## HQRP HQRP 10-Pack Lithium Battery

# HQRP 3V Lithium Coin Cell Battery 10-Pack User Manual

Model: HQRP 10-Pack Lithium Battery

## 1. INTRODUCTION

---

This manual provides essential information for the safe and effective use of HQRP 3V Lithium Coin Cell Batteries. These batteries are designed to provide reliable power for various small electronic devices, including compatible Omron Pedometers such as the HJ-150, HJ-151, HJ-112, HJ-113, HJ-203BL, and HJ-203PK. Please read this manual thoroughly before use.

## 2. SAFETY INFORMATION AND WARNINGS

**WARNING:** This product contains a button cell or coin battery. A swallowed button cell or coin battery can cause internal chemical burns in as little as 2 hours and lead to death. Keep new and used batteries out of reach of children. Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.

- Do not recharge, disassemble, heat, or dispose of in fire.
- Do not short-circuit the battery.
- Store batteries in their original packaging until ready for use.
- Dispose of used batteries promptly and responsibly according to local regulations.
- If battery fluid leaks and comes into contact with skin or eyes, rinse immediately with plenty of water and seek medical advice.

### 3. SETUP AND INSTALLATION

These batteries are intended for use in devices that require 3V lithium coin cells, such as pedometers, calculators, watches, and other small electronics. Always refer to your device's specific user manual for battery replacement instructions.

1. **Identify Battery Type:** Confirm that your device requires a CR2032 3V lithium coin cell battery.
2. **Open Battery Compartment:** Locate the battery compartment on your device. This often requires a small screwdriver or a coin to open.

3. **Remove Old Battery:** Carefully remove the old battery, noting its orientation (positive (+) and negative (-) terminals).
4. **Insert New Battery:** Insert the new HQRP 3V Lithium Coin Cell Battery with the positive (+) side facing up, matching the orientation of the old battery. Ensure it is seated correctly.
5. **Close Compartment:** Securely close the battery compartment.
6. **Test Device:** Power on your device to confirm proper installation and functionality.

## 4. OPERATING INSTRUCTIONS

Once correctly installed, the HQRP 3V Lithium Coin Cell Battery will provide power to your compatible electronic device. These are single-use batteries and are not rechargeable. The operational life of the battery will depend on the power consumption of the device it is installed in.

These batteries are compatible with a wide range of devices, including:

- Omron Pedometers (HJ-150, HJ-151, HJ-112, HJ-113, HJ-203BL, HJ-203PK)
- Calculators
- Watches
- Hearing Aids
- Small electronic toys
- Remote controls
- Other devices requiring CR2032 batteries

# Wide range of applications

Image 4.1: Examples of devices that commonly use coin cell batteries, such as pedometers, calculators, and watches.

## 5. MAINTENANCE AND STORAGE

Proper maintenance and storage ensure the longevity and safety of your batteries.

- **Storage:** Store unused batteries in their original packaging in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Avoid touching the battery terminals with bare hands, as oils and dirt can affect performance.
- **Disposal:** Do not dispose of batteries in household waste. Consult your local waste management facility for proper recycling or disposal options for lithium batteries.
- **Keep Dry:** Ensure batteries do not come into contact with water or other liquids.

## 6. TROUBLESHOOTING

If your device does not power on or function correctly after replacing the battery, consider the following:

- **Battery Orientation:** Double-check that the battery is inserted with the correct polarity (positive (+) and negative (-) terminals).
- **Secure Connection:** Ensure the battery is seated firmly in its compartment and making proper

contact with the terminals.

- **Device Compatibility:** Verify that your device specifically requires a CR2032 3V lithium coin cell battery.
- **Device Issue:** If the problem persists, the issue might be with the device itself, not the battery. Refer to your device's manual or contact its manufacturer for further assistance.
- **New Battery:** Although rare, a new battery could be faulty. Try another battery from the pack if available.

## 7. SPECIFICATIONS

Feature	Specification
Battery Type	Lithium Coin Cell
Model Number (Equivalent)	CR2032
Voltage	3 Volts
Reusability	Single Use (Non-rechargeable)
Unit Count	10 Batteries per pack
Item Weight (approx.)	0.01 ounces per battery
Manufacturer	HQRP
UPC	884667719747

## 8. WARRANTY INFORMATION

HQRP provides a **60-day warranty** for these batteries from the date of purchase. This warranty covers manufacturing defects. It does not cover damage resulting from misuse, improper installation, or normal wear and tear. For warranty claims, please contact your retailer or HQRP customer service with your proof of purchase.

## 9. CUSTOMER SUPPORT

For further assistance or inquiries regarding HQRP products, please refer to the contact information provided by your retailer or visit the official HQRP website. When contacting support, please have your product details and purchase information available.
