Zodiac C120

Zodiac Polaris C120 Pool Cleaner Hose Replacement Instruction Manual

For Models 180, 280, Vac-Sweep 280, and 280 TankTrax

Introduction

This manual provides essential instructions for the proper installation and maintenance of your Zodiac Polaris C120 Pool Cleaner Hose. This genuine replacement part is designed to ensure optimal performance and compatibility with specific Zodiac Polaris pool cleaner models. Please read these instructions carefully before proceeding with installation or maintenance.

Product Compatibility

The Zodiac Polaris C120 Hose is compatible with the following Zodiac Polaris pool cleaner models:

- Polaris 180
- Polaris 280
- Polaris Vac-Sweep 280
- Polaris 280 TankTrax

This hose is specifically designed for use with the C110 turbine cover. Ensure your pool cleaner model matches the listed compatibility to guarantee correct fit and function.

Installation Instructions

Follow these steps to properly install the Zodiac Polaris C120 replacement hose:

1. **Preparation:** Before beginning, ensure your pool cleaner is disconnected from its power source and removed from the pool.
2. **Remove Old Hose:** Carefully detach the existing hose from the pool cleaner. Note the orientation and connection points for reference.

3. **Inspect Connections:** Examine the connection points on your pool cleaner and the C110 turbine cover for any debris or wear. Clean if necessary.
4. **Attach New Hose:** Connect the new Zodiac Polaris C120 hose to the designated fitting on your pool cleaner. Ensure a secure and snug fit. If using with the C110 turbine cover, attach the hose to the cover as per your cleaner's specific instructions.
5. **Verify Connection:** Gently pull on the hose to confirm it is firmly attached and will not easily detach during operation.

Operation and Connection Verification

Once the hose is installed, follow these steps to ensure proper operation:

1. **Submerge Cleaner:** Carefully place your pool cleaner back into the pool, ensuring it is fully submerged before activating.
2. **Activate Cleaner:** Reconnect the power source and activate your pool cleaner according to its specific operating instructions.
3. **Monitor for Leaks:** Observe the hose connections for any signs of leaks or air intake, which could reduce cleaning efficiency.

4. **Check Movement:** Ensure the cleaner moves freely and the hose does not kink or impede its movement.

Maintenance and Care

Proper care of your Zodiac Polaris C120 hose will extend its lifespan and maintain optimal performance:

- **Regular Inspection:** Periodically inspect the hose for cracks, punctures, or signs of wear. Replace immediately if damage is found.
- **Storage:** When not in use for extended periods, store the hose in a cool, dry place away from direct sunlight and harsh chemicals. Avoid kinking or bending the hose sharply during storage.
- **Cleaning:** If necessary, gently clean the hose with mild soap and water. Rinse thoroughly.
- **Avoid Harsh Chemicals:** Do not expose the hose to strong acids, solvents, or other corrosive chemicals, as these can degrade the material.

Troubleshooting

If you encounter issues with your Zodiac Polaris C120 hose, consider the following:

- **Hose Not Fitting:** Ensure you have the correct C120 model hose for your specific Polaris cleaner (180, 280, Vac-Sweep 280, 280 TankTrax) and that it is being connected to the C110 turbine cover if applicable. Verify that the fittings are clean and free of obstructions.
- **Reduced Cleaner Performance:** Check the hose for any blockages, kinks, or leaks. A compromised hose can reduce suction and overall cleaner efficiency.
- **Hose Disconnecting:** Ensure all connections are securely tightened. Over time, fittings can loosen or wear.

If problems persist, consult your pool cleaner's main instruction manual or contact Zodiac customer support.

Product Specifications

Feature	Detail
Brand	Zodiac
Model Number	C120
Material	Plastic, Rubber
Item Weight	0.8 ounces (0.05 Pounds)
Product Dimensions	7.4 x 0.6 x 0.6 inches
UPC	738919001046
Specific Uses	Pool Cleaner Replacement, Pool Maintenance

Safety Information

- Always disconnect power to your pool cleaner before performing any maintenance or installation.
- Keep small parts away from children.
- Use appropriate personal protective equipment if necessary.
