AquaTeak Original - With Shelf

AquaTeak Kai Corner 15.5" Teak Shower Bench Instruction Manual

Model: Original - With Shelf

Introduction

Thank you for choosing the AquaTeak Kai Corner 15.5" Teak Shower Bench. This product is crafted from sustainably harvested, premium Indonesian teak wood, designed for durability and functionality in wet environments. This manual provides essential information for assembly, safe use, maintenance, and troubleshooting to ensure long-lasting performance and satisfaction.

Safety Information

- **Maximum Weight Capacity:** This shower bench is designed to support a maximum weight of 500 pounds (226 kg). Do not exceed this limit.
- **Stable Placement:** Always ensure the bench is placed on a flat, stable surface. Utilize the adjustable non-slip rubber feet to compensate for uneven floors and prevent wobbling.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight. Loose components can compromise stability and safety.
- **Avoid Standing:** This product is designed for seating and storage. Do not stand on the bench.
- **Children and Elderly:** Supervise children when near the bench. Ensure elderly or individuals with mobility issues use the bench safely, potentially with assistance.
- **Cleaning Products:** Avoid harsh abrasive cleaners that may damage the teak wood finish. Refer to the Maintenance section for proper cleaning.

Setup Instructions

Your AquaTeak Kai Corner Shower Bench requires minor assembly. All necessary hardware is included and pre-attached to the components for convenience. A wrench is provided.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all pieces are present and undamaged.
2. **Identify Parts:** The bench consists of a top seat, a bottom shelf, and four legs. Note that the legs are designed

specifically for left and right sides; refer to the included diagram for correct orientation.

3. **Attach Legs to Bottom Shelf:** Loosely attach the legs to the bottom shelf using the pre-attached screws. Do not tighten fully at this stage.
4. **Attach Top Seat:** Align the top seat with the legs. Insert and loosely secure the screws connecting the top seat to the legs.
5. **Tighten All Screws:** Once all components are loosely assembled, gradually tighten all screws until secure. Ensure the bench is stable and all connections are firm.
6. **Adjust Feet:** Place the bench in its desired location. Adjust the non-slip rubber feet by rotating them to level the bench and eliminate any wobbling on uneven surfaces.

Operating Instructions

The AquaTeak Kai Corner Shower Bench is designed for versatile use within your shower or bathroom space.

- **Seating:** Use the top surface as a comfortable seat during showering. The smooth, contoured surface provides a stable resting place.
- **Foot Rest:** The bench can serve as a footrest for shaving or other personal care routines.
- **Storage:** The integrated bottom shelf provides convenient storage for shower essentials such as soaps,

shampoos, and razors, keeping them organized and easily accessible.

Maintenance

Teak wood is naturally resistant to water and humidity, but proper care will extend the life and beauty of your shower bench.

- **Daily Care:** After each use, wipe down the bench with a soft cloth to remove excess water and soap residue. This helps prevent water spots and mildew buildup.
- **Cleaning:** For general cleaning, use a mild soap solution and a soft brush or cloth. Rinse thoroughly with water and dry completely. Avoid harsh chemicals or abrasive scrubbers.
- **Teak Oil Application:** To maintain the rich golden-brown color of the teak, you may apply a high-quality teak oil periodically (every 6-12 months, or as needed). Follow the instructions on the teak oil product. This is optional; untreated teak will naturally weather to a soft, silvery-gray patina over time.
- **Ventilation:** Ensure adequate ventilation in your bathroom to help the wood dry between uses.

Troubleshooting

- **Bench is Wobbly:**
  Solution: Adjust the non-slip rubber feet located at the bottom of each leg. Rotate them clockwise or counter-clockwise until the bench is stable on your shower floor. Ensure all assembly screws are tightened securely.
- **Water Spots or Discoloration:**
  Solution: This is common with natural wood in wet environments. Regularly wipe the bench dry after each use. For existing spots, clean with a mild soap solution and a soft brush. For more stubborn discoloration, consider using a teak cleaner and brightener, followed by teak oil, as per product instructions.
- **Difficulty Assembling:**
  Solution: Ensure all screws are only loosely attached during the initial steps of assembly. This allows for flexibility to align all parts correctly before final tightening. Refer to the assembly diagram for correct leg orientation.
