## INTRODUCTION

---

The Sauder Shoal Creek Storage Chest provides a functional storage solution for various items such as pillows, blankets, books, and toys. Its design includes a large hidden storage area beneath the lid and features a lid stay mechanism for enhanced safety. The chest is finished in Oiled Oak, offering a versatile aesthetic suitable for different room settings.

## SAFETY INFORMATION

---

- **Lid Stay Mechanism:** The storage chest is equipped with a safety hinge lid designed to ensure smooth operation and prevent sudden closing, thereby reducing the risk of injury, particularly to children.
- **Ventilation:** Standard ventilation is integrated into the design for safety.
- **Weight Capacity:** The lid is not intended for sitting. The maximum weight capacity for items stored inside is 120 pounds.
- **Assembly:** Ensure all parts are correctly assembled and tightened according to the provided instructions to maintain structural integrity and safety.
- **Placement:** Place the chest on a flat, stable surface to prevent tipping.

## PARTS LIST

---

Before beginning assembly, verify that all components are present and undamaged. Refer to the included hardware pack for specific part identifiers and quantities.

- Side Panels (Left, Right)
- Front Panel
- Back Panel
- Bottom Panel
- Top Lid
- Lid Stay Mechanism (Hinges, Gas Strut/Spring)

- Assembly Hardware (Cam Dowels, Cam Screws, Hidden Cams, Screws, etc.)

## SETUP & ASSEMBLY

---

The Sauder Shoal Creek Storage Chest requires assembly. It is designed for straightforward assembly. Follow the detailed instructions provided in the product packaging. A Phillips head screwdriver is typically required.

### Key Assembly Steps:

1. **Prepare Workspace:** Clear a spacious, clean, and level area for assembly.
2. **Identify Parts:** Lay out all panels and hardware, matching them with the parts list and diagrams in your manual.
3. **Attach Cam Dowels and Screws:** Insert cam dowels into designated pre-drilled holes on panels. Screw cam screws into corresponding panels.

4. **Connect Panels:** Align panels by inserting cam dowels and screws into their respective holes. Then, insert hidden cams into the cam holes. Turn the hidden cams approximately 210 degrees clockwise with a screwdriver to securely lock the connection.
5. **Install Lid Stay Mechanism:** Secure the hinges and lid stay mechanism to the chest body and lid as per the specific instructions. Ensure the lid stay operates smoothly to prevent the lid from slamming.
6. **Final Checks:** Verify all connections are tight and the assembled chest is stable before use.

## OPERATION

---

The Sauder Shoal Creek Storage Chest is designed for easy access and safe storage. To open, gently lift the lid. The integrated lid stay mechanism will hold the lid open at various angles, preventing it from slamming shut. To close, gently push the lid down until it rests securely on the chest frame.

## CARE & MAINTENANCE

---

- **Cleaning:** Wipe surfaces with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the Oiled Oak finish.
- **Spills:** Promptly wipe up any spills to prevent staining or damage to the engineered wood material.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration of the finish over time.
- **Moisture:** Keep the chest away from excessive moisture or high humidity. While the product is water-resistant, it is not waterproof.
- **Hardware:** Periodically inspect and tighten all assembly hardware to ensure the chest remains stable and secure.

## TROUBLESHOOTING

---

### Lid does not stay open or closes too quickly:

Check the installation of the lid stay mechanism. Ensure it is securely attached to both the lid and the chest body and is functioning correctly. Refer to the assembly instructions for proper installation and adjustment.

### Chest feels wobbly or unstable:

Verify that all cam screws and hidden cams are fully tightened. Ensure the chest is placed on a level surface. If necessary, adjust the placement or use shims to stabilize.

### Scratches or minor damage to the finish:

Minor blemishes can often be touched up using a furniture repair pen or marker that closely matches the Oiled Oak finish. Test on an inconspicuous area first.

## SPECIFICATIONS

---

Feature	Detail
Brand	Sauder
Model Number	412221
Color	Oiled Oak
Material	Engineered Wood
Product Dimensions (L x W x H)	34.88" x 15.08" x 18.94"
Item Weight	46 Pounds
Capacity	120 Pounds
Closure Type	Flip Top
Special Feature	Storage, Safety Hinge Lid
Assembly Required	Yes
UPC	700867380368, 042666108966, 000004120933, 042666104258
