Home Basics SC10120

Home Basics 4 Tier Corner Shower Shelf

Model: SC10120

Brand: Home Basics

INTRODUCTION

This instruction manual provides detailed information for the proper assembly, installation, and maintenance of your Home Basics 4 Tier Corner Shower Shelf. Please read this manual thoroughly before beginning installation to ensure safe and correct usage. Keep this manual for future reference.

SAFETY INFORMATION

- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Install the shower caddy in a stable corner. Ensure the tension pole is securely fixed between the floor and ceiling or tub and ceiling.
- Do not overload the shelves. Distribute weight evenly to prevent tipping or collapse.
- Keep small children away from the product during assembly and ensure it is securely installed before use.
- Regularly check the tension pole for stability and tighten if necessary.
- Avoid using abrasive cleaners or scouring pads, as these can damage the chrome finish.

PARTS LIST

Before you begin, verify that all components are included in your package:

1. Tension Pole Sections (typically 3-4 sections, including spring-loaded top section)
2. 4 x Corner Shelves
3. Rubber Rings/Washers (for shelf height adjustment)
4. End Caps/Feet (for top and bottom of pole)

SETUP AND ASSEMBLY

Follow these steps to assemble and install your shower caddy:

1. **Determine Height:** Measure the height of your shower or bathtub area where the caddy will be installed. The pole is adjustable from approximately 43 inches (109.22 cm) to 94 inches (238.76 cm).
2. **Assemble Pole Sections:** Connect the pole sections by screwing them together. Ensure the spring-loaded section is at the top. Add or remove sections as needed to match your measured height, allowing for tension.
3. **Attach End Caps:** Place the rubber end caps onto the top and bottom of the assembled pole.
4. **Install Shelves:** Slide the four corner shelves onto the pole. You can adjust their height by placing rubber rings/washers below each shelf to secure them in place. Position the shelves at desired intervals.
5. **Position Caddy:** Place the assembled caddy in the corner of your shower or bathtub. Ensure the top end cap is firmly pressed against the ceiling and the bottom end cap is firmly on the floor or tub surface.
6. **Apply Tension:** Push the top section of the pole upwards until the spring is compressed and the pole is held firmly in place by tension between the floor/tub and ceiling. Rotate the pole slightly if needed to ensure a snug fit.
7. **Final Check:** Gently tug on the pole to ensure it is stable and does not wobble. Adjust shelf positions if necessary.

9" / 22.86 cm

43"/109.22cm
94"/238.76cm

7.9"/20.07cm

OPERATION

The Home Basics 4 Tier Corner Shower Shelf is designed to maximize storage space in your shower. Simply place your bath and

shower essentials, such as shampoos, conditioners, soaps, and sponges, onto the four adjustable shelves. The open wire design allows for quick drainage and air circulation, helping to keep items dry.

Adjustable height to fit most shower stalls

Ideal for storing bath and shower essentials

MAINTENANCE

To ensure the longevity and appearance of your shower caddy, follow these maintenance guidelines:

- **Cleaning:** Wipe the caddy regularly with a soft, dry cloth to remove water spots and soap residue. For more thorough cleaning, use a mild soap and water solution, then rinse and dry completely.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, ammonia-based products, or harsh chemicals, as these can damage the chrome finish and lead to corrosion.
- **Check Stability:** Periodically check the tension of the pole to ensure it remains securely in place. Re-adjust if any looseness is detected.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Caddy is wobbly or unstable.	Insufficient tension; incorrect pole length; uneven surface.	Ensure the pole sections are fully screwed together. Adjust the pole length to create more tension. Verify that the top and bottom surfaces are flat and provide good grip for the end caps.
Shelves slide down the pole.	Rubber rings/washers not properly positioned or missing; shelves overloaded.	Ensure the rubber rings are placed firmly below each shelf to secure its position. Reduce the weight on the shelves.
Rust or discoloration on chrome finish.	Exposure to harsh chemicals; prolonged moisture; hard water stains.	Clean regularly with mild soap and water, then dry thoroughly. Avoid abrasive cleaners. For hard water stains, use a vinegar solution, then rinse and dry.

SPECIFICATIONS

Feature	Detail
Model Name	Home Basics 4 Tier Corner Shower Shelf
Model Number	SC10120
Brand	Home Basics
Number of Shelves	4
Installation Type	Freestanding, Tension Mount
Adjustable Height	Approx. 43" (109.22 cm) to 94" (238.76 cm)
Shelf Dimensions (approx.)	9" (22.86 cm) width x 7.9" (20.07 cm) depth
Finish Type	Chrome
Item Weight	2.6 Pounds (1.18 kg)
Product Care Instructions	Wipe with Dry Cloth
Country of Origin	China
