Moen CA87480SRS

Moen CA87480SRS Torrance Kitchen Faucet with Side Spray

Instruction Manual

INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your Moen CA87480SRS Torrance Collection kitchen faucet with side spray. This faucet features a Spot Resist Stainless finish designed to resist fingerprints and water spots, a Duralock quick connect system for simplified installation, and a single-handle lever for easy water adjustment. Please read these instructions carefully before beginning installation or operation.

SETUP AND INSTALLATION

Before installation, ensure all necessary components are present and that you have the required tools. The Moen CA87480SRS faucet is designed for either 2-hole or 4-hole installations and features the Duralock quick connect system for easier setup.

Pre-Installation Checks:

- Turn off the main water supply to the kitchen area.
- Clear the area under the sink for easy access.
- Review the included installation guide for detailed, step-by-step instructions specific to your faucet model.

Key Installation Features:

- **Duralock Quick Connect System:** This system simplifies connecting water lines to the faucet, often requiring a simple push and click mechanism.
- **Mounting:** Designed for undermount installation.
- **Hole Count:** Compatible with 2-hole or 4-hole sink configurations. An optional deck plate is included for 4-hole installations.

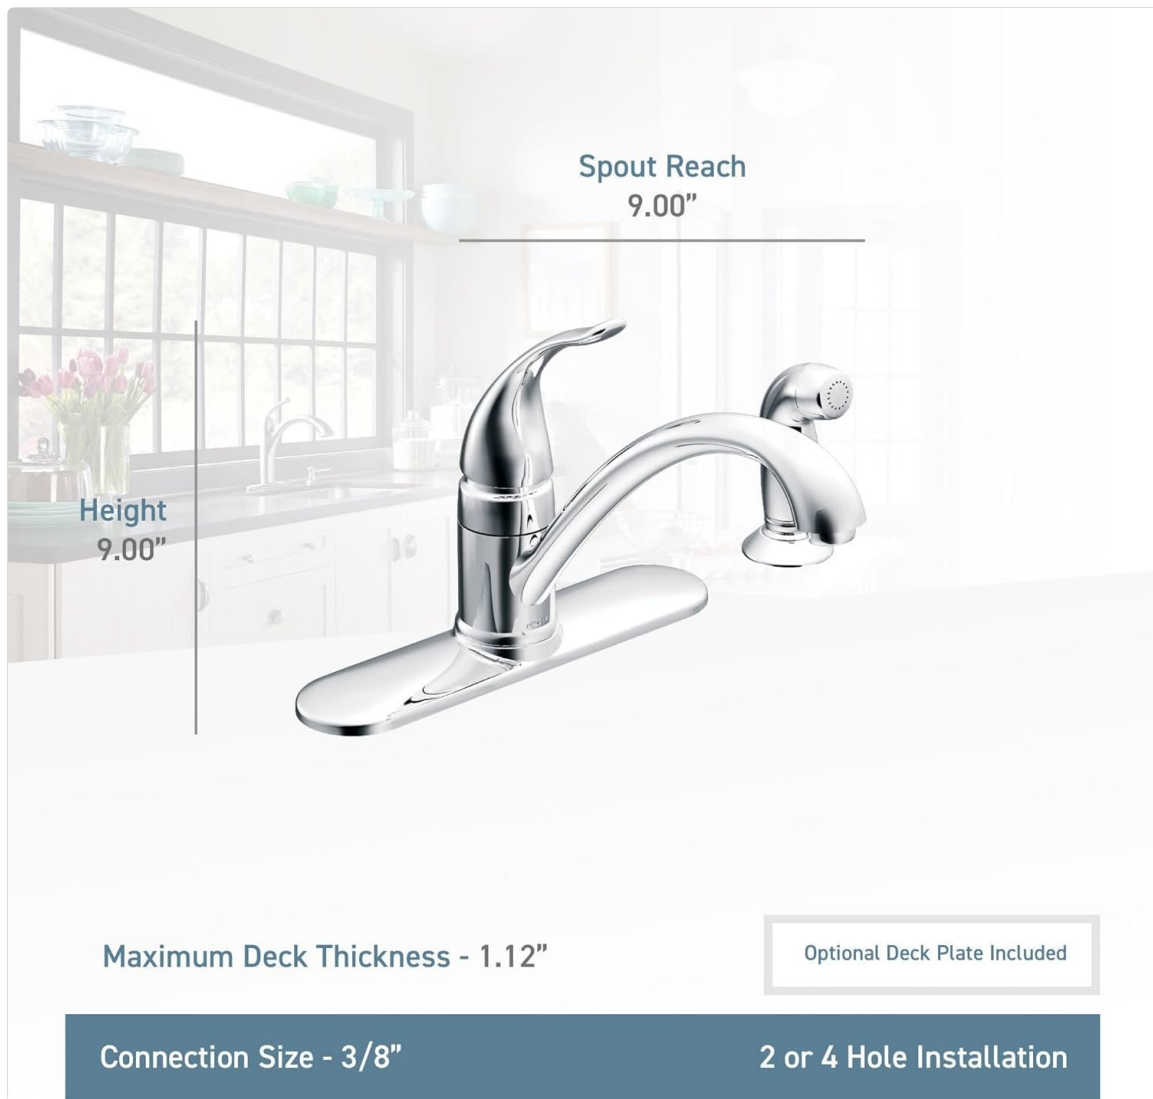

