#### **3.1 Unboxing and Initial Inspection**

1. Carefully remove the deck from its packaging.
2. Inspect all 54 cards for any manufacturing defects or damage.
3. Familiarize yourself with the unique design of the cards, noting the blue Bicycle Rider Back on one side and the blank white face on the other.

### **4. OPERATING**

---

#### **4.1 General Handling**

Handle the cards with clean, dry hands to maintain their quality and finish. The air-cushion finish ensures smooth shuffling and dealing.

#### **4.2 Usage for Magic Tricks and Effects**

These cards are particularly suited for magic tricks that require a blank face or a specific reveal. Their design makes them ideal for:

- **Counting Tricks:** The blank face allows for deceptive counts where the audience believes they see a different number of cards.
- **Double Lifts:** The consistent back design and blank face facilitate easy and convincing double lifts, where two cards are handled as one.
- **Visual Effects:** Create stunning visual changes or appearances by manipulating the blank face.
- **Customization:** The blank white faces can be marked or drawn upon with appropriate materials (e.g., sharpie markers for easy glide coating) for personalized effects, as suggested by experienced users.

## 5. MAINTENANCE

---

### 5.1 Care and Storage

- Store cards in their original tuck box or a dedicated card case to protect them from dust, moisture, and bending.
- Avoid exposing cards to extreme temperatures or direct sunlight, which can cause warping or fading.
- If cards become slightly dirty, gently wipe them with a soft, dry cloth. Avoid using water or cleaning solutions.
- To prolong the life of your deck, avoid excessive bending or creasing of the cards.

## 6. TROUBLESHOOTING

---

### 6.1 Common Issues

- **Cards sticking together:** This can happen with new decks or in humid conditions. Fan the cards out and shuffle them thoroughly to help break them in.
- **Minor bends or creases:** For slight bends, place the card under a heavy, flat object for a few hours. Severe creases are generally irreversible.
- **Fading or wear:** This is normal with extended use. Proper care and storage can slow down the process.
