# Livex Lighting Monterey Outdoor Wall Lantern Instruction Manual

Model: 2356-07 (Also applicable to 2251-07, 2351-07)

## INTRODUCTION

This manual provides detailed instructions for the safe installation, operation, and maintenance of your Livex Lighting Monterey Outdoor Wall Lantern. Please read all instructions carefully before beginning installation and retain this manual for future reference. This fixture is designed for outdoor use and features a durable bronze finish with clear beveled glass panels.

## SAFETY INFORMATION

- **WARNING:** To avoid electric shock, ensure power is turned off at the circuit breaker or fuse box before installation, servicing, or changing bulbs.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Consult a qualified electrician if you are unfamiliar with proper electrical wiring.
- This fixture is intended for outdoor use. Ensure all wiring connections are properly sealed to prevent water intrusion.
- Do not exceed the maximum wattage specified for the bulbs.
- Handle glass components with care to prevent breakage.

## PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Monterey Outdoor Wall Lantern Fixture
- Mounting Hardware (Mounting plate, screws, wire nuts)
- Instruction Manual

*Note: Bulbs are not included and must be purchased separately.*

## SETUP AND INSTALLATION

Follow these steps for proper installation:

1. **Turn off Power:** Locate the circuit breaker or fuse box that controls the power to the desired installation location.  
Turn off the power completely.
2. **Prepare Mounting Surface:** Ensure the mounting surface is clean, dry, and structurally sound.
3. **Attach Mounting Plate:** Secure the mounting plate to the electrical junction box using the provided screws. Ensure the plate is level and firmly attached.
4. **Make Electrical Connections:** Carefully connect the fixture's wires to the house wires using the provided wire nuts. Match the wires as follows:
  - Black (Live/Hot) fixture wire to Black (Live/Hot) house wire.
  - White (Neutral) fixture wire to White (Neutral) house wire.
  - Green or Bare Copper (Ground) fixture wire to Green or Bare Copper (Ground) house wire.Ensure all connections are secure and insulated.
5. **Mount the Fixture:** Carefully align the fixture with the mounting plate and secure it in place using the provided screws or nuts. Ensure the fixture is flush against the mounting surface.
6. **Install Bulbs:** Insert the appropriate candelabra base bulbs (not included) into the sockets. Refer to the specifications section for maximum wattage.
7. **Restore Power:** Once installation is complete and all connections are secure, turn the power back on at the circuit breaker or fuse box.

Image: Livex Lighting Monterey Outdoor Wall Lantern. This image displays the complete assembled outdoor wall lantern, featuring a bronze finish, clear beveled glass panels, and three candelabra-style bulb sockets visible inside the lantern enclosure. The fixture is designed to be mounted to a wall, with a decorative curved arm extending from the wall plate to support the lantern body.

## OPERATING INSTRUCTIONS

Once properly installed and powered, the Livex Lighting Monterey Outdoor Wall Lantern operates via the wall switch or external control (e.g., dimmer, timer, photocell) to which it is connected. Ensure the correct type and wattage of bulbs are installed for optimal performance and safety.

## MAINTENANCE

- Cleaning:** To clean the fixture, turn off the power and allow it to cool. Wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as they may damage the finish or glass.
- Bulb Replacement:** Turn off the power before replacing bulbs. Allow old bulbs to cool before removing. Replace with new candelabra base bulbs of the specified wattage.
- Inspection:** Periodically inspect the fixture for any signs of wear, damage, or loose connections. Address any issues promptly.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on	No power to fixture Loose wiring connection Faulty bulb Faulty wall switch	Check circuit breaker/fuse. Verify all wire connections are secure (power off). Replace bulb. Test or replace switch.
Light flickers	Loose bulb Loose wiring connection Incorrect bulb type/wattage	Tighten bulb. Check wiring connections (power off). Ensure correct bulb type and wattage.
Glass panels are loose	Retaining clips/screws are loose	Carefully tighten retaining clips or screws holding the glass panels.