Image: Moen CA87480SRS Faucet Dimensions. This diagram illustrates key dimensions such as 9.00" spout reach and 9.00" height, maximum deck thickness of 1.12", 3/8" connection size, and notes 2 or 4 hole installation compatibility with an optional deck plate.

OPERATING INSTRUCTIONS

The Moen CA87480SRS kitchen faucet is designed for straightforward operation with its single-handle lever and integrated side spray.

Water Flow and Temperature Control:

- **Turning On/Off:** Lift the single lever handle to turn on the water flow. Push it down to turn off the water.
- **Adjusting Temperature:** Move the lever handle to the left for hot water and to the right for cold water. The further you move it, the hotter or colder the water will be.
- **Adjusting Flow:** The height to which you lift the lever controls the water flow rate.

Using the Side Spray:

The included side spray provides additional convenience for rinsing dishes or cleaning the sink area.

- Ensure the main faucet is turned on.
- Press the button or lever on the side spray head to activate the spray. Water will divert from the main

spout to the side spray.

- Release the button or lever to return water flow to the main spout.

CARE AND MAINTENANCE

Proper care will ensure the longevity and appearance of your Moen CA87480SRS faucet, especially its Spot Resist Stainless finish.

Cleaning the Spot Resist Stainless Finish:

- The Spot Resist Stainless finish is designed to minimize fingerprints and water spots.
- To clean, use a soft, damp cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- Wipe the faucet dry after cleaning to maintain its luster.

