Julius-K9 IDC Powerharness 2XL/3

IDC Powerharness Instruction Manual

Model: IDC Powerharness 2XL/3
Brand: Julius-K9

1. PRODUCT OVERVIEW

The IDC Powerharness is designed for professional control during urban walks and daily activities. It offers an efficient power transmission system, allowing for effective control with less effort. The harness is engineered for quick fitting and reliable performance, ensuring both the dog's comfort and the owner's ease of use.

IDC®POWER

PROFESSIONAL CONTROL FOR URBAN WALKS

The IDC®Powerharness is your dog harness for bustling days, early morning walks, and getting around safely. It is a harness you can fit in one move and count on when you need it.

2. SAFETY INFORMATION

It is important to prioritize your pet's safety when using any harness. Please observe the following guidelines:

- Do not leave your animal unattended while tied up with a leash and collar or harness.
- This product is designed for joint activities between human and dog. Do not leave your dog alone with the harness, as they might chew on it or attempt to swallow parts, which could lead to injury.
- Regularly inspect the harness for any signs of wear or damage. Discontinue use if any damage is found to ensure your pet's safety.

3. FITTING AND ADJUSTMENT

Proper fitting of the IDC Powerharness is crucial for your dog's comfort and the harness's effectiveness. The harness is designed for a one-click fit for daily use.

3.1. Size Selection

The IDC Powerharness is available in various sizes, each specifically designed to provide optimal comfort and fit for different dog sizes. Refer to the size chart below to select the appropriate harness for your dog based on their chest circumference and weight.

JULIUS-K9® Size chart / Größentabelle

IDC® POWERHARNESS®

BABY 1

Chest circumference /
Brustumfang: **29–36 cm / 11.5–14 in**
Weight / Gewicht: **0,8–3 kg / 2–6.5 lbs**

BABY 2

Chest circumference /
Brustumfang: **33–45 cm / 13–17.5 in**
Weight / Gewicht: **2–5 kg / 4.5–11 lbs**

MINI-MINI

Chest circumference /
Brustumfang: **40–53 cm / 15.7–20.9 in**
Weight / Gewicht: **4–7 kg / 8.8–15.4 lbs**

MINI

Chest circumference /
Brustumfang: **49–67 cm / 19.3–26.4 in**
Weight / Gewicht: **7–15 kg / 15.4–33 lbs**

0

Chest circumference /
Brustumfang: **58–76 cm / 22.8–30 in**
Weight / Gewicht: **14–25 kg / 31–55 lbs**

1

Chest circumference /
Brustumfang: **63–85 cm / 26–33.5 in**
Weight / Gewicht: **23–30 kg / 50.5–66 lbs**

2

3.2. Adjustment for Optimal Fit

The harness features adjustable straps to ensure a snug yet comfortable fit. The chest strap is parallel to the leash, optimizing power transmission. The special angle of the chest strap allows the harness to rest on the ideal zone of the chest, freeing your dog's neck for unrestricted breathing and ensuring free movement for the front legs. This is known as the 'Green Zone' design principle.

GREEN ZONE DESIGN PRINCIPLE: FREE MOVEMENT. FREE BREATHING.

Unlike collars, the special angle of the chest strap allows the IDC®Powerharness to rest on the ideal zone of the chest. This completely frees your dog's neck for healthy, unrestricted breathing while ensuring free movement for the front legs.

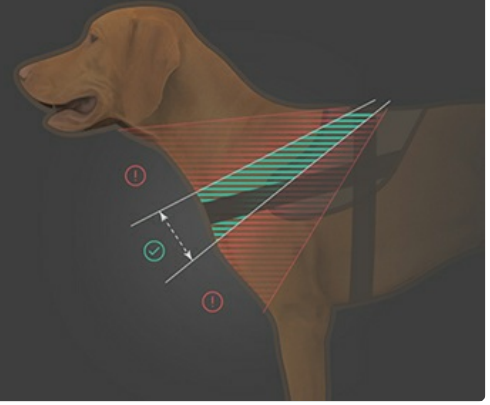

Image: Diagram explaining the 'Green Zone' design principle, highlighting the optimal placement of the chest strap for free movement and breathing.

