WANGE 8014

Wange The Big Ben of London Building Blocks 1642pcs Set Instruction Manual

Model: 8014

Introduction

This instruction manual provides essential information for the assembly, use, and maintenance of your Wange The Big Ben of London Building Blocks set, model 8014. This set allows you to construct a detailed replica of the iconic Big Ben landmark using 1642 interlocking plastic pieces. Please read these instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

Safety Information

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended for younger builders.
- Keep all packaging materials away from children to prevent suffocation.
- Do not ingest any parts of the building block set.
- Ensure a clean and organized workspace to prevent loss of small pieces.

Package Contents

Before starting assembly, verify that all components are present in the box. The package should contain:

- Approximately 1642 interlocking plastic building blocks.
- One instruction booklet with detailed assembly steps.

Assembly Instructions (Setup)

Follow the steps below to assemble your Big Ben model. Refer to the included instruction booklet for detailed, step-by-step diagrams and piece identification.

1. **Preparation:** Unpack all components and organize the building blocks by color, size, or type as suggested in the instruction booklet. This will simplify the building process.
2. **Foundation:** Begin by constructing the base of the Big Ben model according to the first steps in the instruction booklet. Ensure the foundation is stable and level.
3. **Layered Construction:** Proceed with building the structure layer by layer, carefully following the diagrams. Pay close attention to the orientation of each block.
4. **Detailing:** As you progress, integrate the smaller, more intricate pieces to form architectural details, windows, and clock faces.
5. **Tower and Spire:** Construct the main tower sections and the spire, ensuring each section is securely connected to the previous one.
6. **Final Touches:** Attach any remaining decorative elements or small components to complete the model.
7. **Verification:** Double-check all connections to ensure the model is sturdy and complete.

Note: The included instruction booklet contains specific visual guides for each step. If a piece is difficult to connect, ensure it is the correct piece and that it is oriented properly. Do not force pieces together.

Operating (Display and Interaction)

Once assembled, your Wange Big Ben model is designed for display and gentle interaction.

- **Display:** Place the completed model on a stable, flat surface away from direct sunlight, excessive heat, or high humidity to preserve its integrity and color.
- **Interaction:** The model is primarily for static display. While durable, excessive handling or rough play may cause pieces to detach.

Maintenance

Proper care will help maintain the appearance and longevity of your building block model.

- **Cleaning:** To remove dust, gently wipe the model with a soft, dry cloth. For more stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss and protect them from dust and damage.
- **Sunlight Exposure:** Prolonged exposure to direct sunlight may cause the plastic colors to fade over time.

Troubleshooting

Here are solutions to common issues you might encounter during assembly or use.

- **Missing Pieces:** Carefully re-check the packaging and your workspace. If pieces are genuinely missing, contact WANGE customer support (refer to the "Support" section).
- **Difficulty Connecting Pieces:** Ensure you are using the correct pieces for the step. Verify their orientation. Building blocks are designed to fit snugly; avoid excessive force.
- **Model Instability:** Review previous assembly steps to ensure all connections are firm and that no pieces are incorrectly placed, which could affect structural integrity.

Specifications

Feature	Detail
Brand	WANGE
Model Name/Number	8014
Number of Pieces	1642
Material	Plastic
Educational Objective	Creative Thinking, Problem Solving Skills, Spatial Reasoning
Theme	Architecture
Special Features	Non Toxic
Item Dimensions (L x W x H)	50 x 9 x 30 centimetres
Item Weight	2200 Grams
