1. INTRODUCTION

These replacement microfiber mop pads are designed for use with Steamfast Multi-Purpose Steam Mop models SF-292 and SF-294. They are engineered for durability and effective cleaning, trapping dust and dirt as steam lifts it from surfaces without causing scratches. This manual provides instructions for their proper use and care.

2. SETUP: ATTACHING THE MOP PAD

To attach a replacement microfiber mop pad to your Steamfast Multi-Purpose Steam Mop (SF-292 or SF-294), follow these steps:

1. Ensure your steam mop is unplugged and cool before handling.
2. Align the microfiber mop pad with the base of the steam mop head.
3. Press the pad firmly onto the mop head. The built-in Easy-Stick hook and loop style fasteners will secure the pad in place.
4. Verify that the pad is securely attached and covers the entire mop head surface before operating the steam mop.

3. OPERATING INSTRUCTIONS

Once the microfiber mop pad is securely attached to your Steamfast steam mop, you can proceed with your cleaning tasks. The microfiber material is designed to effectively capture dirt and debris as the steam cleans the surface.

- Always follow the operating instructions provided with your specific Steamfast SF-292 or SF-294 steam mop model.
- Move the steam mop slowly and steadily over the surface to allow the steam and microfiber pad to effectively clean and absorb dirt.
- Replace the mop pad when it becomes saturated with dirt to maintain optimal cleaning performance.

4. MAINTENANCE AND CARE

Proper care of your microfiber mop pads will extend their lifespan and maintain cleaning effectiveness.

- **Washing:** The pads are machine washable. Wash them with similar colors in warm water. Do not use bleach or fabric softeners, as these can degrade the microfiber material and reduce its effectiveness.
- **Drying:** Air dry the pads or tumble dry on a low heat setting. High heat can damage the microfiber fibers and the hook and loop fasteners.
- **Storage:** Store clean, dry pads in a clean, dry place until their next use.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mop pad detaches during use.	Pad not securely attached; hook and loop fasteners worn.	Ensure pad is firmly pressed onto the mop head. If fasteners are worn, replace the pad.
Pad not cleaning effectively.	Pad is saturated with dirt; pad is old or damaged.	Replace with a clean pad. If pads are consistently ineffective after washing, they may need replacement.

6. PRODUCT SPECIFICATIONS

- **Model Number:** A294-100
- **Compatibility:** Steamfast Multi-Purpose Steam Mop SF-292, SF-294
- **Material:** Microfiber
- **Unit Count:** 2 pads per pack
- **Item Weight:** Approximately 4.8 ounces (total for 2 pads)