4. KEY FEATURES AND DESIGN

The IDC Powerharness incorporates several design innovations for enhanced performance and user experience:

- **Efficient Power Transmission:** The chest strap's alignment with the leash allows for effective control with minimal effort.
- **Green Zone Design:** Ensures the harness rests on the ideal chest area, allowing unrestricted breathing and free front leg movement.
- **Heavy-Duty Handle:** A sturdy handle atop the harness provides confident control, useful for guiding your dog in various situations (e.g., stairs, getting out of a car). This handle can be strapped down when not in use.
- **One-Click Fit:** Designed for quick and easy application, making daily use convenient.
- **High-Visibility Reflective Elements:** Integrated reflective components enhance visibility in low-light conditions, improving safety.
- **Customizable Patches:** Interchangeable hook-and-loop patches allow for personalization or display of useful information.
- **Optional Chest Pad:** An optional chest pad is available for additional power distribution and comfort.
- **Side Bag Attachment:** From medium sizes upwards, side bags can be attached for carrying essentials.

5. USAGE GUIDELINES

The IDC Powerharness is ideal for everyday use, providing a secure and comfortable solution for walks and training. Its design allows you to hold back or stop your dog with less effort when needed.

To use, simply adjust the straps to fit your dog according to the fitting instructions, then secure the harness with the one-click buckle. Attach your leash to the sturdy D-ring on the back of the harness. The heavy-duty handle can be used for immediate control or guidance in specific situations.

6. CARE AND MAINTENANCE

To ensure the longevity and hygiene of your IDC Powerharness, follow these care instructions:

- The harness is designed for durability and is easy to clean.
- It is machine washable. For best results, use a gentle cycle with cold water and a mild detergent.
- Air dry the harness completely. Do not tumble dry, as high heat can damage the materials and reflective elements.
- Regularly check the buckle and straps for any dirt or debris that might affect their function.

7. SPECIFICATIONS

The IDC Powerharness is constructed with high-quality materials for reliability and durability.

- **Materials:** Features a first-class, OEKO-TEX-certified inner lining ensuring high product safety and comfort. Straps are made from OEKO-TEX certified German textile.
- **Buckle:** Equipped with a shatterproof buckle for secure fastening.
- **Visibility:** Incorporates reflective elements for enhanced visibility.
- **Manufacturing:** Carefully manufactured by hand in the EU.
- **Available Sizes:** Refer to the size chart in Section 3.1 for detailed chest circumference and weight ranges.

8. TROUBLESHOOTING

While the IDC Powerharness is designed for reliability, minor issues may occasionally arise. This section addresses common concerns:

- **Harness feels too tight or too loose:** Re-check your dog's measurements against the size chart in Section 3.1. Adjust the chest and belly straps to ensure a snug fit that allows two fingers to comfortably slide under the straps.
- **Dog seems uncomfortable:** Ensure the harness is positioned correctly according to the 'Green Zone' principle (Section 3.2), avoiding pressure on the neck or restricting leg movement. If discomfort persists, re-evaluate the size.
- **Harness slipping:** This usually indicates the harness is too loose or the wrong size. Tighten the adjustable straps or consider a smaller size if your dog is between sizes.

For issues not covered here, please refer to the support information in Section 9.

9. WARRANTY AND SUPPORT

Julius-K9 stands by the quality and durability of its products. For specific warranty information, product support, or to inquire about replacement parts, please visit the official Julius-K9 website or contact their customer service directly. Continuous load testing and innovation are part of Julius-K9's commitment to product development, backed by over 25 years of experience in harness design and manufacturing.
