage.
Contents shift excessively during movement.	Load not properly secured; cinch straps not tightened.	Utilize internal pockets, elastic stays, and color-coded mini packs to secure items. Tighten external cinch straps to compress the load.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Name	BH60MP01DE
