PREPARATION FOR USE

Before applying the lipstick, ensure your lips are clean and moisturized. For best results, gently exfoliate your lips to remove any dry skin and apply a lip balm a few minutes prior to lipstick application. Blot off any excess lip balm before proceeding.

APPLICATION INSTRUCTIONS

1. **Prepare Lips:** As mentioned, ensure lips are clean, smooth, and lightly moisturized.
2. **Outline (Optional):** For a more defined look, you may use a lip liner that matches your lipstick shade. Outline the natural shape of your lips.
3. **Apply Lipstick:**
 - Twist the base of the lipstick to reveal a small amount of product.

- Start applying from the center of your upper lip, following the contour of your mouth.
- Glide the lipstick across your entire upper lip.
- Repeat the process for your lower lip, starting from the center and moving outwards.

4. **Blot (Optional):** For longer wear and to remove excess product, gently blot your lips with a tissue after the first coat. You can then apply a second coat if desired for more intense color.

CARE AND STORAGE

- Always retract the lipstick fully into its tube and secure the cap after each use to prevent drying and damage.
- Store the lipstick in a cool, dry place away from direct sunlight or extreme temperatures, which can alter its texture and performance.
- Avoid dropping the lipstick, as this can cause the bullet to break or detach from the base.
- Clean the exterior of the lipstick tube with a soft, dry cloth if needed.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Lipstick appears dry or drags on lips.	Lips are not adequately moisturized; product stored in a warm environment.	Ensure lips are exfoliated and moisturized before application. Store lipstick in a cool, dry place.
Color does not last long.	No lip primer used; lips not blotted after application.	Consider using a lip primer. Blot lips with a tissue after the first coat and apply a second coat.
Lipstick bullet breaks.	Excessive force during application; product extended too far; dropped.	Apply with gentle pressure. Only twist up a small amount of product needed for application. Handle with care.
