Air Wick Plug-in Scented Oil Refill Instruction Manual

Model: B0051QFQB6

INTRODUCTION

The Air Wick Plug-in Scented Oil Refills provide continuous and long-lasting fragrance for your home. This product is designed for use with Air Wick scented oil plug-in warmers to enhance the atmosphere in various living spaces.

This manual provides essential information on the proper setup, operation, and maintenance of your Air Wick Plug-in Scented Oil Refills to ensure optimal performance and safety.

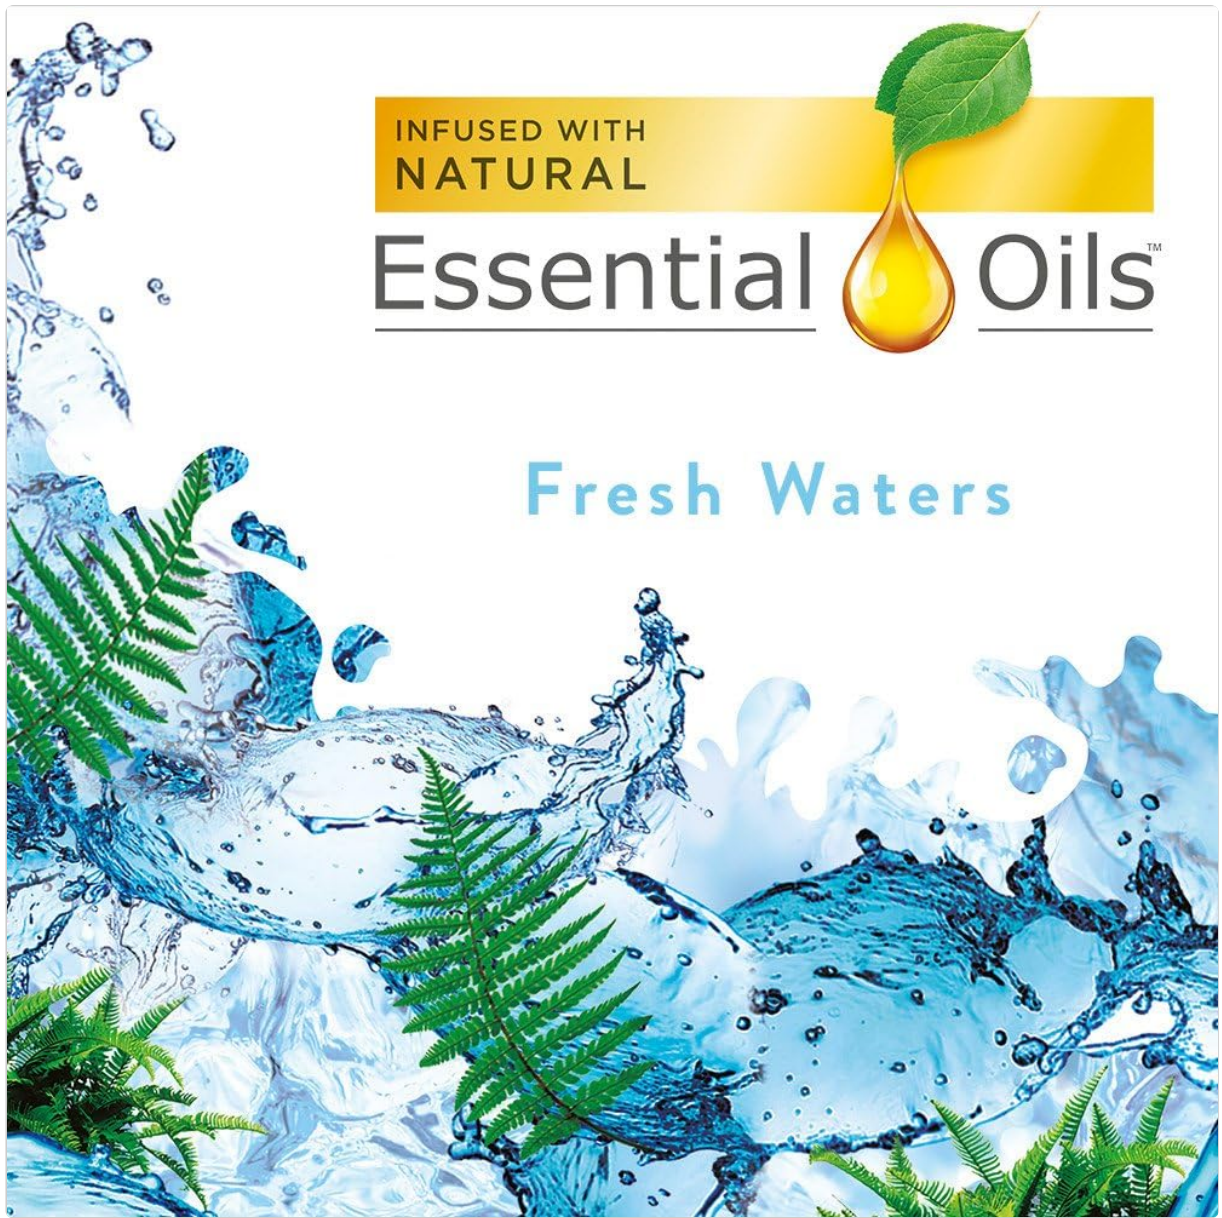

Image: Air Wick Plug-in Scented Oil Refill, Fresh Waters scent, infused with natural essential oils.

The Fresh Waters scent is part of the Air Wick Everyday Fragrance Collection, offering a refreshing aroma.

These refills are ideal for use in bedrooms, bathrooms, living rooms, hallways, kitchens, and office spaces.

SETUP INSTRUCTIONS

Follow these steps to properly set up your Air Wick Plug-in Scented Oil Refill with a compatible Air Wick warmer unit.

1. **Unscrew the Cap:** Carefully unscrew the cap from each fragrance bottle.
2. **Insert Fragrance Bottle:** Insert the fragrance bottle into the diffuser by pushing the bottle up into the bottom of the warmer device until a 'click' can be heard. Ensure it is securely seated.
3. **Plug into Outlet:** Plug the warmer unit upright into a properly functioning 120-volt electrical outlet. The unit will not operate properly and may leak if plugged in sideways or upside down. When unplugged, always keep the unit upright.
4. **Remove Fragrance Bottle:** To remove a fragrance bottle, unplug the diffuser from the electrical outlet and firmly pull the bottle downwards from the unit.

OPERATING INSTRUCTIONS

Once the refill is installed and the warmer is plugged in, you can adjust the fragrance intensity.