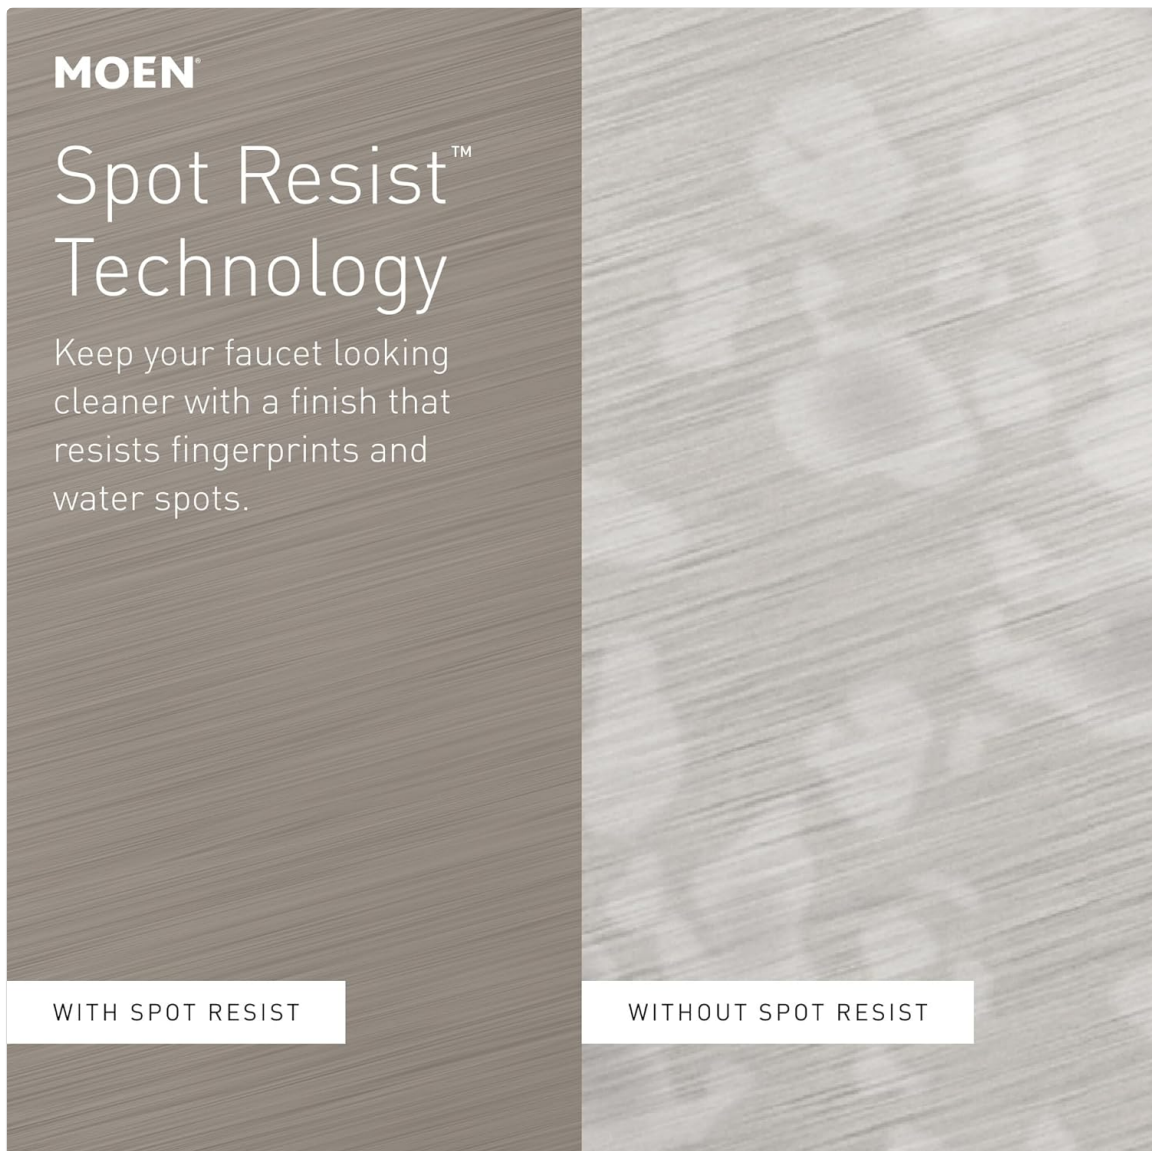

Image: Moen Spot Resist Technology. This image visually demonstrates the effectiveness of the Spot Resist finish by comparing a surface with the technology to one without, highlighting the reduction in visible fingerprints and water spots.

General Maintenance Tips:

- Regularly check for leaks around the base of the faucet and connections.

- Clean the aerator (at the tip of the spout) periodically to remove mineral buildup, which can affect water flow. Unscrew the aerator, rinse it, and reattach.

TROUBLESHOOTING

This section addresses common issues you might encounter with your kitchen faucet. For more complex problems, contact Moen customer support.

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator; partially closed shut-off valves; kinked supply lines.	Clean the aerator. Ensure shut-off valves are fully open. Check supply lines for obstructions.
Leaking from Spout	Worn cartridge; mineral buildup.	Contact Moen support for cartridge replacement or service.
Leaking at Faucet Base	Loose mounting nuts; worn O-rings.	Tighten mounting nuts under the sink. Inspect and replace O-rings if necessary (consult Moen support).
Side Spray Not Working	Clogged spray head; diverter issue.	Clean the spray head nozzles. Ensure main faucet is on. If issue persists, contact Moen support.

SPECIFICATIONS

Detailed technical specifications for the Moen CA87480SRS Kitchen Faucet.

Brand	Moen
Model Number	CA87480SRS
Collection	Torrance Collection
