Safety Instructions

- Ensure the product is used only in dry, indoor environments.
- Do not expose the device to water or excessive humidity.
- Do not attempt to disassemble or modify the product.
- Keep out of reach of children.
- Only plug into a standard wall outlet with the correct voltage.
- Avoid covering the night light during operation to prevent overheating.

Setup

1. **Unpack the Device:** Carefully remove the Kanlux Elma 98081 from its packaging.
2. **Select a Location:** Choose a standard wall outlet in your desired location. Ensure the outlet is easily accessible and not obstructed.
3. **Plug In:** Insert the night light directly into the wall outlet. Ensure it is securely seated. The night light will illuminate automatically if it has a light sensor, or it may have a manual switch.

Operating Instructions

- **Night Light Function:** The LED night light typically operates automatically, turning on in low light conditions and off in brighter environments, thanks to an integrated light sensor. If there is a manual switch, refer to the product packaging for specific operation.
- **USB Charging Ports:** To charge a device, connect your device's USB cable to one of the two USB ports on the front of the night light. Ensure your device is compatible with standard USB charging. The charging function operates independently of the night light.

Maintenance

- **Cleaning:** Disconnect the night light from the power outlet before cleaning. Wipe the surface with a soft, dry cloth. Do not use abrasive cleaners, solvents, or excessive moisture.
- **Storage:** If storing the device, ensure it is clean and dry. Store in a cool, dry place away from direct sunlight.

Troubleshooting

- **Light Not Turning On:**
 - Check if the night light is securely plugged into a working outlet.
 - Ensure the room is dark enough for the light sensor to activate (if applicable).
 - Verify if there is a manual switch and if it is in the "ON" position.
- **USB Ports Not Charging:**
 - Ensure the night light is properly plugged into a live power outlet.
 - Check the USB cable for damage and ensure it is correctly connected to both the night light and

your device.

- Test with a different USB cable or device to rule out compatibility issues.
