Product Instruction Manual

LIGHTING EVER LED FLASHLIGHT

Brand: Lighting EVER | Model: 1200012

1. Overview

The Lighting EVER LED Flashlight is a compact, high-lumen device designed for various outdoor and emergency situations. It features an adjustable focus, allowing users to switch between a spot beam and a flood beam. Constructed with a premium aluminum casing, it boasts a skid-proof and water-resistant (IPX4) design, ensuring durability and reliability. This portable flashlight is powered by three AAA batteries and provides a super bright, long-lasting light with a beam distance of up to 492 feet and a luminous flux of approximately 140 lumens.

2. What's in the Box

Upon unboxing your Lighting EVER LED Flashlight, you will find the following components:

- Bright and handheld LED flashlight (1 unit)
- AAA batteries (3 units)
- Instruction manual

Figure 2: All components included in the product package.

3. Setup

To prepare your flashlight for first use, follow these steps for battery installation:

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Locate the white battery holder inside the flashlight body.
3. Insert three AAA batteries into the battery holder, ensuring correct polarity (positive (+) and negative (-) ends match the markings on the holder). The flat end of the battery typically goes against the spring in the holder.
4. Slide the loaded battery holder back into the flashlight body. An arrow on the holder indicates the correct insertion direction, pointing towards the flashlight head.
5. Screw the tail cap back onto the flashlight body by turning it clockwise until it is securely tightened.

4. Operating Instructions

The Lighting EVER LED Flashlight is designed for simple and efficient operation:

- **Power On/Off:** Press the button located on the tail cap to turn the flashlight on or off. This model features a single power setting.
- **Adjusting Focus (Zoom Function):** To adjust the beam from a narrow spot to a wide flood, gently pull the head of the flashlight outwards to zoom in, or push it inwards to zoom out. This allows you to concentrate the light for long-distance illumination or spread it for wider area coverage.

Adjustable Focus

5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your flashlight:

- **Cleaning:** Wipe the exterior of the flashlight with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace all three AAA batteries simultaneously when the light dims significantly. Refer to the "Setup" section for detailed battery installation instructions.
- **Storage:** If storing the flashlight for an extended period, remove the batteries to prevent leakage and potential damage to the device.
- **Water Resistance:** While the flashlight is water-resistant (IPX4), it is not designed for submersion. Ensure the tail cap is securely tightened to maintain water resistance.

6. Troubleshooting

If you encounter issues with your flashlight, consider the following common solutions:

- **Flashlight not turning on:**

- Check if the batteries are inserted with correct polarity.
- Ensure the tail cap is fully tightened. A loose tail cap can prevent electrical contact.
- Replace old batteries with new ones.

- **Light is dim or flickering:**

- Batteries may be low. Replace with fresh AAA batteries.
- Ensure battery contacts are clean and free of corrosion.

- **Focus adjustment is stiff:**

- Wipe the sliding mechanism with a clean, dry cloth to remove any dirt or debris.

7. Specifications

Feature	Detail
Brand	Lighting EVER
Model Number	1200012
Special Feature	Portable, Adjustable Light Modes, Adjustable Focus
Color	Black
Power Source	Battery Powered
Light Source Type	LED
Material	Aluminum
White Brightness	140 Lumens
Included Components	Battery
Product Dimensions	4.2"D x 1.2"W x 1.2"H
Voltage	4.5 Volts (AC)
Light Path Distance	500 Feet
Battery Cell Composition	Alkaline
Item Weight	104.33 Grams (3.68 ounces)
Number of Batteries	3 AAA batteries required. (included)
Water Resistance Level	Water Resistant (IPX4)
Runtime	30000 hours
Country of Origin	China

8. Warranty and Support

For warranty information, technical support, or any inquiries regarding your Lighting EVER LED Flashlight, please refer to the contact details provided in the original product packaging or visit the official Lighting EVER website. Keep your purchase receipt as proof of purchase for warranty claims.
