Oreck ORB700MB

Oreck Orbiter ORB700MB All-In-One Hard Floor Cleaner Machine User Manual

Model: ORB700MB

Brand: Oreck

1. INTRODUCTION

This manual provides essential instructions for the safe and effective operation, maintenance, and troubleshooting of your Oreck Orbiter ORB700MB All-In-One Hard Floor Cleaner Machine. The Oreck Orbiter is designed for versatile floor care, including sanding, refinishing, stripping, scrubbing, waxing, polishing, and deep cleaning carpets. Please read this manual thoroughly before initial use and retain it for future reference.

2. SAFETY INFORMATION

Always observe basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury. This appliance is for household use only.

- **Electrical Safety:** Do not operate the machine with a damaged cord or plug. Ensure the power outlet matches the machine's voltage. Do not pull or carry by the cord, use the cord as a handle, close a door on the cord, or pull the cord around sharp edges or corners. Keep the cord away from heated surfaces.
- **Operation Safety:** Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts. Do not use on wet surfaces if the machine is not designed for wet operation. Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- **Chemical Safety:** Use only cleaning solutions recommended for floor machines. Follow all instructions on cleaning solution labels. Avoid contact with eyes and skin. Ensure adequate ventilation when using cleaning chemicals.
- **General Precautions:** Do not allow the machine to be used as a toy. Close attention is necessary when used by or near children. Unplug from outlet when not in use and before servicing.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. PACKAGE CONTENTS

The Oreck Orbiter ORB700MB package typically includes the following components:

- Oreck Orbiter ORB700MB Floor Machine Unit
- Handle Assembly
- Power Cord (integrated)
- Initial Pad (e.g., white buffer pad) - *Additional pads for various tasks are sold separately.*
- User Manual (this document)

4. SETUP

The Oreck Orbiter ORB700MB requires some assembly before first use. Follow these steps to prepare your machine:

1. **Unpack Components:** Carefully remove all parts from the packaging. Inspect for any damage.
2. **Attach Handle:** Insert the handle assembly into the main unit's designated slot. Ensure it clicks securely into place or is fastened according to the specific model's design (e.g., tightening screws).
3. **Wrap Power Cord:** Secure the 30-ft power cord around the cord hooks on the handle for organized storage and easy access during operation.
4. **Attach Cleaning Pad:** Select the appropriate cleaning pad for your task. Position the pad centrally on the machine's base. The Orbiter's random orbital design allows for easy pad attachment and removal.

Figure 2: Side view of the Oreck Orbiter ORB700MB, illustrating the handle and cord management.

5. OPERATING INSTRUCTIONS

The Oreck Orbiter's random orbital pattern provides fingertip control, making it easy to maneuver and preventing brush marks or swirls on your floors.

5.1 General Operation

1. **Prepare Area:** Clear the floor of any loose debris or obstacles.
2. **Plug In:** Connect the power cord to a suitable electrical outlet.
3. **Start Machine:** Tilt the handle slightly to engage the motor and start the orbital motion. The machine will float over the floor with minimal effort.
4. **Guide Machine:** Gently guide the machine over the desired area. Avoid forcing or pushing the machine, as its weight and orbital action are designed to do the work.
5. **Stop Machine:** Return the handle to an upright position to disengage the motor. Unplug the machine after use.

5.2 Specific Applications

- **Hard Floor Cleaning (Scrubbing, Polishing, Waxing):**

Attach the appropriate pad (e.g., scrubbing pad for deep cleaning, polishing pad for shine). Apply the recommended cleaning solution or wax directly to the floor or pad as per product instructions. Guide the Orbiter over the surface in overlapping passes.

- **Carpet Cleaning:**

Use a carpet bonnet or brush designed for carpet cleaning. Apply a carpet cleaning solution according to the solution manufacturer's instructions. Guide the Orbiter over the carpet, allowing the orbital action to work the solution into the fibers and lift dirt.

- **Sanding/Refinishing:**

Attach a sanding screen or appropriate abrasive pad. Ensure the floor is clean and dry. Follow specific instructions for sanding and refinishing products. The Orbiter's random orbital motion helps prevent swirl marks.

Figure 3: The Oreck Orbiter ORB700MB in use on carpet.

Figure 4: The Oreck Orbiter ORB700MB in use on a hard floor.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your Oreck Orbiter.

- **After Each Use:**

Unplug the machine. Remove and clean the used pad. Wipe down the machine's base and exterior with a damp cloth to remove any residue.

- **Pad Care:**

Wash reusable pads according to their specific care instructions. Replace worn or damaged pads to maintain effective cleaning.

- **Cord Storage:**

Wrap the power cord neatly around the cord hooks to prevent tangling and damage.

- **General Storage:**

Store the Orbiter in a dry, safe place, away from extreme temperatures and out of reach of children.

7. TROUBLESHOOTING

Refer to the following table for common issues and their potential solutions.

Problem	Possible Cause	Solution
Machine does not start	Not plugged in; power outlet issue; handle not tilted	Ensure power cord is securely plugged in. Check power outlet. Tilt handle to engage motor.

Problem	Possible Cause	Solution
Poor cleaning results	Incorrect pad for task; worn pad; insufficient cleaning solution	Verify correct pad is used. Replace worn pads. Apply appropriate amount of cleaning solution.
Machine difficult to maneuver	Incorrect pad; excessive pressure; uneven surface	Ensure correct pad. Allow machine to float; avoid forcing. Use on relatively even surfaces.

If the problem persists after attempting these solutions, please contact Oreck customer support.

8. SPECIFICATIONS

Key specifications for the Oreck Orbiter ORB700MB:

- Model Number:** ORB700MB
- Product Dimensions:** 15 x 10.5 x 9 inches
- Item Weight:** 22.2 pounds
- Manufacturer:** Oreck
- Assembly Required:** Yes
- Power Cord Length:** Approximately 30 feet
- Specific Uses:** Floors, Floor Machine, Tile, Floor, Grout
- Surface Recommendation:** Hardwood floor, Carpet

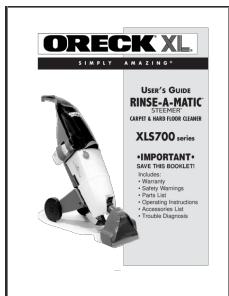

9. WARRANTY AND SUPPORT

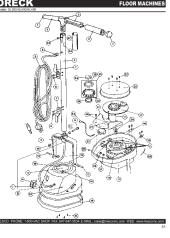

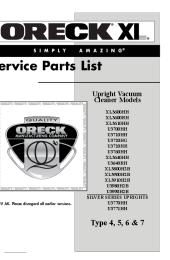

The Oreck Orbiter ORB700MB comes with a **10-year warranty**. For warranty claims, technical assistance, or to purchase accessories and replacement parts, please contact Oreck customer support.
