Targus AKB32ES

Targus AKB32ES Wireless Keyboard for iPad User Manual

Model: AKB32ES

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your Targus AKB32ES Wireless Keyboard. This device is designed to enhance your typing experience with compatible devices, such as iPads and smartphones, through Bluetooth connectivity. Please read this manual thoroughly before using the product.

2. PACKAGE CONTENTS

- Targus AKB32ES Wireless Keyboard (Spanish QWERTY Layout)
- User Manual (this document)

Note: Batteries are not included and must be purchased separately. The iPad or other compatible device shown in product images is not included.

3. SETUP

3.1 Battery Installation

The Targus AKB32ES keyboard requires Alkaline batteries for operation. Follow these steps to install them:

1. Locate the battery compartment cover on the underside of the keyboard.
2. Gently slide or lift the cover to open the compartment.
3. Insert the required Alkaline batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover until it clicks securely into place.

3.2 Bluetooth Pairing

To connect your keyboard to an iPad or other compatible device via Bluetooth:

1. Ensure the keyboard has fresh batteries and is powered on. Look for a power switch or indicator light.
2. Activate the Bluetooth pairing mode on the keyboard. This usually involves pressing a dedicated Bluetooth button or a combination of keys (refer to specific keyboard markings if available). An indicator light on the keyboard may flash to show it is in pairing mode.
3. On your iPad or compatible device, navigate to **Settings** > **Bluetooth**.
4. Ensure Bluetooth is turned **On**.
5. Your device will scan for available Bluetooth devices. Locate "Targus AKB32ES" or a similar name in the list of devices.
6. Tap on the keyboard's name to initiate the pairing process.
7. If prompted, enter the displayed pairing code on your Targus keyboard and press **Enter**.
8. Once successfully paired, the keyboard's indicator light may change or turn off, and your device will show the keyboard as "Connected."

4. OPERATING THE KEYBOARD

4.1 Basic Typing

The Targus AKB32ES features a standard Spanish QWERTY layout. Simply open any text input application on your paired device and begin typing. The input will appear on your screen.

4.2 Special Function Keys

The keyboard includes dedicated function keys for enhanced control over your device. These keys may vary slightly in functionality depending on your operating system (e.g., iOS, Android). Common functions include:

- **Home/Lock Screen:** A key often depicted with a house icon or lock symbol, used to return to the home screen or lock/unlock the device.
- **Volume Control:** Keys for increasing, decreasing, or muting audio volume.
- **Media Playback:** Keys for play/pause, skip track, or previous track.
- **Brightness Control:** Keys to adjust screen brightness.

Refer to the keycap legends for specific icons and their corresponding functions.

5. Maintenance

5.1 Cleaning

To maintain the keyboard's appearance and functionality:

- Ensure the keyboard is powered off before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild, non-abrasive cleaning solution.
- Wipe the keycaps and surface gently. Avoid excessive moisture.
- Do not spray cleaners directly onto the keyboard.
- For debris between keys, use compressed air.

5.2 Battery Replacement

When the keyboard's performance degrades or the indicator light signals low battery, replace the batteries following the steps in Section 3.1. Always use new Alkaline batteries of the specified type.

6. Troubleshooting

If you encounter issues with your Targus AKB32ES keyboard, try the following solutions:

- **Keyboard not powering on:** Check if batteries are correctly installed and have sufficient charge. Replace batteries if necessary.
- **Unable to pair via Bluetooth:**
  - Ensure the keyboard is in pairing mode (indicator light flashing).
  - Verify Bluetooth is enabled on your device.
  - Move the keyboard closer to your device.
  - Forget the device from your device's Bluetooth settings and attempt to re-pair.
  - Restart both the keyboard (by turning off and on) and your device.
- **Keys not responding:**
  - Check battery level.
  - Ensure the keyboard is still connected via Bluetooth.
  - Try re-pairing the keyboard.
  - Clean any debris from around the affected keys.
- **Unexpected characters or layout issues:** Ensure your device's language and keyboard settings are configured for a Spanish QWERTY layout.

7. SPECIFICATIONS

| Brand	Targus
Model Number	AKB32ES
Connectivity Technology	Bluetooth
