2. SAFETY INFORMATION

- **Keep out of reach of children and pets.** The scent tablets are not for consumption.
- Avoid direct contact with eyes and skin. In case of contact, rinse thoroughly with water.
- Do not place tablets near open flames or heat sources. Although flameless, extreme heat can affect the product.
- Store in a cool, dry place away from direct sunlight.
- Use only as directed with compatible Bonaire fan models.

3. SETUP INSTRUCTIONS

These scent pouches are designed for easy integration with the Bonaire BSF1620RC-U Fresh Scent Stand Fan. Follow these steps to install a scent tablet:

1. **Ensure the fan is turned off and unplugged** from the power outlet before installation.
2. Locate the scent tablet compartment on your Bonaire BSF1620RC-U fan. Refer to your fan's instruction manual for the exact location, typically found near the fan blades or on the back grille.
3. Open the compartment cover.
4. Carefully insert one Bonaire Tropical Fruit Scent Tablet into the designated slot. Ensure it is seated properly.
5. Close the compartment cover securely.
6. Plug in the fan and turn it on to begin diffusing the scent.

4. OPERATING INSTRUCTIONS

Once a scent tablet is installed in your compatible Bonaire fan, operation is straightforward:

- Turn on your Bonaire BSF1620RC-U Fresh Scent Stand Fan as you normally would.
- The fan's airflow will activate the scent tablet, releasing the tropical fruit fragrance into your room.
- Each tablet is designed to provide fragrance for approximately 8 hours of continuous use.
- When the scent diminishes, it is time to replace the tablet.

5. MAINTENANCE

To ensure optimal performance and scent diffusion, follow these maintenance guidelines:

- **Tablet Replacement:** Replace the scent tablet when the fragrance becomes noticeably weaker or after approximately 8 hours of use.
- **Storage:** Store unused scent pouches in their original packaging in a cool, dry place, away from direct sunlight and extreme temperatures, to preserve their fragrance.
- **Cleaning the Compartment:** Periodically, with the fan unplugged, gently wipe the scent tablet compartment with a dry cloth to remove any dust or residue. Do not use liquid cleaners.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No scent or weak scent.	Tablet is old or depleted.	Replace with a new scent tablet.
No scent or weak scent.	Tablet not properly installed.	Ensure the tablet is correctly seated in the fan's compartment.
No scent or weak scent.	Fan is not operating.	Check if the fan is plugged in and turned on. Refer to your fan's manual for fan-specific troubleshooting.
