## Sanitaire 63253A

# Sanitaire MM Premium Paper Bag Instruction Manual

Model: 63253A

## 1. PRODUCT OVERVIEW

The Sanitaire MM Premium Paper Bag (Model 63253A) is designed as a reliable replacement for Sanitaire Canister Vacuums. This pack contains 5 high-quality paper bags, ensuring a convenient supply for efficient cleaning. Crafted with durable paper material, these bags effectively capture dirt, dust, and micro allergens, promoting a cleaner living environment.

## 2. SETUP AND INSTALLATION

### Installing the Dust Bag

Follow these steps to properly install a new Sanitaire MM Premium Paper Bag into your compatible canister vacuum:

1. **Safety First:** Always unplug your Sanitaire vacuum cleaner from the electrical outlet before performing any maintenance or installation.
2. **Access Compartment:** Locate and open the dust bag compartment on your vacuum. This is typically found on the side or front of the canister unit.
3. **Remove Old Bag (if applicable):** If there is an old bag, carefully remove it. The bag features a 'BAG CLOSURE FLAP' that can be folded down and pushed behind the rubber seal to contain dust before disposal.
4. **Insert New Bag:** Take a new Sanitaire MM Premium Paper Bag. Align the bag collar with the

inlet tube inside the compartment. Push the bag collar firmly onto the inlet tube until it is securely seated. Ensure there are no gaps.

5. **Close Compartment:** Close the dust bag compartment cover firmly until it latches securely. A proper seal is crucial for optimal suction.
6. **Ready for Use:** Plug the vacuum cleaner back into the electrical outlet. Your vacuum is now ready for operation with the new dust bag.

### 3. OPERATING INSTRUCTIONS

Once the Sanitaire MM Premium Paper Bag is correctly installed, your vacuum cleaner is ready for operation. The bag is designed for optimal performance in capturing household dust, dirt, and micro allergens during regular vacuuming. Operate your vacuum according to its specific model's user manual.

## 4. MAINTENANCE

### Replacing the Dust Bag

To maintain optimal vacuum performance and air quality, it is essential to regularly check and replace the dust bag. Replace the bag when it is approximately two-thirds full, or when you notice a decrease in suction power, or when the 'Bag Full' indicator (if present on your vacuum model) illuminates.

1. **Unplug Vacuum:** Always unplug the vacuum cleaner from the electrical outlet before replacing the bag.
2. **Open Compartment:** Open the dust bag compartment.
3. **Seal Bag:** Before removing, fold the 'BAG CLOSURE FLAP' down and push it behind the rubber seal on the bag's cardboard collar. This action seals the bag opening, preventing dust from escaping during removal and disposal.
4. **Remove Bag:** Carefully pull the sealed bag off the inlet tube.
5. **Dispose:** Dispose of the full bag in your household waste.

6. **Install New Bag:** Follow the steps in the 'Setup and Installation' section to install a new Sanitaire MM Premium Paper Bag.

## 5. TROUBLESHOOTING

### Common Issues and Solutions

- **Reduced Suction Power:**
  - Check if the dust bag is full and needs replacement.
  - Ensure the new bag is properly installed and the dust bag compartment is securely closed and latched.
  - Inspect the vacuum's hose, wand, and attachments for any blockages.
- **Dust Escaping from Vacuum:**
  - Verify that the dust bag is correctly seated and sealed within its compartment.
  - Check the dust bag for any tears or damage. If damaged, replace it immediately.
  - Ensure all vacuum covers and filters are properly secured.
