Spyderco YoJimbo 2 Folding Pocket Knife Instruction Manual

Model: C85G2

[Safety](#) [Features](#) [Setup](#) [Operation](#) [Maintenance & Support](#) [Specifications](#) [Troubleshooting](#) [Warranty](#)

INTRODUCTION

Thank you for choosing the Spyderco YoJimbo 2 Folding Pocket Knife. This manual provides essential information for the safe and effective use, maintenance, and care of your knife. The YoJimbo 2 is designed for precision cutting and durability, featuring a CPM S30V steel blade and a G-10 handle.

SAFETY INFORMATION

WARNING: Knives are inherently dangerous tools. Always exercise extreme caution when handling, opening, closing, or carrying your Spyderco YoJimbo 2. Improper use can result in serious injury.

- Keep the blade clean and sharp. A dull blade requires more force and is more likely to slip.
- Always cut away from your body.
- Ensure the blade is fully locked in the open position before use.
- Keep out of reach of children.
- This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. Handle with care and wash hands after use.

KEY FEATURES

- **Optimized Ergonomics:** Refined handle contours maximize hand contact, ensuring secure grip and promoting a thumb-forward hold that enhances both comfort and cutting efficiency.
- **Premium Blade Steel:** Crafted from CPM S30V stainless steel, the blade offers exceptional edge retention, corrosion resistance, and durability, making it a reliable tool for demanding use.
- **High-Performance Cutting Edge:** The hollow-ground PlainEdge blade provides extreme slicing power, transferring force directly to the tip for consistent penetration and precision cutting.
- **Reinforced Structural Liners:** Skeletonized stainless steel liners strengthen the open-backed

handle while forming the foundation of the high-strength Compression Lock mechanism.

- **Secure Grip Scales:** Peel-ply-textured G-10 scales deliver a non-slip grip in all conditions, while supporting a fully configurable four-position pocket clip for versatile carry.

INITIAL SETUP

Upon receiving your Spyderco YoJimbo 2, carefully remove it from its packaging. Inspect the knife for any visible damage or manufacturing defects. Familiarize yourself with the knife's components before attempting to operate it.

- **Blade:** CPM S30V stainless steel, PlainEdge, Wharncliffe shape.
- **Handle:** G-10 material for secure grip.
- **Locking Mechanism:** Compression Lock.
- **Pocket Clip:** Four-position configurable for versatile carry.

OPERATING INSTRUCTIONS

Opening the Blade

1. Hold the knife firmly in one hand with the blade facing away from you.
2. Place your thumb through the Spyderco Round Hole on the blade.
3. Apply upward pressure with your thumb to smoothly rotate the blade out of the handle until it fully locks into place. You should hear and feel a positive "click" as the Compression Lock engages.
4. Visually confirm the blade is securely locked before any use.

Closing the Blade (Compression Lock)

1. Ensure your fingers are clear of the blade path.
2. Locate the Compression Lock mechanism on the spine of the handle.

3. Press the Compression Lock lever inward towards the handle. This disengages the lock.
4. Carefully fold the blade back into the handle until it is fully nested.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your Spyderco YoJimbo 2.

- **Cleaning:** Hand wash only. Use mild soap and water to clean the blade and handle. Rinse thoroughly and dry immediately with a soft cloth to prevent corrosion. Avoid harsh chemicals or abrasive materials.
- **Lubrication:** Periodically apply a small amount of high-quality knife lubricant to the pivot area to maintain smooth blade action.
- **Sharpening:** The CPM S30V blade steel offers excellent edge retention. When sharpening is required, use a quality sharpening system like the Spyderco Tri-Angle Sharpmaker (available separately) to maintain the factory edge angle.

SPECIFICATIONS

Feature	Detail
Brand	Spyderco
Model Name	C85GP2
Item Model Number	C85G2
Blade Material	CPM S30V Stainless Steel
Blade Length	3.1 Inches
Blade Shape	Wharncliffe
Blade Edge	PlainEdge (Straight)
Handle Material	G-10 (Fiberglass)
Color	Black
Overall Item Length	7.74 Inches
Item Weight	4.1 ounces (0.12 Kilograms)
Locking Mechanism	Compression Lock
Special Feature	Foldable, Locking Blades, Non-Slip Grip
Product Care Instructions	Hand Wash Only
Hand Orientation	Both (Ambidextrous Pocket Clip)
GTIN / UPC	716104007226

TROUBLESHOOTING

- **Stiff Blade Action:** If the blade feels stiff when opening or closing, apply a small drop of quality knife lubricant to the pivot area. Work the blade open and closed several times to distribute the lubricant. If stiffness persists, the pivot screw may be too tight; consult a professional for adjustment if you are not comfortable doing so yourself.
- **Blade Not Locking Securely:** Ensure no debris is obstructing the Compression Lock mechanism. Clean the area thoroughly. If the issue continues, discontinue use and contact Spyderco customer support.
- **Dull Blade:** Refer to the "Maintenance" section for sharpening instructions. A sharp blade is safer and more effective.

WARRANTY AND SUPPORT

Spyderco knives are known for their quality and craftsmanship. For specific warranty information, service, or support, please refer to the official Spyderco website or contact their customer service department directly. Keep your proof of purchase for any warranty claims.
