# Miele B990E Rotary Iron User Manual

Model: B990E

## 1. INTRODUCTION

---

The Miele B990E Rotary Iron is designed to simplify the ironing process for a wide range of textiles, from large linens to everyday garments. Its unique rotary design provides efficient and consistent results, reducing physical effort compared to traditional ironing. This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your Miele B990E Rotary Iron.

Figure 1: The Miele B990E Rotary Iron in its operational configuration.

## 2. IMPORTANT SAFETY INSTRUCTIONS

To ensure safe operation and prevent injury or damage, please read and adhere to the following safety guidelines:

- Read the entire instruction manual before using the appliance.
- Always connect the iron to a grounded electrical outlet.
- Do not operate the iron with a damaged cord or plug. If the cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- Keep the iron and its cord out of reach of children.
- Never leave the iron unattended while it is connected to a power source.
- Do not immerse the iron in water or other liquids.
- Use the iron only for its intended purpose as described in this manual.
- Allow the iron to cool completely before storing.

### 3. SETUP AND ASSEMBLY

---

The Miele B990E Rotary Iron is designed for ease of setup. Follow these steps for initial preparation:

1. **Unpacking:** Carefully remove the rotary iron from its packaging. Retain all packaging materials for future transport or storage.
2. **Positioning:** Place the iron on a stable, level surface. Ensure there is sufficient space around the unit for comfortable operation and for the textiles to pass through. The iron can be used in a seated or standing position.
3. **Power Connection:** Plug the power cord into a suitable grounded electrical outlet.

---

### 4. OPERATING THE MIELE B990E ROTARY IRON

---

#### 4.1 Controls Overview

The Miele B990E features intuitive controls for easy operation:

Figure 3: Temperature control dial with fabric settings.

- **Temperature Control Dial:** This dial allows you to select the appropriate heat setting for different fabric types. Settings typically include Linen/Cotton, Wool/Silk, and Easy-Care/Synthetics.
- **Roller Engagement Lever:** Engages the heated roller to press the fabric.
- **Foot Pedal:** Used to control the speed of the roller and to engage/disengage the pressing action.

## 4.2 Ironing Process

Follow these steps for effective ironing with your rotary iron:

1. **Preparation:** Ensure the fabric is clean and slightly damp for best results. Sort items by fabric type to match the temperature settings.
2. **Power On and Heat Up:** Turn the iron on and select the desired temperature setting using the control dial. Allow the iron to preheat for a few minutes until the indicator light signals it's ready.
3. **Feeding Fabric:** Position the fabric smoothly onto the feed board, guiding it towards the roller.
4. **Engage Roller:** Gently press the foot pedal to engage the roller. The fabric will be drawn between the heated roller and the pressing shoe.
5. **Guiding Fabric:** Use both hands to guide the fabric evenly through the roller. For larger items like sheets or tablecloths, fold them lengthwise to manage the width.
6. **Completion:** Once the item has passed through, release the foot pedal. Allow the ironed item to cool before folding or hanging.

Figure 4: User demonstrating the feeding of fabric into the rotary iron.

Figure 5: Detail of hands guiding fabric for optimal ironing.

#### Tips for Best Results:

- For heavily wrinkled items, a light mist of water can aid in smoothing.
- Always check fabric care labels before ironing.
- The non-stick surface of the roller ensures smooth gliding and prevents fabric from sticking.

---

## 5. CARE AND MAINTENANCE

---

Proper care and maintenance will extend the life of your Miele B990E Rotary Iron:

- **Cleaning:** Ensure the iron is unplugged and completely cool before cleaning. Wipe the exterior surfaces with a

soft, damp cloth. For the roller, use a clean, dry cloth. Do not use abrasive cleaners or solvents.

- Storage:** The Miele B990E features a convenient folding mechanism for space-saving storage. When folded, the rotary iron occupies approximately 2 sq. ft. of space. It is equipped with four stable casters for easy transport.

## Space-Saving Storage

The convenient folding mechanism provides an efficient, space-saving storage. When folded, the rotary iron only takes up 2 sq. ft. of space and is easy to transport, thanks to the four stable casters.

Figure 6: The rotary iron folded for compact storage.

## 6. TROUBLESHOOTING GUIDE

Refer to the table below for common issues and their solutions:

Problem	Possible Cause	Solution
Iron does not heat up.	Not plugged in; power switch off; faulty outlet.	Check power cord connection; ensure power switch is on; test outlet with another appliance.
Roller not moving.	Foot pedal not pressed; fabric jammed.	Ensure foot pedal is fully depressed; check for any obstructions around the roller.
Fabric sticking to roller.	Temperature too high for fabric type; roller needs cleaning.	Adjust temperature setting; clean the roller surface as per maintenance instructions.
Poor ironing results.	Incorrect temperature setting; fabric too dry.	Select appropriate temperature; lightly dampen fabric before ironing.

## 7. TECHNICAL SPECIFICATIONS

Specification	Detail
Model	B990E
Brand	Miele
Item Weight	38 Kilograms
Number of Pieces	1
Batteries Required	No
ASIN	B004YBJ6U6
Date First Available	Nov. 13 2012
Manufacturer	Miele
Place of Business	Costa Mesa, CA 92627, US

## 8. WARRANTY AND CUSTOMER SUPPORT

### Warranty Information:

The Miele B990E Rotary Iron comes with a **1-year parts and labor guarantee** from the date of purchase. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for warranty claims.

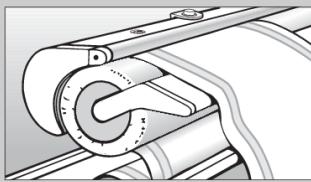

### Customer Support:

For technical assistance, service, or warranty inquiries, please contact Miele customer support. Refer to the official Miele website or your purchase documentation for the most current contact information, including phone numbers and service center locations.

When contacting support, please have your model number (B990E) and purchase date readily available.
