LEATHERMAN Wingman

LEATHERMAN Wingman Multitool Instruction Manual

Model: Wingman (831426)

PRODUCT OVERVIEW

The LEATHERMAN Wingman Multitool is a versatile, lightweight, and pocket-sized tool crafted from stainless steel. It is designed to be your reliable companion for various tasks around the house, on the job, or at the campsite.

Featuring an outside-accessible, one-hand opening blade and newly designed spring-action jaws, the Wingman combines convenience with robust functionality.

This multitool is equipped with 14 essential tools, including pliers, screwdrivers, wire cutters, a wire stripper, scissors, a package opener, bottle and can openers, a file, and a ruler. Its compact size and removable pocket clip ensure it's always within reach and ready for use.

KEY FEATURES

- **14 Tools in 1:** Equipped with a comprehensive set of tools for various tasks.
- **Spring-Action Pliers:** Features newly designed spring-action jaws for ease of use.
- **One-Hand Opening:** Access the main blade and other tools with a single hand for quick deployment.
- **Durable Construction:** Made from stainless steel for long-lasting performance.
- **Portable Design:** Compact size and removable pocket clip ensure it's always on hand.

SETUP AND BASIC OPERATION

Accessing the Pliers

To deploy the spring-action pliers, simply unfold the two handles of the multitool. The spring mechanism will automatically open the pliers for immediate use.

Using the Knife Blade

The Wingman features an outside-accessible, one-hand opening blade. Simply use your thumb to push the blade outwards until it locks into place. The blade is designed for cutting tasks and features a locking mechanism for safety.

Video 2: Product overview video demonstrating the one-hand opening of the knife blade.

Operating Other Tools

Many tools on the Wingman are accessible from the outside without fully opening the pliers. These include the scissors, package opener, and screwdrivers. Simply pivot the desired tool outwards until it clicks into its working position.

Figure 5: Various screwdrivers (small, medium, Phillips) are available for different fastening needs.

MAINTENANCE

To ensure the longevity and optimal performance of your LEATHERMAN Wingman, regular maintenance is recommended.

- **Cleaning:** After each use, especially in wet or dirty conditions, clean your multitool with fresh water and dry it thoroughly. For stubborn grime, use a mild soap and water solution, then rinse and dry.
- **Lubrication:** Apply a light coat of high-quality lubricant to the pivot points and moving parts periodically to ensure smooth operation.

- **Sharpening:** Keep the knife blade and scissors sharp for best performance. Use appropriate sharpening tools and techniques.
- **Storage:** Store your multitool in a dry environment. The included nylon sheath provides protection from elements and wear.

TROUBLESHOOTING

If you encounter any issues with your Wingman, consider the following common solutions:

- **Stiff Tools:** If tools are stiff or difficult to open, apply a small amount of lubricant to the pivot points and work them back and forth.
- **Blade Not Locking:** Ensure no debris is obstructing the locking mechanism. Clean the area and try again. If the issue persists, refer to warranty information.
- **Rust/Corrosion:** Clean the affected area with a rust remover or fine abrasive, then lubricate. Prevent future corrosion by keeping the tool dry and clean.

SPECIFICATIONS