1. **Adjust Fragrance Intensity:** To adjust the fragrance intensity, rotate the dial located on the top of the warmer unit. Most warmers offer multiple settings (e.g., 5X) to control the scent level.

AIR WICK® SCENTED OIL WARMER VOTED
#1 PRODUCT OF THE YEAR*

MAKE IT YOUR CHOICE TOO!

The Air Wick Plug-in Scented Oil Refills are designed to provide continuous fragrance for an extended period. Each refill can last up to 45 days, depending on the fragrance intensity setting and environmental conditions.

Image: Icon indicating that the fragrance lasts up to 45 days.

Important: This unit will not operate properly unless used with genuine Air Wick Scented Oil Refills. It is intended for use in large living spaces.

MAINTENANCE

Regular cleaning and timely replacement of refills ensure optimal performance of your Air Wick warmer.

- **Cleaning the Warmer Unit:** Fragrance oil may collect on the warmer unit over time. To clean the warmer unit, first remove it from the electrical outlet. Then, wipe the unit with a dry cloth. Do not use water or cleaning solutions.
- **Replacing Fragrance Bottles:** Replace the fragrance bottle when it is empty. To do this, unplug the warmer unit and gently pull the empty bottle downwards from the unit. Insert a new Air Wick Scented Oil Refill following the setup instructions.

TROUBLESHOOTING

If your Air Wick Plug-in Scented Oil Warmer is not functioning as expected, consider the following:

- **No Fragrance or Leakage:** Ensure the unit is plugged in upright. The unit will not operate properly and

may leak if plugged in sideways or upside down.

- **Unit Not Operating:** Verify that you are using genuine Air Wick Scented Oil Refills. The unit is designed to work exclusively with these refills.
- **Weak Scent:** Check the fragrance intensity dial on top of the warmer unit and adjust it to a higher setting if desired.
