## AK Interactive AK00049

# AK Interactive 35ml Odourless Thinners #00049 Instruction Manual

Model: AK00049 | Brand: AK Interactive

## INTRODUCTION

The AK Interactive 35ml Odourless Thinners #00049 is a high-quality artist oil thinning medium designed specifically for modeling. Its improved chemical formula ensures optimal results, making it an essential component for various painting techniques. This product is ideal for thinning oil paints and enamel products, facilitating smooth application and achieving desired effects such as weathering and streaking. It features a low odor formulation for a more comfortable working environment.

## SETUP

Before using the Odourless Thinners, ensure your workspace is well-ventilated. Prepare your paints and tools. Always shake the thinner bottle well before use to ensure consistent composition. Keep the bottle tightly closed when not in use to prevent evaporation and maintain product quality.

## OPERATING

### Thinning Paints

The Odourless Thinners are designed to dilute oil and enamel paints to achieve the desired consistency for various applications. Start by adding a small amount of thinner to your paint on a palette. Mix thoroughly and test the consistency. Adjust the ratio as needed. For airbrushing, a thinner consistency is usually required to prevent clogging and ensure smooth flow. For brush painting, a slightly thicker consistency might be preferred for better control.

## Application Techniques

- **Weathering and Streaking:** Apply thinned paint to create realistic weathering effects. The thinner allows for subtle blending and streaking, enhancing the realism of your models.
- **Panel Lining:** For precise panel lining, dilute your paint to a very thin consistency. The low viscosity allows the paint to flow easily into panel lines and recesses, defining details.
- **Brush Cleaning:** This product can also be used effectively for cleaning brushes used with oil and enamel paints.

## MAINTENANCE

---

### Brush Cleaning

After each use, clean your brushes thoroughly with the Odourless Thinners. Dip the brush into a small amount of thinner and gently work the paint out of the bristles. Repeat until the brush is clean. Rinse with soap and water if desired, and reshape the bristles before storing.

### Storage

Store the Odourless Thinners in a cool, dry place away from direct sunlight and heat sources. Ensure the cap is tightly sealed to prevent evaporation and maintain product efficacy. Keep out of reach of children and pets.

## TROUBLESHOOTING

---

- **Paint too thick/thin:** Adjust the thinner-to-paint ratio. Start with a small amount of thinner and gradually add more until the desired consistency is achieved.
- **Airbrush clogging:** Ensure your paint is adequately thinned. Clean your airbrush thoroughly after each use to prevent paint buildup.
- **Uneven application:** Practice on a scrap surface to find the optimal thinning ratio and application technique for your specific paint and desired effect.

## SPECIFICATIONS

---

Feature	Detail
Brand	AK Interactive
Model Number	AK00049
Item Volume	35 Milliliters
Special Feature	Low Odor
Paint Type Compatibility	Oil, Enamel
Item Form	Liquid
Package Information	Bottle
Product Dimensions	2.76 x 1.57 x 1.38 inches
Item Weight	1.41 ounces

## SAFETY INFORMATION

---

**DANGER:** Combustible liquid and vapor. Harmful or fatal if swallowed. Always use in a well-ventilated area. Avoid prolonged breathing of vapors. Wear appropriate personal protective equipment, such as gloves and eye protection, to prevent skin and eye contact. In case of contact, rinse immediately with plenty of water. If swallowed, do not induce vomiting; seek immediate medical attention. Keep away from open flames, sparks, and other ignition sources. Keep out of reach of children and pets.

## **WARRANTY AND SUPPORT**

---

For specific warranty information or technical support regarding your AK Interactive 35ml Odourless Thinners #00049, please refer to the manufacturer's official website or contact their customer service directly. Product support and additional resources may also be available through authorized retailers.
