Operating and Conversion

The Brody crib is a 5-in-1 convertible system, designed to adapt as your child grows. It transitions from a crib to a toddler bed, a full-size daybed, and a full-size bed with or without a footboard. Conversion kits for the toddler and full-size beds are sold separately.

Crib Mode

In crib mode, ensure the mattress is at an appropriate height for your child's developmental stage. The attached changing table provides a convenient space for diaper changes and includes three drawers for storage.

Toddler Bed Conversion

To convert the crib to a toddler bed, remove the front rail and install the toddler guard rail (sold separately). Refer to the specific instructions included with the toddler bed conversion kit.
