Mack's 9250

Mack's Ultra Soft Foam Earplugs Instruction Manual

Model: 9250

PRODUCT OVERVIEW

Mack's Ultra Soft Foam Earplugs are designed to provide superior comfort and effective noise reduction. Molded with super low-pressure, tapered foam, they offer an unmatched comfortable fit. With a high Noise Reduction Rating (NRR) of 33 decibels, these earplugs are suitable for various environments, from mildly noisy to hazardous noise levels, ensuring high-performance hearing protection.

These earplugs are ideal for activities such as sleeping, studying, working, traveling, attending concerts, motor sports, shooting sports, and using power tools.

Key Features:

- **Ultra Comfortable:** Made with super low-pressure, slow-release Comfy Cush Comfort Foam for a comfortable fit.
- **Ultra Noise Blockers:** Features a Noise Reduction Rating (NRR) of 33 decibels, effective for various loud environments.
- **Doctor Recommended:** Mack's is the #1 doctor recommended brand of foam earplugs for hearing protection and sleep.
- **Made in the USA:** Proudly manufactured in the USA using safe, high-performance, noise-reducing foam.

Safety Information

WARNING: Improper fitting will reduce effectiveness and could result in hearing loss or injury. Keep earplugs away from children. Earplugs are not toys and can pose a choking hazard.

SETUP AND PREPARATION

Before using your Mack's Ultra Soft Foam Earplugs, ensure your hands are clean to maintain hygiene and prevent ear infections.

OPERATING INSTRUCTIONS (How to Use)

Follow these steps for proper insertion and removal of your Mack's Ultra Soft Foam Earplugs to ensure maximum effectiveness and comfort:

1. **Roll Plug:** With clean hands, roll the earplug into a tight, crease-free cylinder.
2. **Straighten Ear Canal:** With your opposite hand, reach over your head and pull up and back on your outer ear to straighten the ear canal.
3. **Insert Earplug:** Quickly insert the compressed earplug well into your ear canal.

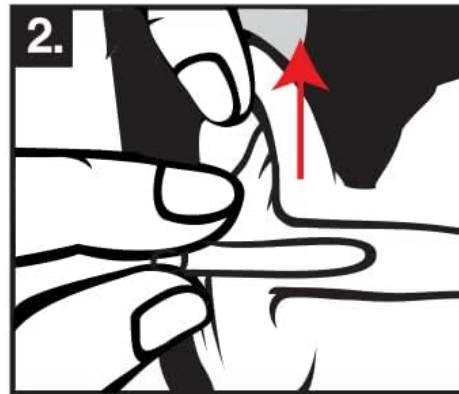

4. **Hold in Place:** Hold the earplug in place until it expands for a comfortable, secure fit.
5. **Removal:** To remove, simply twist and pull the earplug out of your ear gently.

HOW TO USE MACK'S® FOAM EARPLUGS

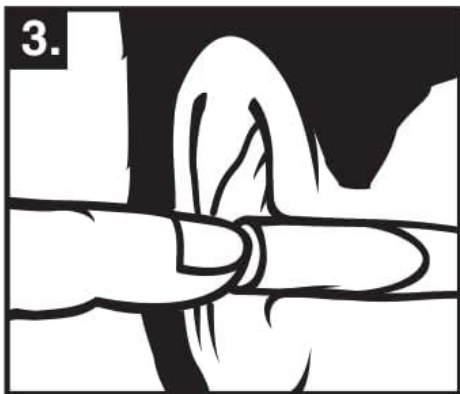

With clean hands, roll plug into a tight, crease-free cylinder.

PROPER FIT ↓

With opposite hand, reach over head and pull up and back on outer ear to straighten ear canal.

Quickly insert earplug well into ear canal and hold in place until it expands for a comfortable, secure fit.

⚠ WARNING: Improper fitting will reduce effectiveness, which could result in hearing loss or injury.

MAINTENANCE AND CARE

Mack's Ultra Soft Foam Earplugs are designed for single or limited use depending on hygiene and condition. For optimal performance and hygiene:

- Inspect earplugs before each use for dirt, damage, or hardening. Discard if compromised.
- Do not wash or attempt to clean foam earplugs, as this can alter their acoustic properties and comfort.
- Store earplugs in their original container or a clean, dry case when not in use to protect them from dust and debris.

TROUBLESHOOTING

If you experience issues with your earplugs, consider the following common troubleshooting tips:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Earplugs do not block enough noise.	Improper insertion or incorrect size.	Ensure earplugs are rolled tightly and inserted deeply into the ear canal as per operating instructions. Pulling the outer ear up and back helps straighten the canal for better insertion.
Earplugs feel uncomfortable or cause pain.	Not inserted correctly or ear canal sensitivity.	Re-insert the earplug carefully, ensuring it expands gently. If discomfort persists, you may have sensitive ear canals; consider consulting a healthcare professional.
Earplugs fall out easily.	Insufficient expansion or improper fit.	Hold the earplug in place longer after insertion to allow full expansion. Ensure the ear canal is straightened during insertion.

SPECIFICATIONS

- **Model Number:** 9250
- **Noise Reduction Rating (NRR):** 33 dB
- **Material:** Polyurethane Foam
- **Color:** Beige
- **Product Dimensions:** 4.25 x 2.52 x 2.52 inches (packaging); 0.92 inch Length, 0.485 inch diameter at base, 0.40 inch diameter near tip (actual earplugs)
- **Item Weight:** 1.59 ounces
- **Manufacturer:** McKeon Products
- **Date First Available:** October 21, 2011
