6. Maintenance

To maintain the appearance and longevity of your Atlantic Canoe Multimedia Storage Cabinet, follow these simple care instructions:

- **Cleaning:** Wipe the surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Dusting:** Regularly dust the cabinet with a dry, soft cloth.
- **Placement:** Avoid placing the cabinet in direct sunlight or near heat sources, which can cause fading or warping.
- **Weight Distribution:** Distribute weight evenly across the shelves to prevent stress on the structure.

7. Troubleshooting

If you encounter issues with the stability or assembly of your cabinet, consider the following:

- **Wobbling/Instability:** Ensure all screws are tightened securely. The back panel is crucial for structural integrity; verify it is correctly installed and fastened. If wobbling persists, consider securing the unit to a wall using the provided anti-tip hardware.
- **Loose Dowels/Parts:** During assembly, if dowels or other small parts feel loose, a small amount of wood glue can be applied to the holes for a more secure fit. Allow adequate drying time before placing weight on the shelves.
- **Damaged Parts:** If any parts arrived damaged or are not fitting correctly, do not force them. Contact customer support for replacement parts.
