Zoo Med A343

Zoo Med Repti Calcium with D3 Reptile Supplement Instruction Manual

Model: A343

1. INTRODUCTION

Zoo Med Repti Calcium with D3 is an ultra-fine precipitated calcium carbonate supplement specifically formulated for reptiles and amphibians. This phosphorus-free supplement is designed to enhance calcium bioavailability, supporting the overall health and well-being of your pets. It is crucial for preventing metabolic bone diseases and ensuring proper bone development.

2. PRODUCT BENEFITS

- Provides a highly bioavailable source of calcium carbonate.
- Formulated to be phosphorus-free, which is essential for reptile health.
- Helps prevent metabolic bone diseases.

- Free of harmful impurities, ensuring a safe supplement for your pets.
- Features an ultra-fine powder for easy application and adherence to feeder insects.

3. INGREDIENTS

The primary ingredients in Zoo Med Repti Calcium with D3 are Precipitated Calcium Carbonate and Cholecalciferol (Source of Vitamin D3).

4. DIRECTIONS FOR USE

General Application

The powder can be scooped or sprinkled from the jar using the dual-access lid. Always ensure even coating for optimal intake.

Specific Guidelines:

- **Insectivores:** Place crickets or other feeder insects in a plastic bag along with Repti Calcium powder. Gently shake the bag to 'dust' the crickets with the powder. Feed dusted crickets approximately 2-3 times per week for every 2.5 ounces (71 grams) of body weight.
- **Herbivores:** Add approximately 1/2 teaspoon (2.5 cc) of Repti Calcium to food for every 5 ounces (142 grams) of body weight on a weekly basis.
- **Omnivores:** Use either of the above methods as desired, adjusting frequency based on your pet's specific needs and veterinarian recommendations.

For use with reptiles and amphibians only. Consult a veterinarian for specific dietary needs or concerns.

5. STORAGE

Store in a cool, dry place. Keep out of reach of children.

6. SPECIFICATIONS

Feature	Detail
Brand Name	Zoo Med
Item Model Number	A343
Item Weight	3 Ounces
Item Dimensions (LxWxH)	3 x 3 x 6 inches
Flavor	Vitamin D3
Product Benefits	Highly bioavailable calcium, prevents bone diseases, impurity-free
Material	Plastic (container)
Target Audience Keyword	arachnids, arthropods, bearded-dragons, crabs, dogs, frogs, geckos, hermit-crabs, iguanas, lizards, newts, reptile-and-amphibian-pets, reptiles, salamanders, snakes, spiders, tortoises, turtles

7. TROUBLESHOOTING

If your reptile or amphibian shows reluctance to consume food dusted with Repti Calcium, try the following:

- Reduce the amount of powder initially and gradually increase it.
- Ensure the feeder insects are still active and appealing after dusting.
- Confirm appropriate UVB lighting is provided, as D3 metabolism is linked to UVB exposure.
- Consult a reptile veterinarian if concerns about your pet's health or diet persist.

8. WARRANTY AND SUPPORT

For product inquiries, technical support, or warranty information, please contact Zoo Med Laboratories directly. Refer to the product packaging for the most current contact details or visit the official Zoo Med website.
