JANTEX 6193

Jantex Lobby Dustpan and Broom User Manual

Model: 6193

INTRODUCTION

The Jantex Lobby Dustpan and Broom is designed for efficient general maintenance cleaning, particularly in high-traffic areas where quick clean-ups are necessary. Its robust polypropylene construction ensures durability. The long handle design minimizes the need for bending, reducing physical strain. Key features include a wind-break cover on the dustpan to secure collected debris and a broom bracket for integrated, tidy storage, preventing trip hazards.

PRODUCT FEATURES

- **Lobby Dustpan with Wind Break Cover:** Prevents collected debris from scattering.
- **Broom with Bracket:** Allows the broom to securely attach to the dustpan for convenient storage and transport.
- **Long Handle Design:** Reduces the need to bend, promoting ergonomic use.
- **Durable Polypropylene Construction:** Ensures longevity and resistance to wear.
- **Flagged Bristles:** Designed for effective sweeping and dust collection.

SETUP

The Jantex Lobby Dustpan and Broom is designed for quick and easy assembly and use. The broom handle is typically pre-attached to the broom head, and the dustpan handle is integrated.

1. **Unpack Components:** Carefully remove the dustpan and broom from their packaging.
2. **Attach Broom to Dustpan:** Locate the bracket on the dustpan handle. Align the broom handle with this bracket and secure it firmly. This ensures the broom remains upright and attached to the dustpan when not in use, facilitating storage and preventing it from becoming a trip hazard.

OPERATING INSTRUCTIONS

Follow these steps for effective use of your Jantex Lobby Dustpan and Broom:

1. **Position the Dustpan:** Place the dustpan flat on the floor, ensuring the front edge is flush with the surface to allow for easy sweeping of debris.
2. **Sweep Debris:** Detach the broom from its bracket. Using the long handle, sweep debris directly into the dustpan. The flagged bristles are designed to capture fine dust and larger particles efficiently.
3. **Utilize Wind Break Cover:** Once debris is collected, the dustpan's wind break cover will automatically close or can be manually closed to prevent contents from spilling out, especially when moving the dustpan.
4. **Empty Dustpan:** Dispose of collected debris into a waste receptacle.
5. **Secure for Storage:** After use, re-attach the broom to the dustpan's bracket for compact and safe storage.

MAINTENANCE

Proper maintenance will extend the life and effectiveness of your Jantex Lobby Dustpan and Broom.

- **Cleaning the Broom:** After each use, shake out any trapped debris from the broom bristles. For a deeper

clean, the bristles can be rinsed with water and mild soap. Allow to air dry completely before storage.

- **Cleaning the Dustpan:** Wipe the dustpan clean with a damp cloth. For stubborn dirt, use mild soap and water. Ensure it is dry before storing.
- **Storage:** Always store the broom securely attached to the dustpan using the integrated bracket. This keeps the unit compact and prevents the broom from falling over, which could cause a trip hazard or damage the bristles. Store in a dry place away from direct sunlight.

TROUBLESHOOTING

If you encounter any issues with your Jantex Lobby Dustpan and Broom, refer to the following common solutions:

- **Debris Spills from Dustpan:** Ensure the wind break cover is properly engaged after sweeping. If the cover is damaged, contact customer support for replacement options.
- **Broom Not Staying Attached to Dustpan:** Verify that the broom handle is correctly inserted and secured into the dustpan's bracket. Check the bracket for any damage or wear that might prevent a secure fit.
- **Ineffective Sweeping:** Check broom bristles for excessive wear or accumulation of tangled debris. Clean bristles as per maintenance instructions. If bristles are severely worn, consider replacing the broom head if possible, or the entire unit.

- **Difficulty Maneuvering:** Ensure the floor surface is clear of large obstructions. The long handle is designed for ease of use; adjust your grip for comfort.

SPECIFICATIONS

Attribute	Detail
Brand	JANTEX
Model Number	6193 (Manufacturer Part Number: CD059)
Material	Polypropylene (PP)
Color	Black
Product Dimensions (W x H)	6.3"W x 33.46"H (160mm W x 850mm H approx.)
Item Weight	4.41 Pounds (2 kg approx.)
Recommended Uses	Floor Cleaning, Dusting, Cobweb Cleaning
